## Session 1: Satellite Navigation Systems

Chairman: Wilde, J.

Wilde, J. - United Nations GNSS Activities Forward in 2005 and beyond	1
Shaw, M. - GPS Policy	3
Dubay, C.; Stephanos, G. - GPS Modernization Status	5
Casswell, R. - GPS Status and Information Sources	7
Salvano, D.; Gomez, P. - FAA Satellite Navigation Program	11
Revnivych, S.; Merkureva, I. - GLONASS - system status report	17
Benshoof, P. - Civilian GPS Systems and Potential Vulnerabilities	21
Pozzobon, O.; Wullems, C. - Security issues in next generation satellite systems	25
Basker, S. - European Radio Navigation Plan	29

## Session 2: Satellite Navigation Systems Applications

Chairman: Vejražka, F.

Vejražka, F. - Czech National Report	33
Kovář, P. - Experimental GNSS Software Receiver	39
Dvořák, I. J. - Satellite Positioning and Navigation for Environmental Protection	43
Kučera, K.; Dobrozemský, M. - GPS Applications in Czech Aviation Authority Measurements	47
Příbyl, P. - Optimization of City Network Based on Satellite Positioning System	51
Gurník, P.; Trégl, O. - Satellite based train location	55
Specht, C. - Mathematical Model of DGPS Availability and Continuity	59
Oszczak, S.; Popielarczyk, D.; Oszczak, B. - System for DGPS/RTK Teletransmission of Data via GSM/GPRS - Polish Developments	63

## Session 3: Real-Time Differential GNSS

Chairman: Weber, G.

Mervart, L. - Real-Time Deformation Monitoring of GPS Networks	67
Dettmering, D. - EUREF-IP: Streaming GNSS Data over Internet using NTRIP	69
Sledzinski, J. - The EUPOS Project - A European Position Determination system	73
Stoecker, D. - Networked DGPS via Internet	79
Visser, H. - World-wide real-time decimeter positioning and navigation based on a global network or precise orbit-clock solutions	83
Horvath, T. - NTRIP-based DGPS service in Hungary	91
Řezníček, J.; Pašek, O. - CZEPOS - multipurpose positioning system for the Czech Republic	95
Radovan, D. - Slovenian GPS network SIGNAL: Slovenia-Geodesy-Navigation-Location	97
