Volume 2

General identification wheels	820	Inoperculate cup fungi	1348
Polypores	824	Earthtongues and the like	1350
Polypores with a stem	826	Large, gelatinous inoperculate cup fungi	1364
Clustered polypores	846	Downy to hairy inoperculate cup fungi.	1372
Perennial polypores	854	High or long-stemmed, smooth to felty	
Annual, capped polypores	886	inoperculate cup fungi	1404
Annual, resupinate polypores	932	Low, smooth to felty inoperculate	
Rosette-fungi and the like	952	cup fungi	1426
Corticoids	960	Erumpent inoperculate cup fungi	1468
Capped corticoids	962	Lichens	1484
Meruloid corticoids	974	Calicioids and mycocalicioids	1494
Fragile corticoids	986	Mildews and cleistothecial fungi	1500
Smooth, firm, ± whitish corticoids	1000	Pyrenomycetous fungi	1510
Smooth, firm, coloured corticoids	1012	Hypocrealean pyrenomycetous fungi	
Spiny corticoids	1036	and others	1512
Hydnoids	1054	Hard, stromatic pyrenomycetous fungi .	1546
Cyphelloids	1076	Non-stromatic, dark, unitunicate	
Claviroids	1092	pyrenomycetous fungi	1582
<i>Dacrymycetales</i>	1154	Bitunicate, non-hysterioid pyrenomycetous	
Jelly fungi	1162	fungi	1602
Rusts and smuts	1198	Hysterioid, pyrenomycetous fungi	1614
<i>Exobasidiales</i>	1214	<i>Laboulbeniales</i>	1620
Bird's nest fungi	1216	<i>Taphrinales</i>	1622
Stinkhorns	1222	Asexual fungi	1626
Puffballs and similar gasteroid fungi	1228	<i>Mycetozoa</i>	1646
Truffles	1256	Literature	1660
Operculate cup fungi	1278	Index of genera, species, etc.	1674
Morels and the like	1280	Glossary	1708
Operculate cup fungi with dull colours.	1290	Photographers	1714
Yellow, orange, red to pink operculate			
cup fungi	1328
