

CONTENTS

1	Introducing QSR NUD•IST Version 4	1
2	A guided tour of what's inside N4	5
2.1	What is a project?	5
2.2	What is the document system?.....	6
2.3	What is the index system?	8
2.4	How does the researcher link document and index systems?	9
2.5	Defining what is a "bit" for coding and getting back text.....	13
2.6	Where do your growing ideas go?	14
3	Setting Up a N4 Project	17
	Using dialogue boxes	18
3.1	Creating a new project	18
3.2	What's inside the project folder or directory	22
3.3	Backing Up	24
4	Preparing documents	25
	Imported or External?	25
4.1	Preparing document for importing.....	26
4.1.1	Writing headers.....	27
	Entering headers in the rawfile.....	28
	Entering and changing headers for documents in the project	28
4.1.2	Setting up subheaders and sections	29
4.1.3	Saving a word processed document as a plain text file	31
5	Setting up the Document System.....	35
5.1	Importing raw files into the project.....	35
5.2	Appending documents	38
5.3	Adding an external document to the project.....	40
5.4	Document properties and how to modify them	42
5.5	Deleting documents from the project.....	44

6	Reflecting on documents	45
6.1	Storing reflections by changing text units	46
	Removing a text unit	47
6.2	Creating annotations	47
6.3	Attaching a memo to a document	51
7	Exploring data—categorizing & coding	53
7.1	Naming categories	54
7.2	Where do names come from?	55
7.3	Descriptive and conceptual categories	56
7.4	Dimensionalizing categories	57
7.5	Nodes and where they live in N4	58
	Creating a new node	61
8	Linking Categories with Data—coding	65
8.1	Browsing and coding text on screen	66
8.2	Coding off the computer, then entering coding later	70
	8.2.1 Setting where text unit numbers are shown	71
	8.2.2 Making a report of a document	72
	8.2.3 Making a list of nodes	74
	8.2.4 Recording coding on a printed report	74
	8.2.5 Entering coding from a paper report	76
9	Crafting the index system	79
9.1	Re-organising categories	80
	9.1.1 Shifting a node or subtree to a different place	80
	9.1.2 Combining categories	83
9.2	Changing a node's properties	84
	Changing the name of a category	84
	Giving a category a definition	85
9.3	Deleting bits from the project	86
	Deleting a node	87
	Deleting the children of a node	87
	Deleting all the coding held at a node	87
	Deleting a node's memo	88

10 Interactive Browsing.....	89
10.1 Spreading & unspreading a text selection.....	91
10.2 Spreading & unspreading coding.....	93
10.3 Browsing and jumping to the source document.....	95
10.4 Browsing and examining coding	96
10.5 Browsing and removing coding at a node	98
11 Searching Text	101
11.1 Why do text searches?	101
11.2 What is a string search?	103
11.3 What is a pattern search?	103
Finding words with common meanings.....	104
Finding different forms of words.....	104
11.4 What does N4 search?.....	104
11.5 What happens to the finds?	105
Spreading the results of a find	105
Merging the new node into an old node	105
Attaching the new node to the index system	106
11.6 Doing a text search	106
11.6.1 Do you want the search to be Case sensitive?....	110
11.6.2 Do you want the search to find whole word or phrase only?	110
11.6.3 What documents do you want to search?	110
11.6.4 What screen display do you want to interact with during the search?.....	111
Finds and statistics.....	111
Query each find	111
A summary	111
11.6.5 What finds do you want?	112
All finds.....	112
First find only	112

12 Searching the index System	113
12.1 The Index Searchers	116
12.1.1 Selecting which operator	117
12.1.2 Nominating which nodes	118
12.1.3 Defining the context	119
12.1.4 Defining a restriction for a search	120
12.1.5 Defining the retrieval	121
13 Asking Questions about coding	123
13.1 Collation operators	125
Intersect	126
Union	127
Overlap	127
Less	127
Just-one	128
13.2 Contextual operators	128
Near	128
Followed-by	129
At-least	129
If-inside	130
If-outside	131
13.3 The negation operator	131
13.4 Restrictive operators	132
Including-docs-from	133
Excluding-docs-from	133
13.5 Tree structured operators	134
Collect	134
Inherit	135
Matrix	136
Vector	137
14 Synthesis	139
14.1 Making a report of a category	140
14.2 Making a report to display coding in a document	142
14.3 Reporting coding stripes	144
14.4 Displaying tables	146
Index	149
