<i>Foreword to the 2018 Edition: Rediscovering Public Wealth Creation</i>	xxi

INTRODUCTION Thinking Big Again	1
A Discursive Battle	2
Thinking Big	4
Creating Markets Not Only Fixing Them	5
Evaluating Public Policies	8
Building Dynamic Public Organizations	10
Risks and Rewards	11
Secular Stagnation Is Not Inevitable	14
A New Language and Rhetoric	15
Structure of the Book	16

CHAPTER 1 From Crisis Ideology to the Division of Innovative Labour	21
And in the Eurozone	23
State Picking Winners vs. Losers Picking the State	25
Beyond Market Failures	27
The Bumpy Risk Landscape	29
Symbiotic vs. Parasitic Innovation ‘Ecosystems’	30
Financialization	32

CHAPTER 2 Technology, Innovation and Growth	35
Technology and Growth	39
Evolutionary Economics and Systems of Innovation	41
Beyond System Failures	45
Myths about Drivers of Innovation and Ineffective Innovation Policy	48
<i>Myth 1: Innovation is about R&D</i>	51
<i>Myth 2: Small is beautiful</i>	52
<i>Myth 3: Venture capital is risk-loving</i>	54
<i>Myth 4: We live in a knowledge economy—just look at all the patents!</i>	57
<i>Myth 5: Europe’s problem is all about commercialization</i>	59
<i>Myth 6: Business investment requires ‘less tax and red tape’</i>	61
CHAPTER 3 Risk-Taking State: From ‘De-risking’ to ‘Bring It On!’	63
What Type of Risk?	64
State Leading in Radical (Risky) Innovation	68
Pharmaceuticals: Radical vs. ‘Me Too’ Drugs	70
Biotechnology: Public Leader, Private Laggard	73
The National Institutes of Health: Creating the Wave vs. Surfing It	75
CHAPTER 4 The US Entrepreneurial State	79
The Defense Advanced Research Projects Agency (DARPA)	80
The Small Business Innovation Research (SBIR) Programme	85
Orphan Drugs	87
The National Nanotechnology Initiative	90
CHAPTER 5 The State behind the iPhone	93
The ‘State’ of Apple Innovation	94
Surfing through the Waves of Technological Advancements	99

<i>From Apple I to the iPad: The State's very visible hand</i>	100
<i>How State-funded research made possible</i>	
<i>Apple's 'invention' of the iPod</i>	102
<i>Giant magnetoresistance (GMR), SPINTRONICS</i>	
<i>programme and hard disk drives</i>	102
<i>Solid-state chemistry and silicon-based semiconductor devices</i>	104
<i>From capacitive sensing to click-wheels</i>	106
The Birth of the iPod's Siblings: The iPhone and iPad	108
<i>From click-wheels to multi-touch screens</i>	109
<i>Internet and HTTP/HTML</i>	110
<i>GPS and SIRI</i>	111
<i>Battery, display and other technologies</i>	113
Did the US Government 'Pick' the iPod?	116
Fostering an Indigenous Sector	116
CHAPTER 6 Pushing vs. Nudging the Green Industrial Revolution	121
Funding a Green Industrial Revolution	125
National Approaches to Green Economic Development	128
<i>China's 'green' 5-year plan</i>	131
<i>UK's start-stop approach to green initiatives</i>	133
<i>United States: An ambiguous approach to green technologies</i>	135
<i>Pros and cons of the US model</i>	136
Pushing—Not Stalling—Green Development	146
The Importance of Patient Capital:	
Public Finance and State Development Banks	148
CHAPTER 7 Wind and Solar Power: Government Success Stories and Technology in Crisis	153
Wind and Solar Power: Growth Powered by Crisis	154
From the First 'Wind Rush' to the Rise of China's Wind Power Sector	157

Solar Power Companies and the Origin of Their Technologies	162
Solar Bankruptcies: Where There's a Will There's a Way	166
Competition, Innovation and Market Size (Who's Complaining?)	169
Conclusion: Clean Technology in Crisis	171
<i>Myth 1: It's all about R&D</i>	172
<i>Myth 2: Small is beautiful</i>	173
<i>Myth 3: Venture capital is risk-loving</i>	175
<i>Building a green innovation ecosystem (symbiotic not parasitic)</i>	176
CHAPTER 8 Risks and Rewards: From Rotten Apples to Symbiotic Ecosystems	179
Back to Apple: What Did the US Government Get Back for Its Investments?	181
<i>Apple's job-creation myth: Not all jobs are created equally</i>	183
<i>Apple's love-hate relationship with US tax policies</i>	186
<i>The paradox of miracles in the digital economy: Why does corporate success result in regional economic misery?</i>	190
Where Are Today's Bell Labs?	192
CHAPTER 9 Socialization of Risk and Privatization of Rewards: Can the Entrepreneurial State Eat Its Cake Too?	195
The Skewed Reality of Risk and Reward	195
A New Framework	199
Direct or Indirect Returns	201
CHAPTER 10 Conclusion	207
<i>Appendix</i>	215
<i>Bibliography</i>	217
<i>Index</i>	243
