

CONTENTS

Welcoming addresses

Prof. MUDr. E.Klika, DrSc., Prorector Magnificus, Charles University, Prague	7
Prof. Dr. V. Hošek, DrSc., Dean, Faculty of Physical Education and Sports, Charles University, Prague	9
Prof. Dr. F. Fidanza, President of Group of European Nutritionists (GEN)	10
MUDr. J. Pařízková, DrSc., Chairperson, comm. II/12, International Union of Nutritional Sciences (IUNS)	11
Prof. Dr. R. Buzina, Honorary President, International Union of Nutritional Sciences (IUNS)	13

Lectures

Hultman E.: Dietary intake and exercise capacity	15
Subotičanec K - Buzina R.: Physical growth, nutrition status and aerobic capacity in adolescents	35
Raczynska B. - Malcewska J. - Zbiegieni B. - Jusiak R. Opaszowski B. - Fürst E. - Raczynski G.: The effect of periodical administration of vitamin B ₁ and B ₂ on physical capacity of swimming children	45
Pavlou K. N.: Resting energy profiles of the elite greek swimmers	51
Fogelholm M.: The effects of training volume on serum ferritin in long-distance athletes	57
MacLaren D. P. M. - Reilly T. P. - Campbell I. T. - Frayn K. N.: Hormonal and metabolite response to glucose and maltodextrin ingestion prior to endurance exercise	63
Šprynarová Š. - Šonka J. - Heller J. - Bunc v. - Kratochvíl O. Límanová Z. - Kümmel L.: Hormonal regulation of energy metabolism in endurance exercise	77

Chasiotis D.: Metabolic changes during short-term exercise in man	87
Buhl H. - Hörner J. - Schober F.: Interrelations between aerobic capacity, metabolism and central nervous system in a macrocycle of the training process with cyclists	97
MacLaren D. P. M. - Mellor S.: The effect of induced alkalosis and acidosis on the lactate threshold (T_{lac})	115
Bunc V. - Heller J.: Energy cost and mechanical efficiency of running and walking in differently trained men and women of various ages	125
Heller J. - Bunc V. - Kuta I.: Body build and composition in relation to the functional capacity and performance in canoeists	133
Macková E. - Melichna J.: Biochemical and morphological characteristics of skeletal muscle in athletes of different sports disciplines in relation to their physical performance	143
Seene T.: Adaptation of the contractile apparatus of the skeletal muscle to aerobic and anaerobic regimes to exercise and the role of glucocorticoids in degradation of thick and thin filaments	151
Tsopanakis A. - Tsopanakis C.: The lipoprotein ratio in the evaluation of lipid adaptation in elite athletes	165
Kaciuba-Uscilko H. - Falecka-Wieczorek H. - Nazar K.: Influence of fat-rich diet on physiological response to prolonged physical exercise	179
Nazar K. - Budohoski L. - Terjung R. L. - Kaciuba-Uscilko H.: Uptake of plasma triacylglycerols by skeletal muscle at rest and during physical exercise	195
Pařízková J.: The assessment of nutritional status of athletes based on dietary intake and body composition measurements	209
Lampisjärvi T. - Elovaara R. - Hohtari H.: Diet and amenorrhea in elite athletes	219
Semiginovský B.: Pseudoremic and pseudorachitics syndromes evoked by endurance load and nutrition	229

Bartůňková S. - Havlíčková L. - Ježek P. - Pařízková J.: Drinking regime during an extreme endurance load	2
Jürimäe T. - Jagomägi G.: The new apparatuses for measurement body density by hydrostatic weighing	2
Tintëra J.: Nutrition before and after the performance in ice hockey	2
Jabor A.: Protein intake as related to possible hidden protein alnutrition	2
Panel discussion	2
