Preface — VII

Acknowledgement — IX

List of Figures — XIX

List of Tables — XXIII

List of Abbreviations — XXV

Introduction — 1

Cloud Computing — 4

References — 6

Chapter 1

Origin and Development of Cloud Computing — 9

1.1 Evolution of Cloud Computing — 9

1.2 Phases of Cloud Computing — 9

1.3 Principles of Cloud Computing — 11

1.4 Nomenclature of Cloud Computing — 12

1.5 Concept of “Cloud” in Cloud Computing — 12

1.6 Cloud Computing: Intellectual Contestations — 15

1.7 Advent of Cloud Computing Services — 18

1.8 Cloud Computing Enabling Technologies — 18

1.8.1 Virtualization — 18

1.8.2 Provisioning — 19

1.8.3 Web Services — 19

1.8.3.1 XML (Extensible Markup Language) — 20

1.8.3.2 SOAP (Simple Object Access Protocol) — 20

1.8.3.3 WSDL (Web Services Description Language) — 20

1.9 Characteristics of Cloud Computing — 20

1.10 Cloud Computing and Libraries — 22

1.10.1 Transition to Cloud Libraries — 23

1.10.1.1 Modernization of Libraries — 24

1.10.1.2 Innovation in Libraries — 25

1.10.1.3 Transformation of Libraries — 25

References — 27

Chapter 2

Cloud Computing: Models, Process, and Components — 33

- 2.1 Service Models — 33**
 - 2.1.1 Infrastructure as a Service (IaaS) — 33**
 - 2.1.2 Platform as a Service (PaaS) — 35**
 - 2.1.3 Software as a Service (SaaS) — 36**
- 2.2 Relationship between SaaS, PaaS, and IaaS — 38**
- 2.3 Other Cloud Computing Service Models — 38**
 - 2.3.1 Computing as a Service (CaaS) — 39**
 - 2.3.2 Storage as a Service (SaaS) — 39**
 - 2.3.3 Database as a Service (DaaS) — 39**
 - 2.3.4 Identity as a Service (IDaaS) — 40**
- 2.4 Deployment Models — 40**
 - 2.4.1 Public Cloud — 40**
 - 2.4.2 Private Cloud — 40**
 - 2.4.3 Community Cloud — 41**
 - 2.4.4 Hybrid Cloud — 42**
- 2.5 Cloud Computing Components — 42**
 - 2.5.1 Client — 43**
 - 2.5.2 Data Centers — 44**
 - 2.5.3 Distributed Server — 44**
- 2.6 Cloud Computing Players — 44**
 - 2.6.1 Cloud Infrastructure Consumers — 44**
 - 2.6.2 Cloud Infrastructure Providers — 45**
 - 2.6.3 Cloud Infrastructure Brokers — 45**
 - 2.6.3.1 Intermediation of Services — 45**
 - 2.6.3.2 Aggregation of Services — 45**
 - 2.6.4 Cloud Infrastructure Regulators — 45**
- 2.7 Migration from Traditional Platform to Cloud Platform — 46**
 - 2.7.1 Cloud Migration — 46**
 - 2.7.1.1 Migration Strategies — 46**
 - 2.7.2 Cloud Hosting — 48**
 - 2.7.3 Virtual Data Center — 50**
- 2.8 Cloud Computing Usage Scenario — 51**
 - References — 51**

Chapter 3**Cloud Computing Resources and Tools — 53**

- 3.1 Compute Services — 53
 - 3.1.1 Google Compute Engine — 53
 - 3.1.2 Amazon Elastic Compute Cloud — 54
- 3.2 Storage Services — 54
 - 3.2.1 Google Cloud Storage — 54
 - 3.2.2 Amazon Simple Storage Service — 58
- 3.3 Database Services — 58
 - 3.3.1 Google Cloud SQL — 58
 - 3.3.2 Google Cloud Datastore — 61
 - 3.3.3 Amazon Relational Data Store — 61
 - 3.3.4 Amazon DynamoDB — 61
- 3.4 Application Services — 61
 - 3.4.1 Google App Engine — 66
 - 3.4.2 Amazon Simple Queue Service — 66
- 3.5 Content Delivery Services — 66
 - 3.5.1 Amazon CloudFront — 69
- 3.6 Analytics Services — 69
 - 3.6.1 Amazon Elastic MapReduce — 69
 - 3.6.2 Google BigQuery — 69
- 3.7 Deployment and Management Services — 73
 - 3.7.1 Amazon CloudFormation — 73
 - 3.7.2 Amazon Elastic Beanstalk — 73
- 3.8 Identity and Access Management Services — 73
 - 3.8.1 Amazon Identity and Access Management — 77
- References — 77

Chapter 4**Cloud Computing: Advantages, Disadvantages, and Success — 79**

- 4.1 Benefits of Cloud Computing in Libraries — 79
- 4.2 Risk and Challenges of Cloud Computing in Libraries — 82
- 4.3 Managing Disadvantages of Cloud Computing — 84
- 4.4 Success Stories of Cloud Adoption — 85
- 4.5 Practical Cloud Computing Success Stories/ Platform in Libraries — 85
 - 4.5.1 Librarika — 85
 - 4.5.2 Best Book Buddies — 86

