About the Author

Dr Jehane Ragai, a surface scientist who studied for her PhD in London, is an emeritus Professor of Chemistry at the American University in Cairo.

She has lectured extensively in the US, Europe and the Middle East to university and museum audiences, on the scientific detection of forgery in paintings and on topics related to Ancient Egyptian Science, in particular on colour.

Owing to her additional interest in archaeological chemistry, she became a consultant to the American Research Center in Egypt (ARCE) Sphinx project. She has served on the National Committee for the Study of the Sphinx, and from 2001-2008 was a member of the Board of Governors of the ARCE.

Since 2008 Dr Ragai has been a jury member for the L'Oréal-UNESCO Women in Science Award, founded by the Nobel laureates Christian de Duve and Pierre-Gilles de Gennes.

As a faculty member in the Department of Chemistry of the American University in Cairo, she has chaired its Senate, its Department of Chemistry and was the Director of its Chemistry Graduate program. The recipient of several AUC Trustees merit awards, Dr Ragai also
