

Table of Contents

<i>Václav Adamec:</i> Likelihood-Ratio Test and F-test for Two Exponential Means Equality: a Monte Carlo Power Exploration	11
<i>Nastaran Ansari, Adriaan Van Zon, Olaf Sleijpen:</i> Optimal Transition Paths Toward Clean Technologies	18
<i>Jan Bartoška, Tereza Jedlanová, Jan Rydval:</i> Semantic Model of Project Management as Diagnostic tool in Project Stakeholder Management	25
<i>Jan Bartoška, Tomáš Šubrt, Jan Rydval, Jan Kazda, Martina Stejskalová:</i> System Dynamic Conceptual Model for Landscape Fertility of Bees	32
<i>Jakub Bechný:</i> Impact of Labour and Growth Shocks in Small Open Economy: DSGE Approach	39
<i>Ladislav Beranek, Radim Remes:</i> Network Analysis of Intermediaries in Ecommerce	46
<i>Vladislav Bína, Jiří Přibil, Lucie Váchová:</i> Efficiency of Social Transfers in Poverty Reduction: Development in the Czech Republic	53
<i>Adam Borovička:</i> Portfolio Selection via Fuzzy Mean-Variance Model	59
<i>Helena Brožová, Ivana Boháčková:</i> Efficient Amount of Selected Input Using DEA Approach	66
<i>Andrea Čížků:</i> Unemployment and Job Vacancies	74
<i>Martin Dlouhý:</i> Health System Efficiency and the COVID-19 Pandemic	80
<i>Michał Dominik Stasiak, Krzysztof Piasecki:</i> A New Approach to Investment Risk Assessment in HFT Systems	85
<i>Hana Dvořáčková:</i> GUHA Method Application in Behavioral Finance Focusing on the Length of Trade	91
<i>Xiaoshan Feng:</i> Efficiency of Credit Risk Management of Selected Commercial Banks in the Czech Republic	97
<i>Petr Fiala, Renata Majovská:</i> Coordination of Supply Chains by Auctions	104
<i>Lukáš Frýd:</i> Effect of Higher Moments in the Presence of Heterogeneous Financial Market Participants	111
<i>Andrea Furková:</i> R&D Spillover Effects: Impact of R&D Expenditure in the Business Sector on Innovation Activities	116
<i>Elif Garajová, Milan Hladík, Miroslav Rada:</i> Interval Transportation Problem: The Best and the Worst (Feasible) Scenario	122
<i>Jiří Georgiev:</i> Hierarchical Forecasting of GDP	128
<i>Mária Grausová, Miroslav Hužvár:</i> Indicators for Efficiency Analysis of Health Systems with DEA	134
<i>Biwei Guan:</i> Efficiency Measurement of OECD Insurance Industries with Data Envelopment Analysis	141
<i>David Hampel, Lenka Viskotová:</i> Actual Revision of Cost and Revenue Functions for Reforestation System in Dražanská Highlands	148
<i>Simona Hašková:</i> Estimation of Long-Term Projects in Terms of Uncertainty of Inputs	154

<i>Milan Hladík:</i> Redundancy in Interval Linear Systems	160
<i>Robert Hlavatý, Igor Krejčí:</i> Optimizing Production in Small-Scale Beef Cattle Farm	166
<i>Vladimír Holý:</i> Impact of the Parametrization and the Scaling Function in Dynamic Score-Driven Models: The Case of the Negative Binomial Distribution	173
<i>Michal Houda:</i> Use of the BCC and Range Directional DEA Models within an Efficiency Evaluation	180
<i>Jiří Hozman, Tomáš Tichý:</i> Numerical Pricing of American Lookback Options with Continuous Sampling of the Maximum	186
<i>Petr Hrobař, Vladimír Holý:</i> Spatial Analysis of the Flat Market in Prague	193
<i>Filip Hron, Lukáš Frýd:</i> The Long-term Relationship between Military Expenditure and Economic Growth the NATO Countries	200
<i>Michal Husinec, Tomáš Šubrt, Jiří Fejfar:</i> EOQ as a Tool for Increased Transport Efficiency	205
<i>Michaela Chocholatá:</i> Spatial Variations in Unemployment Across the Slovak Districts: A GWR Approach	211
<i>Lucie Chytilova, Jana Hanclova:</i> Using to Data Envelopment Analysis in Panel Regression to Forecast Health Care Performance Over Time in Europe	217
<i>Josef Jablonský:</i> An Aggregation-Based Procedure for Ranking of Efficient Units in DEA Models	223
<i>Jaroslav Janáček, Marek Kvet:</i> Adaptive Path-Relinking Method for Public Service System Design	229
<i>Jitka Janová:</i> Verification and Validation of the Dynamic Optimization Model for Forest Conversion Management	236
<i>Tomáš Kala, Arnošt Komárek:</i> Evaluation of an AFT Model for Misclassified, Interval-censored Data in an Economical Setting	242
<i>Vlasta Kaňková:</i> A Note on Stochastic Optimization Problems with Nonlinear Dependence on a Probability Measure	247
<i>Nikola Kaspříková:</i> Remarks on Economic Characteristics of Rectifying AOQL Plans by Variables	253
<i>Renata Klufová, Jana Klicnarová:</i> Czech Local Action Groups Technical Efficiency	259
<i>František Koblasa, Miroslav Vavroušek, František Manlig:</i> Selection Strategies in Evolution Algorithms and Biased Selection with Incest Control	266
<i>Jan Kodera, Quang Van Tran:</i> A Modified Kaldor–Kalecki Model and its Impulse Response Analysis	273
<i>Jan Kodera, Quang Van Tran:</i> Time to Build and Aggregate Fluctuations with Sticky Prices and Wages	280
<i>Tomáš Konderla, Jaromír Běláček:</i> Comparison of Customer Satisfaction with Catering Facilities across Four Independent Studies	286
<i>Lenka Kontriková, Michal Dorda, Jiří Hořínka, Martin Kubáň:</i> Application of Network Analysis Methods to the Process of Preparing the Operation of a New Scheduled Flight Connection for Passenger Transport	294
<i>Miloš Kopa:</i> How Tight is the Necessary Condition for the Second-order Stochastic Dominance?	301

