

Contents

1. Introduction	7
1.1 Morphogenesis of the East Nepal Himalaya – a challenge and its topics	7
1.2 Geomorphic patterns of the Himalaya in the Makalu Massif – Arun valley section	15
2. Treatise on the landform evolution in the Makalu Barun region	44
2.1 Landforms of the extreme glacial area	44
2.2 Landforms of the glacial area	75
2.3 Landforms of the periglacial area	94
2.4 Landforms of the seasonally cold/warm humid area	118
3. Dynamics and integrity of geomorphic processes in the Nepal Himalaya	131
3.1 Mountain building during the collisional orogeny	131
3.2 Prodigious variety of landform evolution during the Quaternary and its significance (<i>Jan Kalvoda and Philip Gibbard</i>)	157
4. Conclusions	205
A photographic atlas of landforms in the Makalu Barun area of the Nepal Himalaya	211
