<i>Preface</i>	xiii
<i>Abbreviations</i>	xv

PART I The Need for Power and the Grids That Deliver It

1 Les Jeux Sont Faits	3
Leapfrogging and Euthanasia	5
Beyond Decarbonization	6
2 The Future Is Electric	11
Deconstructing Electricity Growth	13
Long-Term Efficiency Trends	18
Enter Carbon	22
The AI Wild Card	27
Electricity's Third Act	31
3 La Vida Local	33
Solar in the City, 2016	35
Solar in the City, 2050	40
Local Power versus the Grid, 2050	45
4 Why We Grid	47
The Case for Big	52
Aggregation and Trading	54
Grids and Geographic Diversity	56
Not Quite Case Closed	64
5 The Fragmented Future	65
How to Damage a Grid, Part 1: Summon Poseidon	65
Grid Vulnerabilities and the Climate	68

	Grid Coping Skills	71
	The Microgrid Revolution	76
	How to Damage a Grid, Part 2: Hire a Hacker	82
	New Architectural Paradigms	88
	The Fragmented Future	92
 PART II The Grid and Its Challenges		
6	Decarbonizing the Big Grid	97
	The Old Design Paradigm	98
	The New Paradigm	102
	The Clean Power Toolkit	111
	From Lab Bench to Toolkit	126
	From Toolkit to Reality	128
7	Not in My Backyard-State-Region	132
	Planning the No-Carbon Future	134
	Not in My Backyard	139
	Searching for Supergrids	143
	The Future of Grid Expansion	148
8	The Big Grid Bucks Stop Here	149
	A Power Plant's Early Retirement Package	150
	Power Markets and Plant Financing in a Carbon-Free Future	156
	Pros, Cons, and Trade-Offs in Long-Term Markets	160
	Fixing the Long-Term Markets	165
	The Big Grid's Future	171
 PART III Running and Regulating Post-Carbon Utilities		
9	The Utility Business in Three Dimensions	175
	The Business Model Rainbow	178
	Public Power and Cooperatives	184
	New Products and Horizons	185
	Toward Customer Love	188
10	The <i>Really</i> Smart Grid	193
	The Prosumer ESCO Marketplace	197
	Market Optimum and Public Interest	199
	Grid Pricing and "Optimizing" the System	202

Retail Choice's Next Act	207
Machine over Market	211
11 Governing a Really Smart Grid	216
Setting Regulation's Goals	217
Pricing Grid Services	222
The Problem of Fixed Costs	226
Planning and Building the Distribution System	231
Of Elegance and Complexity	233
12 The Business and Regulation of Energy Service Utilities	235
The Case for ESUs	238
Changing Utilities' Cultural Stripes	243
Regulating an ESU	247
Cross-Subsidies and the Space for Political Bargains	249
13 Forces and Fault Lines beyond the Industry	255
Big Tech and Monopoly Power	255
Privacy and the Smart Grid	257
Energy Democracy	260
Political Fault Lines	264
14 Money Talks	267
Wall Street and New Business Models	270
15 Power without Carbon	273
<i>Appendix A: Summary of Policy Recommendations</i>	279
<i>Appendix B: The Challenges to Energy Spot Markets with Increased Wind and Solar Generation</i>	287
<i>Appendix C: Source Notes for Figure 2-2</i>	295
<i>Appendix D: Supplement to Table 6-1</i>	301
Notes	303
References	347
Acknowledgments	405
Index	409
