

Contemporary Human Geography, Second Edition, presents the latest cutting-edge research and scholarship in human geography so that readers have a better appreciation of the complex relationships between people and places and the challenges and issues facing the world today. From the most recent geographic concepts on culture, to updated coverage of population geography, the authors provide a comprehensive look at human geography that both students and instructors will find engaging.

NEW CHAPTER COVERAGE INCLUDES:

- Visualization tools and applications, such as Google Maps, that geographers and all of us use: **Chapter 1: Human Geography: A Cultural Approach**
- The relationship between everyday freedom of movement and race and ethnicity: **Chapter 5: Geographies of Race and Ethnicity: Melting Pot or Salad Bowl?**
- Changes to national borders and territorial seas caused by rising sea levels: **Chapter 6: Political Geography: A Divided World**
- The idea of happiness as an indicator of development: **Chapter 9: Development Geography: Transforming Landscapes of Well-Being**

The Video Connection presents brief, timely videos that put a human face on important issues in geography so readers can engage in critical thinking and apply human geography concepts. Videos are assignable in SaplingPlus.

Doing Geography: Active and Experiential Learning provide engaging classroom activities and geography projects to help students master geography concepts.

Powered by ArcGIS Web Maps: Students use zoom and search tools, basemaps, and layers to answer questions and deepen their geographic understanding of key topics.

Powered by ArcGIS Story Maps: One story map per chapter has been designed as an extension activity for students on a key topic.

Achieve Read & Practice is the marriage of our LearningCurve adaptive quizzing and our mobile, accessible e-book, in one easy-to-use and affordable product.
