Preface vi

PART I INTRODUCTION TO ANTHROPOLOGY

Chapter 1 What Is Anthropology? 1

The Scope of Anthropology, 1

The Holistic Approach, 2

The Anthropological Curiosity, 3

Fields of Anthropology, 3

The Usefulness of Anthropology, 9

Summary, 11

Notes, 12

PART II HUMAN EVOLUTION: BIOLOGICAL AND CULTURAL

Chapter 2 Evolution 13

The Principles of Natural Selection, 14

Heredity, 16

Sources of Variability, 20

The Origin of Species, 22

Natural Selection of Behavioral Traits, 23

Summary, 25

Notes, 25

Chapter 3 Primate Evolution: From Early Primates to Hominoids 27

Common Primate Traits, 28

Distinctive Human Traits, 30

Interpreting the Fossil Record, 34

The Emergence of Primates, 36

The Emergence of Anthropoids, 40

The Miocene Anthropoids: Monkeys, Apes,
and Hominids(?), 42

The Divergence of Hominids from the
Other Hominoids, 43

Summary, 44

Notes, 45

Chapter 4 Early Hominids and Their Cultures 48

Trends in Hominid Evolution, 48

Australopithecines: The Earliest

Definite Hominids, 54

Early Species of *Homo*, 58

Early Hominid Cultures, 58

Homo erectus, 61

Homo erectus Cultures, 64

Summary, 66

Notes, 67

Chapter 5 The Emergence of *Homo sapiens* and Their Cultures 70

The Transition from *Homo erectus*
to *Homo sapiens*, 70

Neandertals and Other Definite

Homo sapiens, 71

Middle Paleolithic Cultures, 73

The Emergence of Modern Humans, 75

Upper Paleolithic Cultures, 78

The Earliest Humans and Their Cultures
in the New World, 83

Summary, 86

Notes, 87

Chapter 6 Human Variation 90

Processes in Human Variation, 91
Physical Variation in
 Human Populations, 93
 "Race" and Racism, 101
The Future of Human Variation, 107
Summary, 108
Notes, 108

Chapter 7 The Emergence of Food Production and the Rise of States 111

Preagricultural Developments, 113
The Domestication of Plants
 and Animals, 117
Why Did Food Production Develop? 123
Consequences of the Rise of Food
 Production, 125
Origins of Cities and States, 127
Summary, 138
Notes, 139

PART III CULTURAL VARIATION

Chapter 8 The Concept of Culture 145

Attitudes That Hinder the Study
 of Cultures, 146
Defining Features of Culture, 148
Describing a Culture, 152
Some Assumptions about Culture, 156
Summary, 160
Notes, 160

Chapter 9 Communication and Language 162

Communication, 163
The Origins of Language, 165
Structural Linguistics, 168
Historical Linguistics, 173
Relationships between Language
 and Culture, 178

The Ethnography of Speaking, 181
Summary, 186
Notes, 187

Chapter 10 Getting Food 190

Food Collection, 191
Food Production, 194
Environmental Restraints
 on Food-Getting, 199
The Spread and Intensification
 of Food Production, 201
Summary, 202
Notes, 203

Chapter 11 Economics and Social Stratification 205

The Allocation of Resources, 205
The Conversion of Resources, 209
The Distribution of Goods and Services, 216
Social Stratification, 227
The Emergence of Stratification, 234
Summary, 236
Notes, 236

Chapter 12 Sex, Gender, and Culture 241

Sex and Gender Differences, 242
Sexuality, 256
Summary, 259
Notes, 260

Chapter 13 Marriage and the Family 264

Marriage, 264
The Family, 279
Summary, 283
Notes, 284

Chapter 14 Marital Residence and Kinship 287

Patterns of Marital Residence, 288
Explanations of Variation in Residence, 289

The Structure of Kinship, 293

Kinship Terminology, 304

Summary, 310

Notes, 311

Chapter 15 Political Life: Social Order and Disorder 313

Variation in Types of Political

Organization, 314

Variation in Political Process, 323

Summary, 332

Notes, 333

Chapter 16 Religion and Magic 337

Variation in Religious Beliefs, 338

Variation in Religious Practices, 343

Types of Practitioner, 346

Religion and Adaptation, 349

Summary, 351

Notes, 352

Chapter 17 Applied Anthropology and Social Problems 354

Applied and Practicing Anthropology, 355

Global Social Problems: Basic Research

and Possible Solutions, 358

Making the World Better, 370

Summary, 370

Notes, 371

Glossary 374

Bibliography 383

Index 413