4.5.3	TinyCat — 86
4.5.4	Enquire OCLC — 86
4.5.5	Mendeley — 92
4.5.6	Google Forms — 92
	References — 95

Chapter 5

Cloud Computing and Librarianship — 101

5.1	Cloud Computing and Library Users — 102
5.2	Cloud Computing and Libraries — 103
5.2.1	Open Cloud Library Model — 107
5.2.2	Closed Cloud Library Model — 107
5.2.3	Integrated Cloud Library Model — 107
5.2.4	Publisher's Cloud Library Model — 107
5.3	Library Services in Cloud Environment — 107
5.4	Cloud Service Providers for Libraries — 108
5.4.1	On the Basis of Service Layer Offerings — 108
5.4.2	On the Basis of Features and Purpose — 111
5.4.2.1	Cloud Storage Providers — 111
5.4.2.2	Cloud Operating Systems Providers — 111
5.4.2.3	Cloud Infrastructure Providers — 113
5.4.2.4	Cloud based Productivity Suites — 115
5.4.2.5	Cloud based Mailing Services — 116
5.4.2.6	Cloud based Cataloging Suites — 116
5.4.2.7	Cloud based Calendar Services — 116
5.4.2.8	Cloud Security Providers — 116
5.4.2.9	Cloud Network Providers — 120
5.5	Libraries Based in Cloud in Context of Five Laws of Library Science — 120
5.5.1	First Law: Books are for use — 120
5.5.2	Second Law: Every Reader his or her Book — 121
5.5.3	Third Law: Every Book its Reader — 121
5.5.4	Fourth Law: Save the Time of the User/ Staff — 121
5.5.5	Fifth Law: Library is a Growing Organism — 122
5.6	Key Cloud Players for Libraries in Cloud Environment — 122
5.6.1	Cloud Infrastructure Consumers — 122
5.6.2	Cloud Infrastructure Providers — 123
5.6.3	Cloud Infrastructure Integrators — 123

5.6.4	Cloud Infrastructure Regulators — 123
5.7	Libraries in Cloud Computing Platform – SWOT ANALYSIS — 124
5.7.1	Strengths — 124
5.7.2	Weaknesses — 124
5.7.3	Opportunities — 124
5.7.4	Threats — 125
5.8	Initiatives of Libraries in Cloud Computing Platform — 125
5.8.1	OCLC's Webscale — 125
5.8.2	Ex-Libris Cloud — 125
5.8.3	OSS Labs — 126
5.8.4	DuraSpace's DuraCloud — 126
5.8.5	Shared Academic Knowledge Base plus or KB+ — 127
5.8.6	3M Library Systems — 127
5.9	Role of Librarians in Cloud Computing Environment — 127
5.10	Limitations of Libraries — 128
5.11	Future Scope — 128
	References — 129

Chapter 6

Cloud Computing in LIS Education — 131

6.1	Technology Trends in Education — 131
6.2	Cloud Computing in Pedagogy — 131
6.3	Specific Cloud Computing tools in Pedagogy — 133
6.3.1	Wiki — 134
6.3.2	Moodle — 137
6.3.3	Dropbox — 137
6.4	Cloud Computing in Education: Practical Application Platforms — 137
6.4.1	G Suite for Education — 137
6.4.2	Microsoft — 140
6.4.3	Knowledge Matters — 140
6.4.4	Coursera — 140
6.4.5	Blackboard Learn — 145
6.4.6	ClassFlow — 145
6.4.7	D2L — 145
6.4.8	A Cloud Guru — 145
6.4.9	Viridis — 150
6.4.10	Muzzy Lane — 150

6.4.11	Evernote —	150
6.5	Cloud Computing Practical Considerations —	150
6.6	Cloud Computing Benefits for Education —	154
6.7	Cloud Computing Challenges for Education —	155
	References —	155

Chapter 7

Cloud Computing in Libraries: a Global Survey — 157

7.1	Librarians' Understanding of Cloud Computing —	157
7.1.1	Attitude of Librarians towards Cloud Computing —	157
7.1.2	Investment and Concerns of Traditional Computing Needs as Drivers to Cloud Computing —	159
7.1.3	Willingness of Librarians to Adopt Cloud Computing —	160
7.2	Familiarity with Cloud Computing —	161
7.2.1	Cloud Computing Service Layers —	161
7.2.2	Cloud Computing Deployment Models —	162
7.2.3	Familiarity with Cloud based Tools —	162
7.2.4	Cloud based Email and Communication Tools —	165
7.2.5	Cloud based Tools of Social Group —	165
7.2.6	Cloud based Social Networking Tools —	166
7.2.7	Cloud based Information Collection Tools —	167
7.2.8	Cloud based Event Management Tools —	167
7.2.9	Cloud based File Sharing Services —	167
7.2.10	Cloud based Video and Presentation Tools —	168
7.2.11	Cloud based Software and Application Services —	169
7.2.12	Cloud based Storage/ Backup Tools —	170
7.2.13	Cloud based Operating Systems —	170
7.2.14	Cloud based Productivity Tools —	172
7.2.15	Cloud based Library Solutions —	173
7.3	Possibilities of Cloud Computing in Libraries —	173
7.3.1	Potential Domains of Cloud Computing in Libraries —	173
7.4	Benefits of Cloud Computing for Academic Libraries —	174
7.5	Adoption of Cloud Computing Technology in Libraries —	175
7.6	Support and Integration of Library Services with Cloud Computing —	177
7.7	Skills of Library Staff in Cloud Computing Environment —	178
7.8	Security Effectiveness in Adoption of Cloud Computing —	180
7.9	Cost Reduction through the Adoption of Cloud Computing —	181

- 7.10 Main Findings Summarized — 183
- 7.11 Impediments to the Adoption of Cloud Computing in
Academic Libraries: Perception of Librarians — 184
- References — 186

Chapter 8

Cloud Computing in Libraries: Tutorials — 187

- 8.1 Cloud Practical Implementation: KOHA in Cloud — 187
- 8.2 Setting up Oracle VM — 201
- 8.3 Setting up Wikis — 220
- 8.4 Setting up Dropbox — 239
- References — 250

Index — 251
