

# Contents

<b>1. Basic methods</b> .....	5
1.1 Laboratory exercises in pathophysiology .....	5
1.2 Rules for the laboratory exercises .....	5
1.3 Laboratory report protocol .....	6
1.4 Ethical principles of research when using laboratory animals .....	6
1.5 Laboratory animals .....	7
1.6 Manipulation of laboratory animals, choice of animals for experiments .....	9
1.7 Surgical techniques in laboratory animals .....	10
1.8 Injection technology and venipuncture .....	15
1.9 Surgical sutures .....	16
1.10 Cannulation of the vessels .....	17
1.11 Tracheotomy, acute asphyxia .....	18
1.12 Basic evaluation of measured data .....	19
<b>2. General pathophysiology</b> .....	22
2.1 Skin resistance measurement .....	22
2.2 Quick changes in skin resistance – galvanic reaction .....	23
2.3 Disturbances in thermoregulation – fever .....	24
<b>3. Blood</b> .....	26
3.1 Experimental haemolytic anaemia .....	26
3.2 Changes of coagulation due to dicumarols .....	27
3.3 Changes in fibrin formation after heparin .....	28
3.4 Rumpel-leede test .....	29
<b>4. Circulation</b> .....	30
4.1 Examination of some functional efficiencies of circulation .....	30
4.2 Harvard step test .....	31
4.3 Letunov's test .....	32
4.4 Telemetric observation of heart rate activity .....	34
4.5 Electrocardiogram (ECG) in the pathological states of the heart, ECG in the myocardial ischemia .....	35
4.6 Experimental disorders of the heart .....	53
<b>5. Respiration</b> .....	55
5.1 Examination of pulmonary ventilation .....	55
5.2 Influence of the decreased partial oxygen tension .....	58
<b>6. Digestion</b> .....	60
6.1 The property of saliva .....	60
6.2 The operation of the stomach fistula .....	61
<b>7. Metabolism and thermoregulation</b> .....	63
7.1 Obesity after thestereotaxically performed hypothalamic lesion .....	63
7.2 Developmental dependence of thermoregulation .....	64

<b>8. Excretion</b> .....	67
8.1 Uretrostomia .....	67
<b>9. Endocrinology</b> .....	69
9.1 Metabolic and circulatory changes in experimental thyroid dysfunction .....	69
9.2 The functional disorders after adrenalectomy .....	71
9.3 The effects of castration on male rats .....	72
<b>10. Nervous system</b> .....	73
10.1 Examination of postural reflexes .....	73
10.2 Unilateral vestibular elimination in the guinea pig .....	74
10.3 Test of motoric ability .....	74
10.4 Registration of the bioelectrical brain activity in man – electroencephalography .....	75
10.5 EEG registration – evoked potentials (EP) .....	78
10.6 Registration of the spontaneous and evoked EEG in experimental animal experimental epilepsy .....	81
10.7 Audiogenic epileptic seizures .....	82
10.8 Conditioned reactions escape and avoidance of noxious stimulation .....	82
10.9 Spatial learning examination in the Morris water maze .....	83
10.10 Eyelid response conditioning .....	85
<b>11. Microscopic examination of the brain</b> .....	88
11.1. The microscopy of cerebellum .....	89
11.2 Microscopy of hippocampus .....	90
