

## Contents

<b>Heart</b>	Heart rate . . . . .	9
	Intracardiac and intravascular pressures . . . . .	17
	Pericardial pressure . . . . .	23
	Jugular vein pulse . . . . .	24
	Arterial blood pressure . . . . .	25
	Systemic vascular resistance . . . . .	41
	Flow:	
	- Introduction . . . . .	43
	- Invasive measurements:	
	Cardiac output, stroke volume . . . . .	44
	- Noninvasive measurements:	
	Cardiac output, stroke volume . . . . .	50
	Flow velocity . . . . .	55
	Cardiac dimensions, volumes and masses:	
	- Autopsy data . . . . .	63
	- Invasive measurements . . . . .	72
	- Noninvasive measurements . . . . .	75
	Total heart volume . . . . .	99
	Cardiothoracic ratio . . . . .	100
	Blood volume . . . . .	101
	Systolic function:	
	- Introduction . . . . .	107
	- Invasive measurements:	
	Wall stress . . . . .	109
	Ejection fraction . . . . .	110
	Wall motion . . . . .	112
	Isovolumic contraction . . . . .	115
	- Noninvasive measurements:	
	Wall stress . . . . .	116
	Ejection fraction . . . . .	116
	Wall motion . . . . .	119
	Systolic time intervals . . . . .	123
	Heart sounds . . . . .	128
	Diastolic function:	
	- Introduction . . . . .	129
	- Relaxation . . . . .	132
	- Rapid filling . . . . .	133
	- Diastasis . . . . .	138
	- Atrial filling . . . . .	139
	Electrical activity of the heart:	
	- Recordings from the body surface . . . . .	140
	- Intracardiac recordings . . . . .	166
	Coronary circulation . . . . .	173
<b>Pulmonary circulation</b>	Pulmonary vascular resistance . . . . .	182
	Pulmonary blood volume . . . . .	184
	Pulmonary capillary blood volume . . . . .	184
	Pulmonary capillary blood flow . . . . .	186
	Ventilation/perfusion ratio . . . . .	187
	Venous admixture . . . . .	187
	Alveolar–arterial oxygen pressure difference . . . . .	188
	Blood gases . . . . .	190
	- Oxygen pressure, carbon dioxide pressure and pH in arterial blood . . . . .	191
	- Oxygen pressure, carbon dioxide pressure and pH in mixed venous blood . . . . .	195
	- Arteriovenous oxygen content difference . . . . .	195
	- Oxygen saturation . . . . .	197
	Lactate . . . . .	201
	Oxygen uptake . . . . .	204
	Anaerobic threshold . . . . .	215
<b>Peripheral circulation</b>	220	
<b>Hormones</b>	Introduction . . . . .	230
	Catecholamines . . . . .	231
	Renin–angiotensin system . . . . .	241
	Kallikrein–kinin system . . . . .	248
	Aldosterone . . . . .	251
	Atrial natriuretic factor . . . . .	254
	Serotonin . . . . .	258
	Vasopressin . . . . .	259
	Endothelin-1 . . . . .	262
<b>Exercise test protocols</b>	263	
	Abbreviations and symbols . . . . .	265
	Index . . . . .	267
