Introduction 5

PROLOGUE

Uncovering *Homo erectus* in Asia 11

Hands in the Dirt 12

“Another Human:” So Close, but Different from Us 14

Hotbed of Discovery 16

Heading Out 17

CHAPTER 1

Overview of Human Evolution 19

The Five Grades 20

Pre-australopiths: Semi-Arboreal & Semi-Terrestrial 21

Upright Walkers: The Australopiths 23

The Big-Brained “Early *Homo*”: *Homo habilis* 24

First to Leave Africa: *Homo erectus* 26

Brains as Big as Our Own: Late Archaic *Homo* 28

Modern Humans: *Homo sapiens* and the End of Diversity 29

Human Evolution and Geographic Distribution 31

Reading the Human Evolution Story in Our Family Tree 32

CHAPTER 2

The Java Story 37

Sentimental Journey to See an Old Friend 38

P.e. 175M ONO 1891/93 39

The *Pithecanthropus* Prophecies 41

Java Man Pilgrimage: Four “Holy” Sites and Sangiran 44

Deep in Onion Strata: Sangiran 17 46

The Man Who Ended the Missing Link Debate 49

Into the Field, Feet on the Ground	50
Surprising Contribution from the Land of Volcanoes	53
In the Land of Java Man	54
Writing the Great Java Man Novel	56
Why Are There No Signs of Life?	58
Another Mystery: Which Strata Did They Come From?	60
New York Java Man	60

CHAPTER 3

Where It Happens: Putting Science to Work on Java Man 63

From Excavation to Contemplation	64
Java Holotype at Home in the Netherlands	65
First Sangiran Fossils Housed in Germany	65
Putting the Pieces Together	66
Debuting in 2005 with Two Academic Papers	68
Java Man Evolved	70
Five Hundred Modern Human Dental Casts	72
Java Man Outstripped the African <i>Homo erectus</i>	74
The Great <i>Meganthropus</i> Debate	74
Dr. Kaifu's Stance on <i>Meganthropus</i>	76
Putting the Debate to Rest	76
Creating 3D Data from Specimen Scans	78
New Research Methods with Better Digitalization	80
Determining Brain Size with 3D Data	82
Increasing Brain Size as Seen in Skulls	82
Java Man and Modern Man Followed the Same Path	84
Support for the Out-of-Africa Theory	86
Tracking Forms of Specialization	87
Further Questions for Java Man Research	90

CHAPTER 4

Grand Entrance from an Island Cave 93

<i>H. floresiensis</i> : Small Human of Immense Stature	94
Challenging the Definition of Genus <i>Homo</i>	98

In the Cool Cave	99
Finest Specimens of Asian archaic <i>Homo</i>	101
New Species or Diseased Specimen	105
Problems of Size and Distance	105
A Surprise Invitation	107
Child, Disease, or Island Rule	108
Definitive Argument Against Growth Disorder	110
Which Human Shrank?	112
Scenario: Early Java Man Evolved	114
Accurate Measurements of Brain Size	115
Rethinking Java Man's Brain Size	116
Relation of Body Size to Brain Size	117
Puzzling Teeth	121

CHAPTER 5

Big News from the Basin

125

Something's in the Air	126
A Stunning Site to See	128
It Might Be Human!	130
The Search for Decisive Evidence	132
What Makes Us Human?	134
Envisioning the World of <i>Homo floresiensis</i>	135
Dizzying Diversity	137

CHAPTER 6

Up from Taiwan's Ocean Floor

141

New Fossil from Penghu, Taiwan	142
That's Not a Monkey—It's a Human!	145
Extremely Distinctive Jaw and Teeth	148
What Human Era Were They From?	150
Hyenas Hold the Key	153
The World's Thickest Jaw	157
Human Evolution in Asia Still Full of Mystery	160
Still Much to Learn	164

Why Asia?	166
Pulling Everything Together: Asia's Diverse Humans	166
No Evidence of Contact	167
We Know Even Less about Asia	168
Were There Clashes?	170
Time Travel in Action	170
The Urge to Go	173
The Future of Homogenization	175
The Final Frontier	176
Is Java Man Still with Us?	177
Who Were the Southern Denisovans?	178
Bumping into <i>H. Sapiens</i>	180
Tagging a Question Mark on Denisovan	181
The Puzzle Pieces Fit	182
We May Not Be Completely Alone	183
 Acknowledgements	 184
From the Technical Advisor	186
 Primary References	 188
Figure credits	189
Index	190
