

Contents

Foreword	xiii
Preface.....	xv
Chapter 1 A History of Lie Detection.....	1
Ancient Traditions	2
Observations of Behavior	4
Observations of Physiology	6
Modern Developments.....	8
Instrumentation	8
Cardiovascular Measures	8
Breathing.....	12
Electrodermal.....	13
First Precedent in Law	15
The Advent of Multiple Recordings	17
Modern Instrumentation	18
Evolution of Techniques	20
Evolution of Analytic Methods.....	23
Final Comment	25
References.....	25
Chapter 2 Anatomy and Physiology for Polygraph	
Examiners	29
Joel M. Reicherter	
Background.....	29
Organization.....	30
Integumentary System	32
Nervous System	34
Cardiovascular System.....	46
Respiratory System	53
Conclusion	60
About the Author	60
References.....	60
Chapter 3 Test Question Construction.....	61
Irrelevant Questions	64
Examples of Irrelevant Questions.....	64
Relevant Questions	65
Primary Relevant Questions	66
Secondary Relevant Questions	68

Probable-Lie Comparison Questions	68
Exclusionary Phrases	70
Examples of PLCs	70
Directed Lie Comparison Questions	73
Examples of DLCs	74
Other Common Questions	75
Sacrifice Relevant Question	75
Symptomatic Questions	75
Introductory Question	76
Less Common Questions	76
Countermeasure Question	76
Guilt Complex Question	77
Hope/Fear Questions	77
Overall Truth	78
Positive Control	78
Conclusion	78
References	78

Chapter 4	Data Collection.....	81
	Explaining Sensors to the Examinee	81
	General Introduction	82
	Pneumographs	82
	Electrodermal	82
	Photoplethysmograph	83
	Cardiovascular	83
	Motion Sensor	83
	Sensor Placement	83
	Pneumograph Sensors	83
	Electrodermal Sensors	84
	Photoplethysmograph Sensor	86
	Blood pressure Cuff	86
	Motion Sensor	88
	Tracing Appearance	88
	Pneumograph	88
	Electrodermal	89
	Photoplethysmograph	90
	Motion Sensor	90
	Cardiovascular	91
	Appearance of the Chart	93

	Final Comment	94
	Reference	94
	Recommended Readings	94
Chapter 5	Analysis of Polygraph Data.....	95
	Definitions.....	95
	Other Definitions	96
	How to Approach Chart Interpretation	97
	Features	97
	Electrodermal.....	98
	EDR Exemplars	99
	Amplitude	99
	Cardiovascular	100
	Cardiovascular Exemplars	101
	Artifacts in the Cardiovascular Channel	101
	Vasomotor	103
	Pneumograph	103
	Suppression.....	104
	Slowing	104
	Baseline Rise	104
	Movement Sensor	106
	Scoring Systems.....	107
	About 7-Position Scoring	108
	About 3-Position Scoring	108
	About the ESS.....	108
	Scoring Rules.....	109
	Response Windows.....	109
	Scoring the Pneumograph.....	110
	Scoring the Electrodermal Channel	112
	Scoring the Cardiograph	113
	Scoring the PPG.....	115
	Rank Order Scoring	115
	Decision Rules	117
	Multiple-Issue and Multiple-Facet	
	Examinations	117
	7- and 3-Position Scoring	118
	Empirical Scoring System	118
	Single-Issue Examinations: Investigative	119
	Federal Zone Comparison Technique	119

“You Phase”	120
Utah Probable-Lie Test	121
Single-Issue Examinations: Evidentiary	121
Global Analysis	122
Purposeful Non-cooperation	123
References.....	123

Chapter 6 Polygraph Screening 127

Overview	128
Successive Hurdles	129
Test Topics	130
Adjudications	132
Recording.....	133
Surveys.....	133
Significant Case Tracking.....	133
Results.....	133
General Suggestions for Pretest Interviews	134
Directed-Lie Screening Test	136
DLST Pretest Interview	137
Introduction of the Directed Lies.....	137
DLST Test Phase	138
DLST Scoring.....	139
DLST Decision Rules	139
Next Steps	140
Air Force Modified General Question Technique.....	141
AFMGQT Pretest.....	142
AFMGQT Test Phase.....	142
AFMGQT Scoring	144
AFMGQT Decision Rules	145
Relevant/Irrelevant Screening Test	145
RI Pretest	146
RI Test Phase	146
RI Scoring Rules.....	147
RI Decision Rules	147
Screening Examination Reports	148
References.....	148

Chapter 7 Specific-Issue Testing Techniques..... 151

Case Preparation	152
Pretest Interview	153
The Introduction	153
Overview of the Process	154

