Preface	5
1 Assessment of agility skills	7
1.1 Diagnostic systems FiTRO Reaction & Agility Check	7
1.1.1 Reaction Test	7
1.1.2 Agility Test	10
2 Toward an understanding of agility performance	16
2.1 Agility Test components	16
2.1.1 Simple and multi-choice reaction times	16
2.1.2 Decision-making	17
2.1.3 Speed of gait/sprint movement initiation	18
2.2 Agility Test setting	20
2.2.1 Stimuli generation time	20
2.2.2 Stimuli number and movement distances	21
2.2.3 Forms and colors of stimuli	24
2.3 Sport-specific adjustments of the Agility Test	25
2.4 Factors affecting agility performance	34
3 Applications of the Agility Test in sport practice	39
3.1 Assessment of agility performance in athletes with different levels of performance	39
3.2 Talent identification	40
3.3 Differentiation of groups of athletes with different demands on agility skills	42
3.4 Assessment of the effect of training on agility performance	42
4 Agility training	45
4.1 Acute agility adjustments	45
4.2 Chronic agility adaptations	50
Concluding comments	58
