

# CONTENTS

<i>The Hydraulic Laboratory of the Bohemian Technical University at Brno</i>	
By A. Smrček, Brno .....	3
<b>Description of Laboratory</b> .....	5
A. HISTORICAL.....	5
B. GENERAL ARRANGEMENT .....	7
C. WATER SUPPLY AND CIRCULATION .....	8
D. RETURN-WATER CHANNEL, SIPHON, AND SUCTION WELL.....	9
E. CENTRIFUGAL PUMPS, SUCTION AND DISCHARGE PIPES .....	10
F. ELEVATED TANK AND ACCESSORIES .....	11
G. STILLING DEVICES .....	12
H. MEASURING WEIRS .....	12
J. RIVER FLUME .....	13
K. HYDRAULIC FLUME .....	14
L. JOINT USE OF THE RIVER FLUME AND HYDRAULIC FLUME .....	14
M. SAND TRAP (SETTLING BASIN).....	15
N. CYLINDER GATES 13 AND 20 .....	16
O. THE TRAVELING CRANE .....	16
P. INTERIOR AND SCIENTIFIC EQUIPMENT.....	16
Q. LIGHTING, HEATING, PAINTING, FLOORING, AND WIRING .....	17
R. THE PHOTOGRAPHIC ROOM 44.....	17
S. SIDE ROOMS, WORKSHOPS, DRAFTING ROOMS, STEREROOMS FOR MATERIALS .....	17
<b>The most important experiments performed to date</b> .....	18
A. COMPERATIVE EXPERIMENTS WITH MODELS OF HIGHEARTH DAMS .....	18
B. COMPARATIVE EXPERIMENTS ON THE ACTION OF THE OVERFALLING WATER ON THE STREAM BED IMMEDIATELY BELOW THE DAMS .....	23
C. EXPERIMENTS ON THE ABSORPTION OF ENERGY AT HIGH WEIRS OR DAMS .....	31
D. EXPERIMENTS FOR DETERMINING THE MOST SUITABLE FROM OF OVERFALL CREST FOR LARGE DAMS .....	37
E. EXPERIMENTS ON THE MOTION OF WATER IN THE INTERIOR OF LARGE RESERVOIRS .....	38
F. THE INFLUENCE OF SURFACE TENSION ON MEASURING WEIRS .....	38
G. EXPERIMENTS ON FLOOD-DISCHARGE STRUCTURES ON DAMS (SIPHON SPILLWAYS, HINGED FLASHBOARDS, TUNNELS, AUTOMATIC GATES).....	38

H. EXPERIMENTS FOR TESTING THE LAW OF SIMILITUDE .....	40
<b>And what is the laboratory today?</b> .....	42
Orientation of scientific projects .....	44
Example of dike monitoring in laboratory conditions .....	50
Monitoring of dike status changes using Electrical Impedance Spectrometry Method, Water Structure Koberice, CZ.....	55
Monitoring of the first boundary (water – sludge) in clarifying basin by EIS Method (results in comparison with satellite pictures), CZ Republic.....	56
Younger part of laboratory.....	65
Measurement techniques.....	66
ELECTRICAL IMPEDANCE SPECTROMETRY (EIS) METHOD .....	68
WATER-PUMPING STATION IN LWMR.....	70
Preliminary tests at two sites in Basel, Switzerland .....	71
Monitoring of moisture changes of soil by EIS Method in Veľké Ripňany, Slovak Republic .....	72
First test was done in Senné, Slovak Republic in 2009 .....	73
First test with new apparatus was done also in IRSA-CNR, Bari in 2008 .....	73
Visitors in laboratory.....	75
We represented the laboratory in world.....	76
<b>Education</b> .....	78
Laboratory education .....	78
Laboratory education of foreign students .....	79
We organize conferences, meetings, sessions a workshops (international and native).....	81
<b>References</b> .....	83
<b>Project E13838 Members</b> .....	84
Main Participant.....	84
Other Participants.....	85
