

Content

Preface	7
1 Basics of antibiotic therapy	8
1.1 Beta-lactam antibiotics	8
1.1.1 Penicillins	8
1.1.2 Cephalosporins	9
1.1.3 Carbapenems	11
1.1.4 Monobactams	11
1.2 Glycopeptide antibiotics	11
1.3 Aminoglycosides	12
1.4 Peptide antibiotics	12
1.5 Fluoroquinolones	12
1.6 Rifamycins	13
1.7 Oxazolidinones	13
1.8 Macrolides, azalides	13
1.9 Lincosamides	14
1.10 Tetracyclines and glycylcyclines	14
1.11 Chloramphenicol	15
1.12 Nitroimidazoles	15
1.13 Nitrofurans	15
1.14 Trimethoprim sulfamethoxazole (cotrimoxazole)	16
1.15 Fosfomycin	16
1.16 Fidaxomicin	16
2 Antiviral agents	22
2.1 Antivirals against herpesviruses	22
2.1.1 Aciclovir	22
2.1.2 Valaciclovir	23
2.1.3 Ganciclovir	23
2.2 Antivirals against influenza viruses	24
2.2.1 Oseltamivir	24
2.2.2 Zanamivir	24
2.3 Antivirals against hepatitis B, C D, and E viruses	24
2.4 Antivirals against HIV (antiretroviral agents)	25
3 Systemic antifungal agents	27
3.1 Polyene antifungal agents	27
3.1.1 Amphotericin B	27
3.1.2 New lipid-associated formulations of amphotericin B	28

3.2 Azole antifungal agents	28
3.2.1 Fluconazole	28
3.2.2 Itraconazole	28
3.2.3 Voriconazole	29
3.2.4 Posaconazole	29
3.3 Echinocandin antifungal agents	29
3.3.1 Caspofungin, anidulafungin, micafungin.	29
3.4 Flucytosine	30
4 Gastrointestinal infections and food poisoning	31
4.1 Viral gastroenteritis	31
4.2 Bacterial gastroenteritis	32
4.2.1 Zoonotic infections	32
4.2.2 Human infections	34
4.2.3 Food poisoning (enterotoxigenesis)	39
4.3 Parasitic infections of the gastrointestinal tract	40
4.3.1 Protozoal infections of the gastrointestinal tract	40
4.3.2 Helminthic infections of the gastrointestinal tract	41
4.4 Typhoid and paratyphoid fever	47
4.5 Botulism	48
4.6 Infections due to enteroviruses	49
5 Airborne infections	53
5.1 Viral airborne infections	53
5.2 Bacterial airborne infections	58
6 Infections caused by Herpesviridae	72
6.1 HSV-1 and HSV-2 infection.	72
6.2 Infections caused by the varicella-zoster virus	74
6.3 Cytomegalovirus infection.	76
6.4 Epstein- Barr virus infections and malignant diseases.	77
6.5 HHV-6 infections	79
6.6 Infections caused by HHV-7 and HHV-8.	80
7 Arthropod-borne infections	81
7.1 Viral arthropod-borne infections	81
7.1.1 Systemic febrile illness	81
7.1.3 Arboviral haemorrhagic fevers	82
7.1.2 Arboviral encephalitis	85
7.1.4 Polyarthralgic illness.	87
7.2 Bacterial arthropod-borne infections	88
7.3 Protozoal arthropod-borne infections	94

8 Zoonoses	101
8.1 Overview	101
8.1.1 Viral zoonoses	102
8.1.2 Bacterial zoonoses	104
8.1.3 Helminthic zoonoses	109
8.1.4 Protozoal zoonoses	110
9 Viral hepatitis	112
9.1 Viral hepatitis A	112
9.2 Viral hepatitis B	113
9.3 Viral hepatitis C	115
9.4 Viral hepatitis D	116
9.5 Viral hepatitis E	117
9.6 Differential diagnosis of jaundice	118
10 HIV infection	120
11 Anaerobic infections	124
11.1 Anaerobic infections of the soft tissues	124
11.2 Tetanus	125
12 Chlamydia and Mycoplasma infections	127
12.1 Chlamydia infections	127
12.1.1 Chlamydomphila pneumoniae infection	127
12.1.2 Infections due to Chlamydomphila psittaci	128
12.1.3 Infections due to Chlamydia trachomatis	129
12.2 Mycoplasma infections	130
12.2.1 Infections due to Mycoplasma pneumoniae	130
12.2.2 Infections due to Ureaplasma urealyticum	131
13 Central nervous system infections	132
13.1 Definition	132
13.2 Aetiology of CNS infections	133
13.3 Clinical features of CNS infection	134
13.4 Diagnosis of CNS infections	135
13.5 Therapy of aseptic meningitis and encephalitis	136
13.6 Therapy of purulent meningitis	137
13.7 Complications	139
13.8 Differential diagnosis of CNS infections	140
14 Infections in pregnancy and in neonates	141
14.1 Congenital and perinatal infections	141
14.1.1 Viral congenital infections	142
14.1.2 Bacterial congenital infections	144
14.1.3 Parasitic congenital infection	146

- 15 Travel medicine** 147
 - 15.1 Prevention of travel related disease 147
 - 15.2 Management of travel related disease. 148

- 16 Differential diagnosis of the most important infectious disease symptoms** 150
 - 16.1 Differential diagnosis of elevated body temperature. 150
 - 16.2 Differential diagnosis of rash. 152
 - 16.3 Differential diagnosis of lymphadenopathy 154
 - 16.4 Differential diagnosis of tonsillitis 156
 - 16.5 Differential diagnosis of upper respiratory tract infections 158
 - 16.6 Differential diagnosis of pneumonia 161

- 17 Prevention and prophylaxis of infectious diseases** 163
 - 17.1 General recommendations 163
 - 17.2 Active immunization 164
 - 17.3 Passive immunisation 165
 - 17.4 Chemoprophylaxis 165

- 18 Therapy of some infectious diseases.** 167
 - 18.1 Correct biological specimen collection for bacteriological, virological
and parasitological examination 167
 - 18.2 Use of corticosteroids in the treatment of infectious diseases 170
 - 18.3 Treatment of infectious diarrhea 173
 - 18.4 Management of a hyposplenic/asplenic patient 174
 - 18.5 Basic principles in the management of patients with cystic fibrosis 176

- 19 SARS, MERS, COVID-19.** 177