<i>Karel Kozmík:</i> Using Machine Learning to Predict Optimal Parameters in Portfolio Optimization Problems	307
<i>Michal Kraus, Kateřina Žáková, Jaroslav Žák:</i> Economic-Environmental and Technological Assessment of ETICS	314
<i>Radmila Krkošková:</i> Default Rate in the Sector Information and Communication Activities in the Czech Republic	320
<i>Jaromír Kukul, Quang Van Tran:</i> Modeling FX Rate with a Novel Heavy Tail Distribution	326
<i>Martina Kuncová, Jana Sekničková:</i> Influence of the Different Transformation of the Minimization Criteria on the Result – the Case of WSA, TOPSIS and ARAS Methods	332
<i>Martina Kuncová, Roman Fiala, Veronika Hedija:</i> Financial Health Assessment of Pig-breeding Companies in Slovakia – Altman’s Z-score and TOPSIS Results Comparison	339
<i>Radoslav Lacko:</i> Volatility of American Stock Indexes During the Corona Crisis Period	346
<i>Eva Litavcová, Mária Popovičová, Igor Petruška:</i> Threshold Analysis of Tourism Indicators of Selected Countries of EU	350
<i>Ladislav Lukáš:</i> Simulation of an Inventory Model by Stochastic Differential Equation Using sw Mathematica	357
<i>Ivo Martiník:</i> Resource-Workflow Petri Nets with Time Stamps and Their Using in Process Management	364
<i>Jiří Mazurek, Zuzana Neničková:</i> Occurrence and Violation of Transitivity of Preferences in Pairwise Comparisons	371
<i>Monika Molnárová:</i> Periodicity of Convex and Concave Monge Matrices in Max-min Algebra	377
<i>Hossein Moosaei, Milan Hladík:</i> Minimum Norm Solution of the Markowitz Mean-variance Portfolio Optimization Model	383
<i>David Neděla:</i> Comparison of Selected Portfolio Approaches with Benchmark	389
<i>Jiří Neubauer, Martin Tejkal, Jakub Odehnal, Tereza Ambler:</i> Parametric and Non-parametric Estimates of Military Expenditure Probability Distribution	396
<i>Kateřina Nováková, Petra Tomanová:</i> Risk Measures Prediction and Its Sensitivity to the Refit Step: A Score-Driven Approach	403
<i>Tomáš Oravec, Osvald Vašíček:</i> Financial Frictions in a Small Open Economy: The Case of Czech Republic	410
<i>Václava Pánková:</i> Capital Mobility in V4 Economies	416
<i>Juraj Pekár, Mário Pčolár:</i> Analysis of the Empirical Distribution of Daily Returns of DJIA Index and Possibilities of Using Selected Distributions	423
<i>Jan Pelikán:</i> Dynamic Vehicle Routing problem	430
<i>Natalie Pelloneová:</i> Evaluation of Financial Performance of the Textile Industry Companies in the Hradec Králové and Liberec Regions	435
<i>Natalie Pelloneová:</i> Use of Malmquist Index in Evaluating Financial Performance of Companies in Cluster of Czech Furniture Manufacturers	442