Consent Form, Rights Advisement	154
Gathering Biographic Information	154
Explaining the Polygraph	155
Discussion of Test Issues	155
Question Introduction	156
Acquaintance Test.....	156
Federal Zone Comparison Technique	156
FZCT Test Phase.....	158
FZCT Scoring Rules	159
FZCT Decision Rules	159
Utah Probable Lie Test	159
UPLT Test Phase.....	160
UPLT Scoring	162
UPLT Decision Rules	162
Air Force Modified General Question Technique.....	163
Versions of the AFMGQT	164
AFMGQT Scoring	164
AFMGQT Decision Rules	165
References.....	166

Chapter 8 Recognition Tests 167

Peak of Tension.....	167
Constructing KSPOTs.....	168
Constructing SPOTs	170
Analyzing the POT	171
Concealed Information Test.....	172
CIT Instrumentation.....	177
CIT Testing	178
Analyzing the CIT	180
Summary of Best CIT Practices	182
References.....	184

Chapter 9 Scientific Issues..... 185

Validity.....	185
Reliability	188
Types of Validity Studies	189
Field Studies	189
Laboratory Studies.....	190
Effect of Decision Rules	191
Effects of Base Rates	194
Polygraph Theories.....	201
Psychological Set.....	201
Relevant Issue Gravity.....	203

	Differential Salience	203
	Preliminary Process Theory.....	204
	References.....	204
Chapter 10	Polygraph Legal Issues	207
	Gordon L. Vaughan	
	Admissibility of Evidence of Polygraph Examination Results.....	207
	From <i>Frye</i> to <i>Daubert</i>	207
	Post-Daubert Admissibility of Polygraph Evidence.....	212
	Stipulated Polygraph Evidence.....	217
	Polygraph Evidence in Sentencing	219
	Polygraph Admissibility in Other Proceedings	221
	Use of Polygraph in Interrogation	221
	General Rule	221
	<i>Miranda</i> Considerations	222
	Postconviction Sex Offender Testing.....	223
	Polygraph in the Workplace.....	225
	Licensing of Polygraph Examiners.....	227
	The Future of Polygraph and the Law	227
	Acknowledgments	229
	About the Author	229
Chapter 11	Advanced Topics	231
	Physical Conditions Requiring Accommodation.....	231
	Amputations/Injuries	231
	Blindness.....	233
	Cardiovascular Disorders.....	233
	Dwarfism.....	235
	Hearing Impairment.....	235
	Obesity	237
	Pregnancy.....	238
	Stuttering.....	238
	Ethics	239
	Reasons for Ethical Lapses.....	240
	Ethical Principles	241
	Conclusion	242
	Report Writing	243
	Identification	243
	Background.....	243
	Purpose	244
	The Examination.....	244

Pretest	244
Test Phase	245
Analyses and Results	245
Posttest Statements	247
Other Information	247
Postconviction Sex Offender Testing (PCSOT).....	247
Instant Offense.....	249
Instant Offense Investigative.....	249
Prior Allegation.....	249
Sexual History (I & II).....	249
Sex Offense Monitoring.....	250
Maintenance.....	250
Asset Forfeiture Testing.....	251
Conclusion	254
Working with Foreign Language Interpreters.....	254
Step 1: The Interpreter	254
Step 2: Preparation.....	255
Step 3: Pretest	257
Step 4: Testing	258
Conclusion	259
Silent Answer Test.....	260
Yes Test.....	262
Case 1.....	263
Case 2.....	264
Case 3.....	265
Case 4.....	266
Paired Testing: The “Marin Protocol”	266
Requirements	268
Conclusion	271
Testing Victims of Traumatic Events.....	271
Recommendations.....	272
References.....	273

Chapter 12 Alternate Technologies 275

Event-Related Potentials.....	278
How It Works	278
Potential in Lie Detection	279
Functional Magnetic Resonance Imaging	280
How It Works.....	280
Potential in Lie Detection	281
Thermal Imaging	281

How It Works	281
Potential in Lie Detection	282
Saccadic Eye Movement.....	283
How It Works	283
Potential in Lie Detection	284
Oculomotor Deception Test.....	285
How It Works	285
Potential in Lie Detection	285
Laser Doppler Vibrometry	286
How It Works	287
Potential in Lie Detection	287
Voice-Based Systems.....	288
Autobiographical Implicit Association Test	289
References.....	290
Glossary	293
Appendix A: Public Law 100 – 347	309
Appendix B: 2015 Update to the APA 2011 Meta-Analytic Survey of Validated Polygraph Techniques.....	319
Appendix C1: Confidential Report	335
Appendix C2: Polygraph Examination Report	339
Index	343
