

Obsah

Sekcia I: Aplikovaná biológia/Applied Biology

Beblavá, P., Seman, M., Raabová, L. Phototrophic microbiota of selected cave systems of Slovakia	7
Djubašáková, M., Ťrgeová, E. The influence of organic pollutants on algae <i>Euglena gracilis</i> strain Z	9
Franeková, V., Gajdošová, A., Uváčková, Ľ. Acquisition of extracellular proteins from <i>Euglena gracilis</i> cultures	11
Gajdošová, A., Franeková, V., Uváčková, Ľ. Extraction and separation of proteins from <i>Euglena gracilis</i>	13
Hauptvogelová, M., Seman, M., Plevková, J. Cough response in guinea pigs from normal breeding and specific pathogen free (SPF) of guinea pigs after inhalation of selected turgens	15
Havlík, D., Jamrichová, D., Godány, A. The optimization of expression of genes encoding actinophage μ 1/6 tail proteins in <i>Escherichia coli</i> cells	17
Hvojniová, M., Uváčková, Ľ., Čičová, I. Borák lekárskeý <i>Borago officinalis</i> L. - morphological and chemical characterization of genetic resources	19
Charousová, I., Godány, A., Hlebová, M. Urinary tract infections in the intensive care units: etiology, risk factors and antibiotic resistance	21
Jasečková, P., Hlebová, M. The use of natural substances as inhibitors of microscopic filamentous fungi of the genus <i>Aspergillus</i>	23
Kmeťová, D., Kaiglová, A., Hlebová, M. Evaluation of laboratory diagnostic methods in detection of methicillin resistant <i>Staphylococcus aureus</i>	25
Kondelová, M., Koreňová, J., Véghová, A., Krajčovič, J., Siekel, P. Ensuring microbiological quality and stability of new food products	27
Krajčoviechová, I., Raabová, L. The effect of streptomycin and ofloxacin on the growth of <i>Synechococcus bigranulatus</i>	29
Krasňanská, G., Šramková, Z. Production of recombinant peptidoglycan-degrading enzymes encoded by <i>Pseudomonas</i> bacteriophages	31

Kubo, R., Hlebová, M.	33
The use of natural substances as inhibitors against yeast of genus <i>Candida</i>	
Lulovičová, S., Šramková, Z., Godány, A.	
Characterization of prophage genes encoding endolysins in <i>Ralstonia eutropha</i> genomes	35
Marková, P., Raabová, L.	
Morphological identification of cyanobacteria from the cooling towers, The Bohunice Nuclear Power Plant	37
Martinkovič, K., Čičová, I.	
Genus <i>Pelargonium</i> - morphological and chemical characterization of genetic resources for the purposes of special plant production	39
Richterová, N., Seman, M.	
Psychrophilic microbiota of selected caves in Slovakia	41
Schneiderová, M., Vešelényiová, D., Raabová, L., Krajčovič, J.	
Are calpain homologs, detected in eukaryotic microorganisms, also present in the genetic makeup of cyanobacteria?	43

Sloviak Podhorská, L., Hlebová, M.	45
Mycobiota of green and roasted coffee beans	
Šimková, R., Krajčovič, J., Kešel'áková, M., Vešelényiová, D.	47
Metabolism of polysaccharides in phototrophic microorganisms	
Vozárová, A., Seman, M.	
Isolation and identification of emerging pathogens of the taxa <i>Vibrionaceae</i> from the waters of the Little Danube River	49
Žarnovičanová, S., Rešková, Z., Krajčovič, J., Siekel, P.	51
Identification and typing of <i>Listeria monocytogenes</i> strains in food products	

Sekcia II: Biomedicínska chémia/Biomedical Chemistry

Beňovič, P., Maliarová, M., Šimko, V.	55
Determination of curcumin stability by HPLC	
Biathová, A., Chorvát, D., Marček Chorvátová, A.	57
Measuring time-resolved parameters of NADH	
Drdúlová, J., Maliarová, M.	59
Physico-chemical, analytical and biological properties of avenantramides	
Forgáčová, V., Baráthová, M., Pastorek, J.	
The effect of combination therapy with selected beta-blocker and resveratrol on tumor cells	61
Javorová, N., Hlaváčová, N.	63
Dopamine in animal models of stress	

