

Contents

Preface	v
1 Introduction	1
1.1 Text formatting	1
1.2 T _E X and its offspring	2
1.3 What's new in L ^A T _E X 2 _ε ?	5
1.4 How to use this book	9
1.5 Basics of a L ^A T _E X file	11
2 Commands and Environments	15
2.1 Command names and arguments	15
2.2 Environments	17
2.3 Declarations	17
2.4 Lengths	18
2.5 Special characters	20
2.6 Fragile commands	22
2.7 Exercises	23
3 Document Layout and Organization	25
3.1 Document class	25
3.2 Page style	31
3.3 Parts of the document	36
3.4 Table of contents	42
3.5 Fine-tuning text	44
3.6 Word division	53
4 Displayed Text	57
4.1 Changing font	57
4.2 Centering and indenting	63
4.3 Lists	66
4.4 Generalized lists	73
4.5 Theorem-like declarations	79
4.6 Tabulator stops	80
4.7 Boxes	84
4.8 Tables	93

4.9	Printing source text	106
4.10	Footnotes and marginal notes	107
4.11	Comments within text	113
5	Mathematical Formulas	115
5.1	Mathematical environments	115
5.2	Main elements of math mode	116
5.3	Mathematical symbols	120
5.4	Additional elements	126
5.5	Fine-tuning mathematics	140
6	Pictures	149
6.1	Picture size and position	149
6.2	The picture environment	150
6.3	The positioning commands	151
6.4	Picture element commands	152
6.5	Further picture commands and examples	162
6.6	Floating tables and figures	172
7	User Customization	181
7.1	Counters	181
7.2	Lengths	184
7.3	User-defined commands	185
7.4	User-defined environments	196
7.5	Some comments on user-defined structures	201
8	Advanced Features	209
8.1	Processing parts of a document	209
8.2	Including $\text{\TeX}$ commands in $\text{\LaTeX}$	214
8.3	In-text references	215
8.4	MakeIndex—a keyword processor	221
8.5	The New Font Selection Scheme (NFSS)	224
8.6	Input encoding	237
8.7	Alternatives for special symbols	238
8.8	Additional standard files	239
8.9	The various $\text{\LaTeX}$ files	243
8.10	Presentation material ($\text{\SL\TeX}$)	247
9	Error Messages	255
9.1	Basic structure of error messages	255
9.2	Some sample errors	264
9.3	List of $\text{\LaTeX}$ error messages	270
9.4	$\text{\TeX}$ error messages	280
9.5	Warnings	286
9.6	Search for stubborn errors	292

Appendices

A Letters	295
A.1 The $\text{\LaTeX}$ letter class	295
A.2 A house letter style	300
A.3 A model letter customization	303
B Bibliographic Databases	309
B.1 The $\text{\BibTeX}$ program	309
B.2 Creating a bibliographic database	311
B.3 $\text{\BibTeX}$ extensions	321
C $\text{\LaTeX}$ Programming	325
C.1 Class and package files	325
C.2 Programming commands of $\text{\LaTeX 2}_\epsilon$	329
C.3 Sample packages	341
D $\text{\LaTeX}$ Extensions	357
D.1 International $\text{\LaTeX}$	357
D.2 $\text{\LaTeX}$ and PostScript	368
D.3 Further $\text{\LaTeX}$ accessories	369
D.4 Installing $\text{\LaTeX 2}_\epsilon$	386
D.5 Sources for $\text{\LaTeX}$ files	387
E Computer Modern Fonts	391
E.1 Introduction	391
E.2 Classification of the basic $\text{\TeX}$ fonts	392
E.3 Text fonts	393
E.4 Decorative families	401
E.5 Mathematical and symbol fonts	402
E.6 Character assignments within a font	405
E.7 Cyrillic fonts	411
E.8 The font files	412
E.9 Remarks on METAFONT	417
E.10 Extended character sets for $\text{\TeX 3.0}$	419
F Command Summary	425
F.1 Brief description of the $\text{\LaTeX}$ commands	425
F.2 Summary tables and figures	506
F.3 Invalid Plain $\text{\TeX}$ commands	514
Bibliography	517
Index	519

List of Tables

8.1	The NFSS encoding schemes	225
8.2	The NFSS <i>series</i> attributes	226
8.3	Attributes of the Computer Modern fonts	227
D.1	The <code>psnfss</code> packages and their fonts	369
F.1	$\text{\LaTeX}$ 2 ϵ font attributes	506
F.2	$\text{\LaTeX}$ 2 ϵ math alphabet commands	506
F.3	Font sizes	506
F.4	$\text{\LaTeX}$ 2.09 font declarations	506
F.5	Dimensions	506
F.6	Environment names	507
F.7	Accents	507
F.8	Special letters from other languages	507
F.9	Special symbols	507
F.10	Command symbols	507
F.11	Greek letters	507
F.12	Binary operation symbols	508
F.13	Relational symbols	508
F.14	Negated relation symbols	508
F.15	Brackets	508
F.16	Arrows	509
F.17	Miscellaneous symbols	509
F.18	Mathematical symbols in two sizes	509
F.19	Function names	509
F.20	Math accents	510
F.21	The standard $\text{\TeX}$ fonts	510
F.22	Magnifications and scaling factors	510

List of Figures

3.1	Page layout parameters	35
3.2	Sample title page	37
4.1	The <code>list</code> parameters	75
D.1	Partial directory tree of CTAN servers	388
F.1	Single column page format	511
F.2	Double column page format	512
F.3	Format of the <code>list</code> environment	513
