4. Markets for Direct Finance: International Bonds	16
5. Markets for Direct Finance: Cross-Border Equities	17
6. Markets for Direct Finance: Derivatives	19
7. The Long-Term Shift of Financial Markets from Indirect to Direct	19
C. Costs and Benefits of the Internationalization of Finance	24
D. The Impact of Internationalization: The Case of Korea in 1997	26

PART ONE. INTERNATIONAL ASPECTS OF MAJOR DOMESTIC MARKETS 32

CHAPTER TWO International Aspects of U.S. Securities Regulation 33

A. Internationalization of U.S. Securities Markets	33
1. The Influential Role of U.S. Securities Markets	33
2. Market Size	34
3. Market Composition	34
4. Market Innovation	35
5. Internationalization of Portfolio Investment Flows	36
B. The Basic Securities Law Framework	37
1. General Rules	37
2. The Sarbanes-Oxley Act	46
3. Special Rules for Foreign Private Issuers Apart From Sarbanes-Oxley	51
C. GAAP Reconciliation	58

1. GAAP Reconciliation	58
2. International Accounting Standards	60
D. Opening Up U.S. Securities Markets	63
1. Rule 144A and Private Placements	64
2. The MJDS Approach	67
3. The Use of ADRs	75
E. Issuing Securities Abroad	81
1. The Regulation S Framework	81
2. Regulation S Reforms for U.S. Companies Issuing Securities Abroad	86
3. Directed Selling	87
4. Regulation S - Rule 144A Offerings	88
5. Regulation S - A Reform Proposal	89
6. A Transatlantic Securities Market	90

CHAPTER THREE International Aspects of U.S. Banking Regulation 94

A. The Importance of Foreign Banks	94
B. Basic Features of U.S. Regulatory System	98
C. Regulation of Foreign Banks	102
1. Systemic Risk	102
2. Safety and Soundness	106
3. Federal Deposit Insurance	122
4. Permissible Activities	131
5. Interstate Banking and Foreign Banks	140
D. The GATS	143
E. U.S. Banks Abroad	164
Statutory Supplement	166

CHAPTER FOUR Infrastructure:* Capital Adequacy ... 228

Section I. Capital Adequacy for Credit Risk	228
A. The Background of the Accord	229
B. The Basel Accord	232
1. General Elements and the Definition of Capital	232
2. Risk-weighting	239
3. The Treatment of Off-Balance Sheet Items	244

* There are four infrastructure chapters—capital, foreign exchange, the payment system and clearance and settlement—covering subjects that are important to international finance generally, not just to the Part of the book in which they happen to appear. We take them up when needed.

C. The Performance of the Basel Accord	246
1. The Transition to Full Standards	246
2. The Accord and the Credit Crunch	247
3. Toward a More Level International Playing Field	249
4. The Basel Committee's Proposals to Amend the Accord From 1999 - 2003	253
Section II. Capital Adequacy for Market Risk	275
A. Risks Associated With Securities Operations	277
B. Capital Adequacy and Position Risk	282
1. Position Risk and the Building Block Approach	282
2. The Comprehensive Approach to Position Risk: The U.S. ..	288
3. A Comparison of the Building Block and Comprehensive Approaches to the Portfolio Approach	293
4. Internal Models-Based Regulation of Capital	398
C. Other Risks and Capital for Non-Credit Risks	307
D. The Search for a Common Treatment of Banks, Their Affiliates, and Unaffiliated Securities Companies	310

CHAPTER FIVE The European Union: The Single Market in Financial Services

A. Introduction	315
B. Securities Markets	318
1. Disclosure: The Old Regime	318
2. Disclosure: The New Regime	328
3. Provision of Services: The Old Regime	336
4. Provision of Services: The New Regime	340
C. Banking Markets	346
1. The Second Banking Directive	347
2. Deposit Insurance	363
Appendix	369

CHAPTER SIX Infrastructure: Foreign Exchange Regimes

A. Basic Types of Exchange Rate Systems	380
1. Fixed Rate Systems: The Gold Standard	381
2. Fixed Rate Systems: The Bretton Woods Dollar Standard	384
3. Floating Rate Regimes—An Overview	386
B. Types of Floating Rate Systems	387
1. Exchange Arrangements with No Separate Legal Tender ..	387
2. Currency Board Arrangements	389
3. Other Conventional Fixed Peg Arrangements	390

