PART I: PRELIMINARIES	1
-----------------------	---

Introduction to intonational phonology	3
1.1 Intonation	4
1.2 The IPO theory of intonational structure	12
1.3 Evidence for phonological assumptions in describing intonation	18
1.4 Paralanguage and intonation	34

Fundamental concepts of the autosegmental–metrical theory	43
2.1 Sequential tonal structure	45
2.2 Pitch accents, prominence, and tune–text association	48
2.3 Analysis of pitch accents in terms of level tones	62
2.4 Phonological interpretation of global F_0 trends	75
2.5 AM description and intonational universals	80

PART II: PITCH	85
----------------	----

Analysis and transcription of intonation	87
3.1 The Pierrehumbert analysis of English intonational phonology	87
3.2 AM descriptions of intonation in other languages	107

Issues in AM pitch phonology	131
4.1 Issues in tonal description	131
4.2 Intonational meaning in AM description	147
4.3 Intonation and lexical uses of pitch	156
Intonational phonetics: alignment and scaling of tonal targets	169
5.1 Alignment of tonal targets with the segmental string	169
5.2 Pitch range and the scaling of tonal targets	188
PART III: PHRASING AND PROMINENCE	211
Patterns of sentence stress	213
6.1 Sentence stress and broad focus	213
6.2 Sentence stress patterns across languages	223
6.3 Typology of sentence stress patterns	251
Phonological issues in sentence stress	254
7.1 Phonological problems with the Focus-to-Accent view	254
7.2 A metrical theory of sentence stress	263
Prosodic structure	281
8.1 The structure of intonational tunes	281
8.2 Aspects of prosodic structure	288
8.3 Some descriptive consequences	299
