

List of Symbols and Abbreviations	6
List of Terms	8
The Autors.....	10
Introduction	12
1. Methods of measurement of irregular surfaces in geodesy	14
1.1. SfM method (Structure-from-Motion).....	14
1.1.1. Finding correspondence between images	16
1.1.2. Scene reconstruction by SfM	18
1.2. Terrestrial laser scanning systems	22
1.2.1. Physical principles.....	23
1.2.2. Principles of distance measurement	25
1.2.3. Principles of laser beam deflection	26
1.2.4. The spatial polar method	30
1.2.5. Typological classification of LSS.....	31
1.2.6. Types of LSS according to distance measurement	32
1.2.7. Types of LSS according to the field of view of scanning	33
1.2.8. Factors affecting the data collection.....	33
1.2.9. Manipulation with measured data.....	44
2. Literature review	54
3. Case studies	60
3.1. Measurement and accuracy analysis of DEM acquired by low-cost UAV photogrammetry - a case study in quarry Jastrabá (Slovakia)	60
3.1.1. Study area.....	61
3.1.2. Methods and equipment.....	62

3.1.3.	Photogrammetry and UAV carriers.....	64
3.1.4.	Application.....	64
3.1.5.	Results and Discussion.....	66
3.1.6.	Conclusion.....	75
3.2.	The Suitability of UAS for Mass Movement Monitoring Caused by Torrential Rainfall – A Study on the Talus Cones in the Alpine Terrain in High Tatras - Slovakia .	76
3.2.1.	Study area.....	77
3.2.2.	Mass movement as a significant phenomenon of the Alpine type mountains	79
3.2.3.	Methods and Instruments.....	81
3.2.4.	Processing of measured data	85
3.2.5.	Results and discussion.....	89
3.2.6.	Conclusion.....	94
3.3.	Surveying the Ochtiná Aragonite Cave, Slovakia with terrestrial laser scanning and digital photogrammetry: high-resolution phreatic and epiphreatic morphologies originated in slowly moving and standing water, and comparing the applicability of these methods	96
3.3.1.	Study area.....	97
3.3.2.	Methods and equipment.....	99
3.3.3.	Processing of measured data	101
3.3.4.	Results and discussion.....	108
3.3.5.	Conclusion.....	113
3.4.	Surface modelling of racing vessel's hull by non-contact surveying technologies	116
3.4.1.	Object	116
3.4.2.	Methods of Measurements.....	118
3.4.3.	Processing of measured data	120
3.4.4.	Results and discussion.....	128
3.4.5.	Conclusion.....	130
	Summary.....	134