<i>Štefan Peško, Zuzana Borčinová:</i> Two Objective Problems of Time and Capacity Overloaded Centers	448
<i>Krzysztof Piasecki, Anna Łyczkowska-Hanćkowiak:</i> Approximation of Oriented Behavioural Present Value by Trapezoidal Oriented Fuzzy Number	454
<i>Krzysztof Piasecki, Anna Łyczkowska-Hanćkowiak, Ewa Roszkowska, Tomasz Wachowicz:</i> An Imprecise Image of Principal's Preferences for INSPIRE Negotiation Support System	461
<i>Pavel Pražák, Kateřina Frončková:</i> Discrete Model of Optimal Growth on a Finite Time Horizon as a Boundary Value Problem	467
<i>Miroslav Rada, Michal Černý:</i> A Note on Geometry of Jaeckel's Dispersion Function	474
<i>Jaroslav Ramík:</i> Desirable Properties of Weighting Vector in Pairwise Comparisons Matrix With Fuzzy Elements	481
<i>David Mark Ramsey:</i> On the Effect of Errors in Pairwise Comparisons during Search Based on a Short List	488
<i>Jana Rejentová, Markéta Matulová:</i> Measuring Performance of European Airports	498
<i>Lenka Roubalová:</i> The Time Augmented Cobb-Douglas Production Function as a Tool of the Potential Output Estimation	504
<i>Dana Říhová:</i> Amortization Schedule via Linear Difference Equations	511
<i>Tereza Sedlářová Nehézová:</i> Robust Optimization Approach in Chinese Postman Problem	516
<i>Anna Selivanova:</i> Sensitivity Analysis of a System Dynamics Decontamination Model	523
<i>Joanna Siwek, Krzysztof Piasecki:</i> Management of Imprecision Risk for Two-Assets Portfolio	530
<i>Karel Sladký:</i> Risk-Sensitivity and Average Optimality in Markov and Semi-Markov Reward Processes	537
<i>Nikola Soukupová, Jana Klicnarová, Markéta Adamová:</i> Implications of Population Aging for Economic Growth in V4 Countries	544
<i>Michaela Staňková, David Hampel:</i> Efficiency Assessment of the UK Travel Agency Companies – Data Envelopment Analysis Approach	550
<i>Marie Šimpachová Pechrová, Ondřej Šimpach:</i> Cobb-Douglas or Translog Production Function in Efficiency Analysis?	557
<i>Michal Škoda, Helena Brožová:</i> Fuzzy Evaluation of Passability of Routes During Crisis Situation	564
<i>Eva Štichhauerová, Miroslav Žižka:</i> Impact of Cluster Organizations on Financial Performance in Selected Industries: Malmquist Index Approach	572
<i>Tomáš Talášek, Jan Stoklasa:</i> On the Issue of Comparisons with Reference Fuzzy Numbers – a Graphical Method to Guide the Choice of a Suitable Method in Managerial Decision-making	579
<i>Dušan Teichmann, Michal Dorda, Denisa Mocková, Pavel Edvard Vančura, Vojtěch Graf, Ivana Olivková:</i> Minimising Number of Shunting Tracks at Tram Turning Loops	585
<i>Petra Tomanová:</i> Robustness of Dynamic Score-Driven Models Utilizing the Generalized Gamma Distribution	592
<i>Oldřich Trenz, Zuzana Chvátalová, Jitka Sládková, Oldřich Faldík, František Ostrřížek:</i> Modelling Sustainable Investment	599

<i>Terézia Vančová, Luboš Střelec:</i> Consumption Development of V4 Countries over the Business Cycle	606
<i>Jan Vávra, Arnošt Komárek:</i> Identification of Temporal Patterns in Income and Living Conditions of Czech Households: Clustering Based on Mixed Type Panel Data from the EU-SILC Database	612
<i>Petr Vejmělka:</i> Recursive Estimation of IGARCH Model	618
<i>Lukáš Veverka, Vladimír Holý:</i> Micro Moments Marketing Model	624
<i>Lenka Viskotová, David Hampel, Lenka Roubalová:</i> Estimation of Selected Production Functions Using Starting Parameters Given by Stochastic Funnel Algorithm	630
<i>Petr Volf:</i> Bivariate Geometric Distribution and Competing Risks: Statistical Analysis and Application	636
<i>Anlan Wang:</i> Minimum Risk Portfolio Optimization with Twofold Efficiency Tests	643
<i>Aleksandra Wójcicka-Wójtowicz:</i> Can Experts' Knowledge in eNS Inspire Efficient Classification of Potential Debtors?	650
<i>Martina Zámková, Luboš Střelec, Stanislav Rojík, Martin Prokop, Radek Stolín:</i> Selected Methods of Categorical Data Analysis and Their Application in Consumer Behaviour Research	656
<i>František Zapletal:</i> On Importance of Performance Values for Preference Degrees in PROMETHEE	662
<i>Marek Zinecker, Michał Bernard Pietrzak, Tomáš Meluzín, Adam P. Balcerzak:</i> Interdependencies Among the Polish Capital Market and the Markets in Germany and the United States in the Years 1998–2019	669
<i>Petra Zýková:</i> French Nuclear Power Plants in 2019 – DEA Approach	676
Index	681
