| | | |
|---------|--|-----|
| Part I | Invasion and Dissemination | 1 |
| 1 | <i>Treponema pallidum</i> Dissemination; Facilitating Immune Evasion and Bacterial Persistence | 3 |
| | Simon Houston and Caroline E. Cameron | |
| 2 | Immunoseclusion and Chronic Infection by <i>Borrelia burgdorferi</i> | 19 |
| | Robert D. Gilmore Jr. | |
| Part II | Immune Evasion | |
| 3 | <i>Treponema denticola</i> : FhbB, Dentilisin, Complement Evasion and the Paradox of Factor H Cleavage | 43 |
| | John V. McDowell, Daniel P. Miller, Katherine L. Mallory, and Richard T. Marconi | |
| 4 | Borrelial Complement-Binding Proteins | 63 |
| | Peter Kraiczy and Reinhard Wallich | |
| 5 | <i>Treponema pallidum</i> Repeat (<i>tpr</i>) Genes and Antigenic Variation | 89 |
| | Lorenzo Giacani and Arturo Centurion-Lara | |
| 6 | Antigenic Variation of VlsE in <i>Borrelia burgdorferi</i> | 113 |
| | Troy Bankhead | |
| 7 | Modulation of Cytokine Signaling by <i>B. burgdorferi</i> | 125 |
| | Vida A. Dennis, Aarti Gautam, and Saurabh Dixit | |
| 8 | <i>Leptospira</i> : Invasion, Pathogenesis and Persistence | 143 |
| | Syed M. Faisal, Sean P. McDonough, and Yung-Fu Chang | |

| | |
|---|------------|
| 9 Immune Resistance by Relapsing Fever Spirochetes..... | 173 |
| Monica E. Embers and Job E. Lopez | |
| Part III Persistence | |
| 10 Neuroborreliosis Caused by <i>Borrelia burgdorferi</i>: Possible Role of Glial Cells..... | 195 |
| Mario T. Philipp, Geeta Ramesh, and Geetha Parthasarathy | |
| 11 Antibiotic Resistance in <i>Treponema pallidum</i> subsp. <i>pallidum</i>, the Syphilis Agent | 213 |
| Lola V. Stamm | |
| 12 <i>Borrelia burgdorferi</i> Persistence Post-antibiotic Treatment..... | 229 |
| Monica E. Embers and Stephen W. Barthold | |
| Index | 259 |
