Preface	xv
Acknowledgments	xvii
Glossary	1
1 Introducing Dialogue Systems	11
1.1 What is a Dialogue System?	12
1.1.1 Why Develop a Dialogue System?	13
1.2 A Brief History of Dialogue Systems	14
1.2.1 Text-Based and Spoken Dialogue Systems	14
1.2.2 Voice User Interfaces	19
1.2.3 Chatbots	20
1.2.4 Embodied Conversational Agents	22
1.2.5 Robots and Situated Agents	22
1.2.6 Limitations of Early Dialogue Systems	23
1.3 Present-Day Dialogue Systems	24
1.3.1 Dialogue Systems on Messaging Platforms	24
1.3.2 Dialogue Systems on Smartphones	26
1.3.3 Dialogue Systems on Smart Speakers and Other Devices	27
1.3.4 Dialogue Systems in Cars	28
1.3.5 How Current Dialogue Systems Are Different	29
1.4 Modeling Conversation in Dialogue Systems	30
1.4.1 User-Initiated Dialogues	30
1.4.2 System-Directed Dialogue	33
1.4.3 Multi-Turn Open-Domain Dialogue	35
1.5 Designing and Developing Dialogue Systems	40
2 Rule-Based Dialogue Systems: Architecture, Methods, and Tools	43
2.1 A Typical Dialogue Systems Architecture	44
2.1.1 Automatic Speech Recognition (ASR)	45
2.1.2 Natural Language Understanding (NLU)	46

2.1.3	Dialogue Management	49
2.1.4	Natural Language Generation (NLG)	50
2.1.5	Text-to-Speech Synthesis (TTS)	51
2.2	Designing a Dialogue System	53
2.3	Tools for Developing Dialogue Systems	54
2.3.1	Visual Design Tools	54
2.3.2	Scripting Tools for Handcrafting Dialogue Systems	54
2.3.3	Advanced Toolkits and Frameworks	60
2.3.4	Research-Based Toolkits	66
2.3.5	Which is the Best Toolkit?	66
2.4	Rule-Based Techniques in Dialogue Systems Participating in the Alexa Prize	68
3	Statistical Data-Driven Dialogue Systems	71
3.1	Motivating the Statistical Data-Driven Approach	71
3.2	Dialogue Components in the Statistical Data-Driven Approach	72
3.2.1	Natural Language Understanding	72
3.2.2	Dialogue Management	76
3.2.3	Natural Language Generation	78
3.3	Reinforcement Learning (RL)	81
3.3.1	Representing Dialogue as a Markov Decision Process	81
3.3.2	From MDPs to POMDPs	83
3.3.3	Dialogue State Tracking	84
3.3.4	Dialogue Policy	86
3.3.5	Problems and Issues with Reinforcement Learning and POMDPs ..	87
4	Evaluating Dialogue Systems	91
4.1	How to Conduct the Evaluation	92
4.1.1	Laboratory Studies vs. Evaluations in the Wild	92
4.2	Evaluating Task-Oriented Dialogue Systems	95
4.2.1	Quantitative Metrics for Overall Dialogue System Evaluation	96
4.2.2	Quantitative Metrics for the Evaluation of the Sub-Components of Dialogue Systems	97
4.2.3	Qualitative/Subjective Evaluation	102
4.3	Evaluating Open-Domain Dialogue Systems	104
4.3.1	Evaluation at the Level of the Exchange	104
4.3.2	Evaluation at the Level of the Dialogue	106

4.3.3	ChatEval: A Toolkit for Chatbot Evaluation	110
4.3.4	Evaluations in Challenges and Competitions	110
4.4	Evaluation Frameworks	113
4.4.1	PARADISE	114
4.4.2	Quality of Experience (QoE)	116
4.4.3	Interaction Quality	118
4.5	What is the Best Way to Evaluate Dialogue Systems?	120
5	End-to-End Neural Dialogue Systems	125
5.1	Neural Network Approaches to Dialogue Modeling	125
5.2	A Neural Conversational Model	127
5.3	Introduction to the Technology of Neural Dialogue	129
5.3.1	Word Embeddings	129
5.3.2	Recurrent Neural Networks (RNNs)	132
5.3.3	Long Short-Term Memory Units	134
5.3.4	The Encoder-Decoder Network	135
5.4	Retrieval-Based Response Generation	137
5.5	Task-Oriented Neural Dialogue Systems	138
5.6	Open-Domain Neural Dialogue Systems	139
5.6.1	Alexa Prize 2020	140
5.6.2	Google's Meena	141
5.6.3	Facebook's BlenderBot	142
5.6.4	OpenAI's GPT-3	144
5.7	Some Issues and Current Solutions	147
5.7.1	Semantic Inconsistency	148
5.7.2	Affect	149
5.8	Dialogue Systems: Datasets, Competitions, Tasks, and Challenges	150
5.8.1	Datasets and Corpora	151
5.8.2	Competitions, Tasks, and Challenges	154
5.9	Additional Readings	158
6	Challenges and Future Directions	159
6.1	Multimodality in Dialogue	160
6.1.1	Multimodal Fusion	160
6.1.2	Multimodal Fission	161
6.1.3	Multimodality in Smartphones and Smart Speakers with Displays	162
6.2	Visual Dialogue and Visually Grounded Language	163

6.3	Data Efficiency: Training Dialogue Systems with Sparse Data	166
6.4	Knowledge Graphs for Dialogue Systems	167
6.5	Reasoning and Collaborative Problem Solving in Dialogue Systems	168
6.6	Discourse and Dialogue Phenomena	169
6.6.1	Making Reference	170
6.6.2	Detecting, Maintaining, and Changing Topic	170
6.6.3	Multi-Party Dialogue	171
6.6.4	Incremental Processing in Dialogue	172
6.6.5	Turn-Taking in Dialogue	173
6.7	Hybrid Dialogue Systems	175
6.8	Dialogue with Social Robots	176
6.9	Dialogue and the Internet of Things	177
6.10	Social and Ethical Issues	179
6.11	The Way Ahead	181
A	Toolkits for Developing Dialogue Systems	185
	Bibliography	187
	Author's Biography	233