4. Pegged Exchange Rates Within Bands	391
5. Crawling Pegs	398
6. Exchange Rates Within Crawling Bands	399
7. Managed Floating with No Preannounced Path for the Exchange Rate	399
8. Independent Floating	399
9. Overall Trends	400
10. The Debate about the Non-System	401
C. Capital Controls and Foreign Exchange Regimes	405
D. Foreign Exchange Markets	407
1. The Spot Foreign Exchange Market	409
2. The Forward Market	412
E. Purchasing Power Parity and Interest Rate Parity	414

CHAPTER SEVEN Europe's Economic and Monetary Union

A. The Design of the European Monetary Union	419
1. The Maastricht Treaty	420
2. The Pros and Cons of Monetary Union	423
B. The Transition: Getting to Stage 3	430
1. Convergence	430
2. The Monetary Institutions for Stages 2 and 3	431
3. The Shift from Multiple Currencies to One	432
C. Stage 3: How Does It Work?	434
1. From 1999 to 2002: EMI's Schedule	435
2. Financial Matters	436
3. Fiscal and Monetary Policy, and the Stability Pact	441
4. Legal Matters	443
5. The Role of the UK in Stage 3	448
6. International Impact: The Euro as an International Currency	449
7. Will Stage 3 Survive?	452
Appendix	460

CHAPTER EIGHT Japanese Banking and Securities Markets: International Aspects

Section I. Banks	467
A. Basic Structure Banking and The Big Bang	467
1. Reforming Financial System Segmentation	469
2. Bilateral Agreements to Open Japan's Financial Markets ..	470
3. Other Big Bang Reforms	470
B. Bad Loan Problems	472

2. Early Responses to Crisis by Government	475
3. A More Aggressive Policy Toward the Bad Loans in The Late 1990's and Early 2000's	477
4. The Sufficiency of the Koizumi Reforms	492
Section II. Japanese Securities Markets	498
A. Foreign Access to the Security Markets in Japan	499
1. Regulation of Non-Resident Issuers in Japan From the 1990s	500
2. Foreign Securities Firms in Japan	502

D. The Big Bang and Japan's Securities Market	513
1. Elements of the Big Bang	513
2. Implementation of the Big Bang	514
3. Response to the Big Bang	515
4. Evaluating the Big Bang	518
E. The Koizumi Policy	519
1. The March 2003 Plan	521
2. Reactions to the Plan	521

PART TWO. INSTRUMENTS AND OFFSHORE MARKETS .. 524

CHAPTER NINE Eurodollar Deposits and Syndicated Loans

A. Introduction to the Eurocurrency Market	525
B. The Growth of the Market for Syndicated Eurodollar Loans ...	542
C. The Allocation of Risk Among the Parties to a Eurocredit	557
1. The Basic Terms of the Loan	558
2. Allocation of Risk Among Managers, Agents, and Participating Banks	568

CHAPTER TEN Infrastructure: The Payment System ... 574

CHAPTER TEN Infrastructure: The Payment System . . 574

A. The Use of the U.S. Payment System for International Transactions	575
B. Fedwire and CHIPS: Risk Reduction Measures	599
1. Fedwire	599
2. CHIPS	608
3. Gross versus Net Settlement	612
C. Herstatt Risk	616
D. Some Aspects of the International Payment System	625
1. Types of Domestic Payment Systems	625
2. International Payment Systems	629
3. Off-Shore Dollar Payment Systems	631
4. European Union	633
E. International Standards	636

CHAPTER ELEVEN Asset Freezes **639**

A. Freezes by the Currency Country: <i>LAFB</i>	639
B. Freezes by the Host Country	670

CHAPTER TWELVE Eurobonds and Global Securities . . 686

A. Eurobonds	686
1. The Market	686
2. Emerging Market Issues	698
3. Euro-Deutschmark Issues	700
4. Issuing Procedures	704
B. Global Securities	727

**CHAPTER THIRTEEN International Asset
Securitization** **741**

A. Introduction	741
B. Elements of a Securitized Transaction and the Reasons to Securitize	742
1. Securitizable Assets	744
2. The Special Purpose Vehicle	745
3. The Form of the SPV and the Investor's Interest in It	746
4. Bankruptcy Remoteness	748
5. Accounting Treatment	750
6. Taxation	751

