

Table of Contents

1. Introduction Irwin Miller/Marylees Miller	1
2. Probability Irwin Miller/Marylees Miller	21
3. Probability Distributions and Probability Densities Irwin Miller/Marylees Miller	61
4. Mathematical Expectation Irwin Miller/Marylees Miller	113
5. Special Probability Distributions Irwin Miller/Marylees Miller	145
6. Special Probability Densities Irwin Miller/Marylees Miller	177
7. Functions of Random Variables Irwin Miller/Marylees Miller	207
8. Sampling Distributions Irwin Miller/Marylees Miller	233
9. Decision Theory Irwin Miller/Marylees Miller	261
10. Point Estimation Irwin Miller/Marylees Miller	283
11. Interval Estimation Irwin Miller/Marylees Miller	317
12. Hypothesis Testing Irwin Miller/Marylees Miller	337
13. Tests of Hypothesis Involving Means, Variances, and Proportions Irwin Miller/Marylees Miller	359

14. Regression and Correlation	391
Irwin Miller/Marylees Miller	
Appendix: Sums and Products	433
Irwin Miller/Marylees Miller	
Appendix: Special Probability Distributions	437
Irwin Miller/Marylees Miller	
Appendix: Special Probability Densities	439
Irwin Miller/Marylees Miller	
Statistical Tables	443
Irwin Miller/Marylees Miller	469
