Part Three ANALYSING YOUR DATA	STARTING OUT
19 Beginning Data Analysis	case studies
20 Kick-starting your analysis	case studies
21 Interviews	case studies
22 Fieldnotes	case studies
23 Transcripts	case studies
24 Concluding remarks	case studies
25 Summary	case studies
Developing Data Analysis	case studies
<i>Preface</i>	case study: observing heart clinics
Part One THE CONTEXT	case studies in Qualitative Research
1 What is Qualitative Research?	case studies in Qualitative Research
Varieties of quantitative research	case studies in Qualitative Research
Criticisms of quantitative research	case studies in Qualitative Research
Varieties of qualitative research	case studies in Qualitative Research
Criticisms of qualitative research	case studies in Qualitative Research
Conclusion	case studies in Qualitative Research
Summary	case studies in Qualitative Research
2 The Research Experience I	case studies in Qualitative Research
Georgia's research diary	case studies in Qualitative Research
Seta's research diary	case studies in Qualitative Research
Vicki's research diary	case studies in Qualitative Research
Summary	case studies in Qualitative Research
3 The Research Experience II	case studies in Qualitative Research
Interviews	case studies in Qualitative Research
Ethnographies	case studies in Qualitative Research
Texts	case studies in Qualitative Research
Audiotapes	case studies in Qualitative Research
Videotapes	case studies in Qualitative Research
Multiple methods	case studies in Qualitative Research
Summary	case studies in Qualitative Research
4 What Counts as Originality?	case studies in Qualitative Research
Originality	case studies in Qualitative Research
Being a 'professional'	case studies in Qualitative Research
Independent critical thought	case studies in Qualitative Research
Concluding remarks	case studies in Qualitative Research
Summary	case studies in Qualitative Research

CONTENTS

Part Two	STARTING OUT	61
5	Selecting a Topic	61
	Simplistic inductivism	61
	The 'kitchen sink' gambit	63
	Grand theory	64
	Strategies for simplistic inductivists	65
	Strategies for kitchen-sinkers	67
	Strategies for grand theorists	71
	Concluding remarks	71
	Summary	72
6	Theory in Qualitative Research	75
	What is theory?	76
	Theories, models and hypotheses	77
	Generalizations and theory building	83
	How to theorize about data	84
	Conclusion	85
	Summary	86
7	Choosing a Methodology	88
	A case study: HIV counselling	91
	Multiple methods?	98
	Concluding remarks	99
	Summary	100
8	Selecting a Case	102
	Generalizability in qualitative research	102
	Combining qualitative research with quantitative measures of populations	103
	Purposive sampling	104
	Theoretical sampling	105
	Generalizability as present in a single case	108
	Concluding remarks	110
	Summary	111
9	Writing a Research Proposal	113
	Be practical	113
	Be persuasive	114
	Make broader links	114
	Aim for crystal clarity	115
	Plan before you write	116
	Summary	116

Part Three ANALYSING YOUR DATA	119
10 Beginning Data Analysis	119
Kick-starting your analysis	120
Interviews	122
Fieldnotes	126
Texts	128
Transcripts	130
Concluding remarks	135
Summary	136
Conclusion	226
11 Developing Data Analysis	138
A case study: observing heart clinics	138
Fieldnotes and data analysis	140
Transcripts and data analysis	148
Concluding remarks	151
Summary	152
12 Using Computers to Analyse Qualitative Data	154
<i>Clive Seale</i>	154
Advantages of CAQDAS	155
Limitations and disadvantages	161
Mainstream packages: ETHNOGRAPH, NUD•IST and ATLAS	166
Theory building with CAQDAS	168
Hyperlinks to postmodern readings of text	171
Summary	172
13 Validity and Reliability	175
Validity	175
Reliability	185
Conclusion	187
Summary	188
Part Four KEEPING IN TOUCH	191
14 Keeping a Record	191
Recording your reading	191
Research diaries	193
Summary	195
15 Relations in the Field	197
Settings and access	198
Ethics in qualitative research	200
A case study: open access to a public setting	202
Feedback: case studies	205
A case study: gender in the field	206
Feedback as a validation exercise?	208
Summary	209

CONTENTS

16	Getting Feedback	211
Writing		211
Speaking		212
The art of presenting research		214
Conclusion: why does feedback matter?		218
Summary		218
Part Five WRITING UP		
17	The First Few Pages	221
The title		222
The abstract		222
The list of contents		223
The introduction		223
Summary		224
18	The Literature Review Chapter	226
Practical questions		226
Principles		228
Do you need a literature review chapter?		230
Summary		231
19	The Methodology Chapter	233
What should the methodology chapter contain?		233
Concluding remarks		236
Summary		237
20	Writing your Data Chapters	239
The macrostructure		240
The microstructure		244
Tightening up		247
Summary		248
21	The Final Chapter	250
Why the final chapter is necessary		250
What exactly should your final chapter contain?		251
What's good and not so good		251
Theorizing as thinking through data		252
Summary		253
Part Six THE AFTERMATH		
22	Surviving an Oral Examination	257
Preparing for your oral		257
Doing the oral		258
Outcomes		258
Revising your thesis after the oral		259
A case study: an example of a PhD oral examination		260
Summary		260
		263

23 Getting Published	266
Reviewers' comments	267
Summary	270
24 Audiences	272
The policy-making audience	273
The practitioner audience	274
The lay audience	275
Conclusions	276
Summary	276
25 Finding a Job	278
Learning about vacancies	278
Getting on a shortlist	279
The interview	280
Concluding remarks	281
Summary	281
Part Seven EPILOGUE	283
26 The Contested Character of Qualitative Research	283
Quality in four research studies	284
Four 'quality' issues	288
Concluding remarks	294
Summary	295
<i>Appendix: Transcript conventions</i>	298
<i>Glossary</i>	300
<i>References</i>	302
<i>Author index</i>	311
<i>Subject index</i>	314