7. Credit, Liquidity, and Other Enhancements	753
8. Investors and the Types of Asset Backed Securities	756
9. Rating	759
C. The Development of National ABS Markets	762
1. The U.S. ABS Market	762
2. ABS Markets in Europe and Germany	767
3. ABS Markets in Japan	773
4. ABS Markets in India	776
D. Legal Issues for Cross-Border ABS	778
E. Proposed Capital Adequacy Rules for ABS	783

CHAPTER FOURTEEN Stock Market Competition 787

A. U.S. Market	788
1. Overview of U.S. Market	788
2. NYSE versus NASDAQ	805
3. NASDAQ Reforms	816
4. Circuit Breakers	818
B. Foreign Markets	821
C. Worldwide Competition Between Stock Markets	833
1. Trading Systems	833
2. Competition in Europe	841
3. Competition between Europe and the United States	851

CHAPTER FIFTEEN Infrastructure: Clearance and Settlement 856

A. The Basic Elements	856
1. Overview	856
2. Risks of Clearance and Settlement	870
B. Group of Thirty Proposals	883
1. The United States	885
2. The United Kingdom	889
C. International Dimensions	897
1. ICSDs	899
2. Settlement for Global Bonds	908
3. Rights in Dematerialized Securities	911
4. Future Arrangements	949

CHAPTER SIXTEEN Derivatives: Futures and Options 962

A. Introduction	962
-----------------------	-----

B. Futures, Options, Their Markets: An Introduction	937
1. Futures	937
2. Options	938
3. The Markets	945
4. Protecting the Exchange: Margin Rules	948
C. The Mechanics and Use of Interest-Rate Futures and Options Based on Them	955
D. Futures and Options Exchanges: Competition and Regulation	972
1. Contract Design	974
2. Competition and Cooperation in Europe	976
3. Cross-Border Electronic Access to Futures Exchanges	979
E. A Case Study in the Regulation of Futures and Options Markets: The Barings Case	984
1. The Barings Group	985
2. The Scam	986
3. The Regulatory Role of Simex	994
4. The Regulatory Role of Securities and Futures Authority (SFA)	1000
5. The Role of the Bank of England as Lead Regulator	1001
6. The Aftermath: Winding Down and Transferring Ownership	1006
7. International Efforts to Avoid Another Barings Crisis	1010
 CHAPTER SEVENTEEN Swaps	 1019
A. Swap Transactions and Markets	1019
1. Swap Transactions	1019
2. Why Parties Do Swaps	1024
3. Overall Markets	1030
B. Credit and Market Risks in Swaps	1035
1. The Nature of Credit Risk	1035
2. Reducing Counterparty Risk	1046
3. More Exotic Swaps	1048
4. Systemic Risk and Prudential Regulation	1059
C. Disclosure Requirements	1070
1. Accounting	1070
2. Financial Reporting	1074
3. Market Reporting	1077
D. Capital Requirements for Swaps	1079
1. The Basel Accord: Credit Risk	1079
2. Basel Accord: Market Risk Amendments	1082
3. The SEC Broker-Lite Rule	1083

E. Enforceability Issues	1087
1. Liability of Derivatives Dealers	1087
2. Netting and Bankruptcy	1102
3. Netting and Capital Requirements	1114
Appendix	1117

CHAPTER EIGHTEEN Offshore Mutual Funds 1126

A. United States Regulatory Barriers to Offshore Mutual Funds	1127
1. The Investment Company Act of 1940	1128
2. The Investment Advisers Act of 1940	1163
B. Tax Considerations	1164

PART THREE. EMERGING MARKETS 1176

CHAPTER NINETEEN Project Finance 1177

A. Introduction	1177
B. The Philippines	1178
C. The Philippines' Need for Power	1181
D. Project Finance in General	1183
1. Foreign Direct Investment	1183
2. Control of FDI in the Philippines	1185
3. Projects and Project Finance	1187
E. The Pagbilao Power Project	1194
1. Construction	1197
2. Operations	1200
F. Financing Pagbilao	1202
1. Official Export Credit: U.S. Export-Import Bank	1204
2. Multilateral Funding	1210
3. Common Arrangements	1215

