INTRODUCTION

Understand the Science of Story	3
Transform Numbers into Narratives	5
Communicate Data to Lead	7
Invest Time in Communication Skills	9
Embrace the Power of Story	11

SECTION 1 | COMMUNICATE DATA TO OTHERS

I. Becoming a Communicator of Data

Invest in Data Communication Skills	17
Explain Data Through Storytelling	19
Become Like the Mentor in a Story	21
Resolve a Spectrum of Problems and Opportunities with Data	23
Move into a Creative Process	25
Cultivate Your Intuition	27

II. Communicating to Decision-Makers

Know Your Decision-Maker	33
Respect Their Time; Executives Are Busy	35
Know How Executives Are Measured	37
Understand How Executives Consume Information	39
Expect Questions and Interruptions	41

SECTION 2 | BRING CLARITY THROUGH STORY STRUCTURE

III. Crafting a Data Point of View

Formulate Your Data Point of View (DataPOV™)	49
Understand How Great Brands Communicate with Data	51
Choose the Most Effective Action for Your DataPOV	53
Decipher Performance and Process Verbs	55
Craft Actions with the Best Strategic Insight	57

IV. Structuring an Executive Summary as a DataStory

Leverage the Structure of a Story Arc	63
Write an Executive Summary in Three Acts	65
Change the Fortune of the Messy Middle	67
Use Your DataPOV as the Third Act	69

v. Creating Action Through Analytical Structure

Blend Logical and Persuasive Writing	75
Structure a Recommendation Tree	77
Define Actions to Support Your DataStory	79
Motivate by Explaining Why	81
Be Your Own Skeptic	83
Include Assumptions by Stating “This Is True If...”	85
Review the Components of a Recommendation Tree	87

SECTION 3 | MAKE CLEAR CHARTS AND SLIDES

vi. Choosing Charts and Writing Observations

Choose Charts Everyone Understands	95
Write Clear Chart Titles	97
Make Descriptive Observations	99
Use Adjectives for Bar Charts to Observe Size	101
Use Adjectives for Component Charts to Observe Ratios	103
Use Adverbs for Line Charts to Observe Trends	105

vii. Annotating Insights onto Charts

Overlay Visual Annotations onto a Chart	111
Amplify a Data Point	113
Add Math to Data Points	115
Make Insights Visually Consumable	117

viii. Building a Skimmable Slidedoc™*

Build a Recommendation as a Slidedoc	123
Think of a Slidedoc as a Visual Book	125
Organize Content to Be Readable	127
Deviate from Standard Format for Emphasis	129
Emphasize Text That Must Be Read	131
Review the Anatomy of a Recommendation Tree	133
Review a Slidedoc as a Recommendation Tree	135

**A Slidedoc is a dense slide intended to be read, not presented.*

SECTION 4 | MAKE DATA STICK

IX. **Marveling at the Magnitude**

Attach the Data to Something Relatable	143
Develop a Sense of Scale	145
Connect Data to Relatable Size	147
Connect Data to Relatable Time	149
Compare Data to Relatable Things	151
Express How You Feel About the Data	153

X. **Humanizing Data**

Meet the Hero and Adversary of the Data	159
Know the Adversary in the Data	161
Address the Conflict in the Data	163
Speak with the Characters	165
Share Context to Add Meaning to Data	167
Save Lives with Data Case Study: Dr. Rosalind Picard	169

XI. **Storytelling with Data**

Leverage the Temporal Dimension When Presenting Data	179
Reveal Hidden Data	181
Reveal Hidden Data Case Study: Al Gore	185
Tell a Story with an Emotional Arc Case Study: Kurt Vonnegut	187
Data Confirms an Emotional Arc in Stories	191
Reverse Ill Fortune into a Cinderella Arc Case Study: Internal All-Hands Meeting	195
Charity: Water Storytelling with Data Case Study: Scott Harrison	197

SUMMARY 205

APPENDIX

Move the Narrative Forward	209
Speed Up Decision-Making with a One-Page Recommendation Tree	211
