Foreword xi
Preface xv

Chapter 1 The Impact of Information in Society 1
Learning Guide 1
Introduction 2
Uses of Information in Daily Activities 2
Uses of Information in Society 8
Information in Transition 10
Conclusion 11
Questions for Consideration 12
References 12
Additional Source 14

Chapter 2 Fundamental Concepts of Information 15
Learning Guide 15
Introduction 16
Levels and Forms of Information 16
Definitions of Information 18
Characteristics of Information 20
Information as Process 20
Information Theory 23
Perceptions of Information 24
Linguistic and Biological Approaches to Information 26
Conclusion 33
Questions for Consideration 33
References 34
Additional Sources 37

Chapter 3 Information Needs and Information Seeking Behavior 39
Learning Guide 39
Introduction 40

Entertainment as Information 42
Information Needs 43
Information Seeking Behaviors 45
Conclusion 54
Questions for Consideration 55
References 55
Additional Source 58

Chapter 4 History of Information Technology 59
Learning Guide 59
Introduction 60
Science and Technology Differentiated 60
Information Technology and the Information Disciplines 63
Standardization in Information Transmission and Communication 65
Writing: The First Information Technology Revolution 70
Movement of Messages: The Second Revolution 73
Social Implications of Information Technology 78
Conclusion 80
Questions for Consideration 81
References 81
Additional Sources 82

Chapter 5 Current Information Technology 85
Learning Guide 85
Introduction 86
Data Creation and Conversion 87
Information Transmission 89
Storage and Retrieval: Electronic Databases 97
Storage and Retrieval: Digital Libraries 98
Interactive Systems: Storage, Retrieval, and Creation Combined 101
Storage and Preservation 103
Conclusion 106
Questions for Consideration 106
References 107
Additional Sources 109

Chapter 6 Societal Institutions for Creation, Distribution, and Management of Information 111
Learning Guide 111
Introduction 112
Early Institutions and Processes 113

Development of the Publishing Industry 114
Growth and Change in Libraries 115
Establishment of Educational Systems 117
Modern Institutions 118
Developing and Producing Information Records for Distribution 119
Fostering the Transmission of Information to Future Generations and Developing New Information 137
Distributing Information Records and Providing Management of and Access to Information Records 140
Conclusion 143
Questions for Consideration 143
References 144
Additional Sources 147

Chapter 7 The Information Professions 149
Learning Guide 149
Introduction 150
Categories of the Information Professions 151
Information Creation/Discovery Professions 155
Information Transmission Professions 158
Management-related Professions 160
Storage-related Professions 166
Changes in the Information Professions 175
Conclusion 179
Questions for Consideration 181
References 181
Additional Sources 184

Chapter 8 The Impact of Information on Cultures and Societies 187
Learning Guide 187
Introduction 188
Identifying an Information Society 188
Considering the Impact of Information and Information Technologies on Societies 202
Conclusion 212
Questions for Consideration 212
References 212
Additional Sources 216

Chapter 9 Economics of Information 219
Learning Guide 219
Introduction 220
Key Definitions and Concepts 220
Information as an Economic Good 222
Cost, Pricing, and Value of Information 225
Subsidization of Information Provision 228
Role of Government in the Economics of Information 230
Trends in Information Economics 236
Conclusion 237
Questions for Consideration 238
References 238
Additional Sources 239

Chapter 10 Information, Power, and Society 241
Learning Guide 241
Introduction 242
Thoughts on Power 242
Information as Power 245
Information and Power 253
Power and Technology 258
Conclusion 261
Questions for Consideration 262
References 262
Additional Sources 265

Chapter 11 The Regulation and Politics of Information 267
Learning Guide 267
Introduction 268
Regulation of Communication 269
Information Control 271
Forms of Information Regulation 274
Control and Use of Government Information 275
Information Policy and Regulatory Bodies 277
Conclusion 297
Questions for Consideration 297
References 297
Additional Sources 299

Chapter 12 The Areas and Issues of Information Policy 301
Learning Guide 301
Introduction 302

Policies on Generation and Production 303
Policies on Dissemination of and Access to Information 308
Policies on Distribution of Information 310
Major Areas of Current Policy Concern 314
Conclusion 328
Questions for Consideration 328
References 329
Additional Sources 331

Chapter 13 Information Ethics 333
Learning Guide 333
Introduction 334
Ethics and Culture 335
Ethics Sources 336
On the Differences: Law, Ethics, and Morals 337
Morals, Values, and Ethics 338
Ethics, Morals, and Information 339
Information as Practice 340
Codes of Ethics and Values: What the Professionals Tell Us 341
Issues in Information Ethics 349
Conclusion 369
Questions for Consideration 371
References 371
Additional Sources 376

Chapter 14 Information Future(s) 379
Learning Guide 379
Introduction 380
Looking Back and Looking Forward 382
Information, Society, and the Future 390
Questions for Consideration 392
References 392
Additional Sources 395

Appendix 1: Glossary of Terms 397
Appendix 2: Glossary of Acronyms of Organizations 409
Index 411
About the Authors 443