CHAPTER TWENTY Emerging Markets: Privatization and Institutional Investors 1226

A. Introduction	1226
B. Privatization in the 1980s and 1990s	1227
C. Mexico's Evolving Economy	1233
D. Telmex Under Government Control	1237
E. Traditional Options the Government Could Use to Sell	

Its Telmex Stake	1240
1. The Mexican Stock Exchange	1240
2. Foreign Investment in Mexico and Policy Toward It	1244
F. The Transfer of Control Over Telmex to the Consortium	1245
1. The Winning Bidders	1245
2. The New Capital Structure	1246
3. The Modified Concession	1248
G. The Offer of Telmex Shares in World Markets	1253
1. The Evolution of the Telmex Capital Structure	1253
2. The American Depositary Receipts	1255
H. Demand for the Telmex Offer	1257
1. Pension Funds as Institutional Investors	1258
2. Pension Funds in International Financial Markets	1259
3. Pension Funds in Emerging Markets	1261
4. The Telmex Offer: Marketing to Institutional Investors	1266
I. The December 1994 Peso Crisis	1270
1. The Impact of the Crisis on Emerging Stock Markets	1270
2. Telmex and the Crisis	1273
3. Telmex and the WTO	1275
 CHAPTER TWENTY-ONE Emerging Market Debt	 1278
A. Introduction	1278
B. Syndicated Bank Loans to Developing Countries, The 1982 Debt Crisis, and Its Resolution	1282
1. Lending by Banks to Borrowers from Developing Countries to 1982	1282
2. The Collapse in 1982	1283
3. Resolving the Crisis	1284
C. The Transition from Coerced to Voluntary Credit: the Bond Markets in the LDC Debt Crisis	1289
1. The Baker Plan	1289
2. Trading LDC Debt During the Refinancings of the Mid-1980s	1290

4. Brady Bond Holdouts: Elliott Associates	1300
5. Growth of the Voluntary Market for Emerging Market Bonds	1302
D. Mexico's December 1994 Peso Crisis: The Impact on the Mexican Government's Dollar and Peso Debt Securities	1303
1. The Crisis: Players and Instruments	1303
2. The Rescue Package	1305
3. Impact of the Crisis on Other Emerging Markets: the Tequila Effect	1307
E. The Asian Financial Crisis of 1997: Foreign Banks'	

Foreign Currency Loans to Local Banks and Companies	1309
1. The Crisis: Players and Instruments	1309
2. The Rescue Package for Korea	1310
F. Sovereign Default on Rescheduled Securities and Voluntary Bonds: Russia	1315
1. The Crisis: Players and Instruments	1315
2. The Response	1316
G. Sovereign Default on Brady Bonds and Eurobonds: Ecuador ..	1319
1. The Crisis: Players and Instruments	1319
2. IMF Delayed Help and the Exchange for Global Bonds ...	1320
3. When Public Sector Issuers Default On Voluntary Bonds: Exit Clauses	1324
H. Sovereign Default on Domestic Bonds: Turkey	1325
I. Sovereign Default on all Debt: Argentina	1329
1. Overview of Events Leading to the Collapse	1329
2. The Pre-Collapse Role of the IMF	1330
3. Treatment of Foreign Creditors Before Default	1331
4. Argentina After Default	1332
J. Sovereign Default and IMF Lending: Brazil	1335

PART FOUR. INTERNATIONAL FINANCIAL

ARCHITECTURE	1337
---------------------------	-------------

CHAPTER TWENTY-TWO Reform of the International

Financial System	1338
-------------------------------	-------------

A. The Sovereign Debt Problem: Lessons from the Last Three Decades	1338
B. The Role of IMF	1345
C. The Modification of Bond Clauses	1350
D. An International Bankruptcy System for Sovereigns	1355
E. International Banking Standards	1365
1. An International Banking Standard	1365
2. The International Financial Architecture Approach	1368
F. Capital Controls	1373
G. The Dangers of Global Regulation	1376

CHAPTER TWENTY-THREE Responding to Terrorism

Through the International Financial System	1380
---	-------------

A. Money Laundering and Anti-Terrorism	1380
1. Nature of the Problem	1380
2. The United States Response	1384
3. International Initiatives	1390

B. Reinsurance Crisis	1395
C. Freezing Terrorist Assets	1396
INTERNATIONAL FINANCE GLOSSARY	1399
INDEX	1421
