

Contents

Preface, v
Acknowledgements, v
About the authors, vi
Second edition, vii
Introduction, viii

Part 1 Optical mineralogy, 1

The polarizing microscope, 1
Description of minerals, 2
Shape and habit of crystals, 2
Colour and pleochroism, 6
Cleavage, 8
Relief, 10
Birefringence, 14
Extinction angles, 18
Twinning and zoning, 20
Undulose extinction and sub-grain structure, 22
Alteration, 24
Grain size, 26

Part 2 Minerals, 27

Olivine, 28
Orthopyroxene, 30
Clinopyroxene, 32
Two-pyroxene intergrowth, 34
Amphibole, 36
Biotite, 38
Muscovite, 40
Chlorite, 42
Quartz, 44
Feldspars, 46
Sanidine, 48
Microcline, 50
Plagioclase, 52
Nepheline, 56
Calcite, 58
Garnet, 60
Opaque minerals, 62

Part 3 Igneous rocks, 65

Peridotite, 72

Basalt, 74
Olivine basalt, 76
Basalt, 78
Dolerite, 80
Olivine gabbro, 82
Gabbro, 84
Andesite, 86
Diorite, 88
Granodiorite, 90
Rhyolite, 92
Microgranite, 94
Granite, 96
Alkali granite, 98
Phonolite, 100
Nepheline syenite, 102
Lamprophyre, 104
Ignimbrite, 106

Part 4 Sedimentary rocks, 109

Terrigenous clastic rocks, 109
Carbonate rocks, 112
Quartz arenite, 116
Feldspars in sedimentary rocks, 118
Sub-arkose, 120
Arkose, 122
Sub-litharenite, 124
Litharenite, 126
Wacke/Greywacke, 128
Micaceous sandstone, 130
Calcareous sandstone, 132
Glaucconitic sandstone, 134
Mudstone, 136
Ooid grainstone, 138
Ooid packstone, 138
Bioclast packstone, 140
Bioclast wackestone, 140
Intraclast grainstone, 142
Peloid grainstone, 142
Carbonate mudstone, 144
Dolomite, 146
Radiolarian chert, 148
Replacement chert, 150
Evaporite, 152

Ooidal ironstone, 154
Banded ironstone, 156
Volcaniclastic rocks, 158
Porosity in sedimentary rocks, 160

Part 5 Metamorphic rocks, 163

Textures of metamorphic rocks, 168
Schistosity and schists, 170
Gneissic foliation and gneisses, 172
Mylonite, 174
Cataclasite, 176
Crenulations, 178
Lineations, 180
Reaction textures, 182
Metamorphosed mudstones (pelites), 186
Chloritoid schist, 188
Garnet mica schist, 190
Staurolite schist, 192
Kyanite gneiss, 194
Garnet-sillimanite gneiss, 196

Andalusite-cordierite hornfels, 198
Garnet-cordierite hornfels
(Granofels), 200

Metamorphosed carbonate rocks, 202
Forsterite and diopside marble, 204
Metamorphosed basic rocks, 206
Garnet epidote amphibolite, 208
Amphibolite, 210
Two pyroxene granofels, 212
Glaucophane-lawsonite-schist
(Blueschist), 214
Glaucophane-epidote (Blue) schist, 216
Eclogite, 218
Ultramafic rocks, 220

Appendices, 223

Appendix I, 224
Appendix II, 226

Index, 229
