

CZU from 77 sides	9	The return of the wolf to the European countryside.....	55
Long-term experiments with plant nutrition.....	10	Research on the European beaver population.....	56
We are socially responsible	13	We reveal hidden life in African forests.....	58
We focus on seven areas of education.....	14	Forensic entomology in aid of criminology	60
We have solutions for droughts and floods.....	16	Medical cannabis research	63
We enjoy internationalization	18	Our wines are garnering awards.....	64
We fight against the bark beetle	21	Wetlands that help in the treatment of wastewater	67
Modern evaluation of soils.....	22	We produce energy from organic wastes	
We like agroforestry	24	in the developing world.....	68
We understand termites.....	26	We invented Smart Nest Boxes	70
We support the bioeconomy	28	Bees online.....	73
We prevent and minimize collisions between wildlife and		Being an entrepreneur while studying.....	74
vehicles.....	30	We investigate xenobiotic substances in the food chain	75
From farm to fork.....	32	We protect animals during haymaking	76
We set the pace in precise agriculture	34	We develop the design of advanced photovoltaic systems	78
Smart forest monitoring	36	Robots in agriculture	79
We advise farmers	38	We protect the historic agricultural landscape.....	80
Dragonflies as an indicator of biodiversity.....	40	Agriculture for the future.....	82
We write TOP publications	42	We have our own brewery.....	84
Compost full of life	44	We support Fairtrade	85
We are involved in connecting with the global south.....	45	We have one of the most environment-friendly campuses	
We address food security in the developing world	47	in the world.....	86
We help with the rehabilitation of new landscapesafter		We are a member of the prestigious Euroleague for Life	
mineral mining	48	Sciences.....	88
We develop green gold harvesting technologies	50	We influence European agricultural research	90
We investigate the olfactory and cognitive abilities of dogs	51	We are implementing EU strategies for the Danube Region in	
Professional experience at the School Forest Enterprise....	52	the field of education.....	92

We develop education all over the world.....	94	We investigate biomaterials	143
Work experience at the University Farm Estate	96	Microfinance to counter the poverty of small farmers	
We support innovation and new startups.....	98	in the tropics.....	144
We investigate human behaviour.....	101	We are writing a story.....	147
We are saving the Derby eland.....	102		
We provide sustainable solutions for campus life.....	105		
Our students build formula racing cars.....	106		
We uncover ancient agricultural settlements.....	107		
Our development projects help around the world.....	108		
We investigate the healing effects of tropical plants	110		
Growing crops on Mars	112		
We teach all generations.....	114		
We help to create sustainable rural areas	116		
We support our student associations	118		
We own a collection of tropical and subtropical plants.....	120		
We support young farmers	122		
We revitalize rural areas	124		
We limit the use of disposable plastics	126		
We propose new ways of using wood	127		
International Film Festival.....	129		
Unique bird mapping.....	130		
We create beautiful cities.....	132		
We protect soil for future generations.....	133		
Research beyond the Arctic Circle	134		
Technology for agriculture of the future	136		
We read about the Earth's past from stones	139		
Animals in human healthcare.....	140
