

Contents

| | | |
|--|---|------------|
| 1 | Enhancing Creative Capacities in Mathematically-Promising Students. Challenges and Limits | 1 |
| | Florence Mihaela Singer | |
| Part I Frameworks for Studying Mathematical Creativity and Giftedness | | |
| 2 | Mathematical Creativity: Product, Person, Process and Press | 27 |
| | Demetra Pitta-Pantazi, Maria Kattou and Constantinos Christou | |
| 3 | Mathematical Giftedness and Creativity in Primary Grades | 55 |
| | Daniela Assmus and Torsten Fritzlar | |
| 4 | Cognitive Variety in Rich-Challenging Tasks | 83 |
| | Cristian Voica and Florence Mihaela Singer | |
| 5 | Mathematical Creativity and Its Subdomain-Specificity. Investigating the Appropriateness of Solutions in Multiple Solution Tasks | 115 |
| | Maike Schindler, Julia Joklitschke and Benjamin Rott | |
| Part II Characteristics of Students with Exceptional Mathematical Promise | | |
| 6 | Characteristics of Mathematical Giftedness in Early Primary School Age | 145 |
| | Daniela Assmus | |
| 7 | The Cognitive Demand of a Gifted Student's Answers to Geometric Pattern Problems | 169 |
| | Angel Gutierrez, Clara Benedicto, Adela Jaime and Eva Arbona | |

| | | |
|--|--|------------|
| 8 | Twice-Exceptional Students: Students with Special Needs and a High Mathematical Potential | 199 |
| | Marianne Nolte | |
| Part III Teaching Strategies to Foster Creative Learning | | |
| 9 | Flexibility of Pre-services Teachers in Problem Posing in Different Environments | 229 |
| | Wajeeh Daher and Ahlam Anabousy | |
| 10 | Ornaments and Tessellations: Encouraging Creativity in the Mathematics Classroom | 253 |
| | Hana Moraová, Jarmila Novotná and Franco Favilli | |
| 11 | Instances of Promoting Creativity with Procedural Tasks | 285 |
| | Michal Tabach and Alex Friedlander | |
| Part IV Tasks and Techniques to Enhance Creative Capacities | | |
| 12 | Gifted Students Approaches When Solving Challenging Mathematical Problems | 309 |
| | Andreas Poulos and Joanna Mamona-Downs | |
| 13 | Repeated Participation at the Mathematical Olympiads: A Comparative Study of the Solutions of Selected Problems | 343 |
| | Ingrida Veilande, Liga Ramana and Sandra Krauze | |
| 14 | Complex and Open-Ended Tasks to Enrich Mathematical Experiences of Kindergarten Students | 373 |
| | Viktor Freiman | |
| | Commentary Paper: A Reflection on Mathematical Creativity and Giftedness | 405 |
| | Linda Jensen Sheffield | |
| | Author Index | 425 |
| | Subject Index | 427 |
