## Acknowledgments

To the authors many thanks for their work on the preparation of the book. We would like to thank Dr. Tatyana V. Kostrikina for her help in the preparation of the book and for her support during its preparation. Many thanks also to our editor, Dr. Michaela M. Kostrikina, for her support and assistance in the preparation of the book. Many thanks also to the anonymous reviewers for their useful comments and suggestions which greatly improved the quality of the book.

The authors would like to thank the publisher for his support in the preparation of the book and for his support in the publication of the book. The authors would like to thank the editor-in-chief of the journal "Algorithms" for his support in the preparation of the book and for his support in the publication of the book.
