Š. Chládek, L. Pešek, P. Procházka: Simple model for investigation of aeroelastic coupling in linear blade cascades	9
J. Kozánek, J. Zapoměl: There are linear dynamical systems with "multiple eigenvectors"?	13
M. S. Kozień: Sensitivity of basic natural frequency of the probe for gigacycle fatigue tests on its geometry	15
D. Maturkanič, P. Procházka, R. Hodboď, E. B. Tchouou Tchuisseu: Applicability of the deterministic methods in blade tip-timing analysis	19
J. Náprstek, C. Fischer: Random response of a dynamic system under polynomial of a white noise	25
M. Pavlenko: Borehole system for formation of increased fracturing of a coal seam using vibration	29
L. Pešek, P. Šnábl, V. Bula: Contribution to HPC FEM calculations of bladed disk dynamics with dry-friction contacts	33
C. S. Prasad, L. Pešek: A hybrid boundary element based aeroelastic model for flexible wing	39
P. Procházka, V. Uruba, L. Pešek: The effect of angle of attack on a blade cascade with overlap	45
P. Procházka, E. Voronova, D. Maturkanič: Dependence of signal strength on the radial distance and different types of magnets	47
V. Radolf, J. Horáček, J. Košina: Human vocal tract models with yielding walls – preliminary experimental results	53
J. Rendl, Š. Dyk: Dynamics of Jeffcott rotor supported by tilting-pad journal bearings	57
L. Smolík, P. Polach, M. Hajžman: The role of machining errors in dynamics of a turbocharger rotor supported on grooved full-floating ring bearings	61
P. Šnábl, L. Pešek, V. Bula, J. Cibuka: Influence of contact region size between damping wire and metal ring on overall damping	69

P. Šulc, L. Pešek, V. Bula, J. Košina, J. Cibuka: Design of experiment for temperature dependence of rubber samples under torsional harmonic load	73
E. B. Tchawou Tchuisseu, P. Procházka, D. Maturkanič: A simple algorithm for probes positioning in BTT systems	77
J. Zapoměl, J. Kozánek, J. Košina, J. Cibulka: Modelling and simulation of self-balanced vertical rigid rotors	83
D. Ziemianski, B. Dziadosz: Pure tone audiometry in diagnosing hearing loss in professional musicians	87
I. Zolotarev, V. Bula, P. Šnábl, D. Gabriel, J. Dobiáš, J. Masák, J. Snížek, J. Souček: Dynamic and heat transfer analysis of a container with measuring instruments for space probes	91
