

Table of Contents

Foreword	xvi
Preface	xvii
Acknowledgment	xxiii
Chapter 1	
Electricity Infrastructure Technical Security: Practical Application and Best Practices of Risk Assessment.....	1
<i>Martin Hromada, Tomas Bata University in Zlin, Czech Republic</i>	
<i>David Rehak, VSB – Technical University of Ostrava, Czech Republic</i>	
<i>Neil Walker, International Association of CIP Professionals, UK</i>	
Chapter 2	
Transport Infrastructures Safety and Security: State of the Art of Transport Infrastructure Protection and Best Practices From Research Projects.....	31
<i>Zdenek Dvorak, University of Zilina, Slovakia</i>	
<i>Bohus Leitner, University of Zilina, Slovakia</i>	
<i>Lenka Mocova, University of Zilina, Slovakia</i>	
Chapter 3	
Cyber-Physical Security in Healthcare	63
<i>Vasiliki Mantzana, Center for Security Studies (KEMEA), Greece</i>	
<i>Eleni Darra, Center for Security Studies (KEMEA), Greece</i>	
<i>Ilias Gkotsis, Center for Security Studies (KEMEA), Greece</i>	
Chapter 4	
Security of Water Critical Infrastructure: The Threat Footprint.....	88
<i>David Birkett, Mettle Crisis Leaders, Australia</i>	
Chapter 5	
Industry Process Safety: Major Accident Risk Assessment	117
<i>Ales Bernatik, VSB – Technical University of Ostrava, Czech Republic</i>	

Chapter 6	
Industrial Occupational Safety: Industry 4.0 Upcoming Challenges	152
<i>Susana Pinto da Costa, University of Minho, Portugal</i>	
<i>Nélson Costa, University of Minho, Portugal</i>	
Chapter 7	
Effects of Human Factors in Process Safety: Analyses of Chemical Industrial Case Studies	173
<i>Gargi Bhattacharjee, University of Calcutta, India & Prasanta Chandra Mahalanobis</i>	
<i>Mahavidyalaya, India</i>	
<i>Sudip Kumar Das, University of Calcutta, India</i>	
Chapter 8	
Explosion Process Safety: Basics and Application of Explosion Protection	203
<i>Dieter Gabel, Otto von Guericke University, Germany</i>	
Chapter 9	
Simulation and Modelling in Fire Safety: Virtual Reality for Smart Firefighting	232
<i>Tomaz Hozjan, University of Ljubljana, Slovenia</i>	
<i>Kamila Kempna, VSB – Technical University of Ostrava, Czech Republic</i>	
<i>Jan Smolka, VSB – Technical University of Ostrava, Czech Republic</i>	
Chapter 10	
Current Safety Issues in Road Tunnel Construction	263
<i>Miguel Vidueira, Spanish Fire Protection Association (Cepreven), Spain</i>	
<i>Jiri Pokorny, VSB – Technical University of Ostrava, Czech Republic</i>	
<i>Vladimir Vlcek, Fire Rescue Brigade of the Moravian-Silesian Region, Czech Republic</i>	
Chapter 11	
Materials for Safety and Security: Materials for Shielding, Protective Suits, Electrical Insulation, and Fire Protection	288
<i>Jozef Martinka, Slovak University of Technology in Bratislava, Slovakia</i>	
<i>Janka Dibdiakova, Norwegian Institute of Bioeconomy Research, Norway</i>	
Chapter 12	
Nanotechnology Safety and Security: Nanoparticles and Their Impact on the World	321
<i>Janette Alba, University of Guanajuato, Mexico</i>	
<i>Petra Roupcova, VSB – Technical University of Ostrava, Czech Republic</i>	
<i>Karel Klouda, Occupational Safety Research Institute, Czech Republic</i>	
Chapter 13	
Security of Infrastructure Systems: Infrastructure Security Assessment	353
<i>Ladislav Mariš, University of Žilina, Slovakia</i>	
<i>Tomáš Loveček, University of Žilina, Slovakia</i>	
<i>Mike Zeegers, Security Risk Watch, The Netherlands</i>	

Chapter 14

Uncertainties in Safety and Security: Uncertainties in Critical Infrastructure Protection and Human Factors

Tünde Anna Kovács, Donát Bánki Faculty of Mechanical and Safety Engineering, Óbuda University, Hungary

Zoltán Nyikes, Donát Bánki Faculty of Mechanical and Safety Engineering, Óbuda University, Hungary

Chapter 15

Business Continuity of Critical Infrastructures for Safety and Security Incidents

Konstantinos Apostolou, Center for Security Studies (KEMEA), Greece

Danai Kazantzidou-Firtinidou, Center for Security Studies (KEMEA), Greece

Ilias Gkotsis, Center for Security Studies (KEMEA), Greece

George Eftychidis, Center for Security Studies (KEMEA), Greece

Chapter 2

Transport Infrastructures Safety and Security: State of the Art and Transport Infrastructure Protection and Best Practices from Research Projects

Zdenek Dvorak, University of Zilina, Slovakia

Boris Kizlik, University of Zilina, Slovakia

László Molnár, University of Zilina, Slovakia

Chapter 3

Industry Process Safety and Security: State of the Art and Transport Infrastructure Protection and Best Practices from Research Projects

Zdenek Dvorak, University of Zilina, Slovakia

Boris Kizlik, University of Zilina, Slovakia

László Molnár, University of Zilina, Slovakia