Kačeríková, L., Adamcová, V., Lesný, J.	
Determination of cobalt in ^{58}Co labeled radioactive solution using sub-superequivalent method of IDA	65
Kajsík, M., Křižanová, O.	
Changes in the apoptosis induction in tumor cells due to treatment with selected chemoterapeutics	67
Kiššimon, F., Rimarčík, J.	
Study of natural bioactive compounds - Thermodynamics of selected chemical bonds cleavage	69
Klokočíková, M., Maliarová, M., Šnauko, M., Kráľová, J.	
Study of physical/chemical profiles of pharmaceutical intermediates and the influence of their properties to the quality of active pharmaceutical substances	71
Matejová, M., Cagalinec, M.	
Mito-Kikume GR 1: spectral properties and monitoring of mitochondrial dynamics in Wolfram syndrome	73
Miková, D., Maliarová, M.	
Testing of disinfectants effectiveness used for sanitation/disinfection of cleanrooms of microbiological laboratory	75
Moravčíková, H., Zahradníková, A.	
Tubular system stability in cultured cardiac myocytes	77
Ovšonková, L., Lajdová, I., Marček Chorvátová, A.	
Monitoring distribution of cholesterol in human peripheral blood mononuclear cells	79
Sampor, S., Nemeček, P.	
The quantitative study between chemical structure of furo[2',3':4,5]pyrrolo[1,2-d][1,2,4]triazine derivatives and their antibacterial activity	81
Staníková, N., Maliar, T., Gašparová, R.	
Synthesis and biological activity of selected 8-hydroxyquinoline derivatives	83
Ševčíková, A., Křižanová, O.	
Changes in levels of cytosolic calcium due to various chemotherapeutics in RCC4 cells	85
Tabačková, V.	
Changes in the expression of junctophilin in cardiomyocytes during hypertrophy	87
Vaculková, Z., Kajanová, I.	
Influence of vitamin C on tumor cells and their microenvironment	89

Valušková, Z., Grossmannová, K.

Effect of natural polyphenol resveratrol on tumor microenvironment

91

Sekcia III: Biotechnológia/Biotechnology

Al Ramadan, R., Moravčíková, J.

Oilseed rape in *in vitro* conditions

95

Červeňáková, P., Machalová, L., Adamcová, V., Horník, M.

Evaluation of microelements uptake by freshwater plants using positron emitters

97

Dohnálová, N., Chmelová, D., Ondrejovič, M.

The production of polyhydroxybutyrate by the bacteria *Cupriavidus necator*

99

Joštiaková, J., Chmelová, D., Ondrejovič, M.

The *Solanum tuberosum* polyphenol oxidases

101

Marčeková, N., Kraic, J.

Simple and effective protocols for DNA isolation from seeds with high level of polysaccharides

103

Marušinová, A., Havrlentová, M.

The quality of non-traditionally colored wheat and its potential in Slovak agriculture and food industry

105

Moravková, I., Chmelová, D., Ondrejovič, M.

Extraction of antioxidants from grape pomace

107

Petrúřová, N., Havrlentová, M., Lančaričová, A.

Quality of poppy seed oil

109

Sekcia IV: Chémia/Chemistry

Gášparová, M., Tokárová, Z.

Synthesis of selected heterocycles with application potential

113

Gáššová, L., Nemeček, P.

Optimization and validation of HPLC method for determination of selected phenolic acids

115

Laluhová, T., Rajnák, C.

Mononuclear pentacoordinate Fe(III) complexes as a potential single-ion magnets

117

Maxianová, P., Eckstein-Andicsová, A., Tokárová, Z.

Derivatives of mono and diimides of naphthalene-1,8-dicarboxylic acid, synthesis and application

119

Mičová, R., Rajnák, C., Moncol', J.

Study of Mn(II) chain complexes with benzoato bridges

121

Vašica, A., Vranovičová, B.

Iron complexes with amino acids

123

Veselovská, B., Vranovičová, V., Valigura, D.

Iron complexes with small biomolecules and their relations to biomineralization

125
