Foreword	V
Content	VII
Detailed content	IX
List of Abbreviations	XIII
Chapter 1 The Financial Cycle and Macroprudential Policy.....	1
1.1 Introduction	2
1.2 The Czech financial sector and its historical developments	3
1.3 The CNB's approach to financial stability and macroprudential policy....	7
1.4 Procyclicality, the financial cycle and systemic risk	12
1.5 The financial network and the risk of contagion within the financial system.....	14
1.6 Indicators for identification and assessment of cyclical sources of systemic risk	16
1.7 Tracing structural sources of systemic risk in a financial network.....	25
1.8 Tools for preventing systemic risk and mitigating its impacts	27
1.9 Some important issues in the operationalisation of macroprudential policy	36
1.10 Conclusion.....	39
Chapter 2 Credit Risk and the Role of Provisioning.....	43
2.1 Introduction: the financial crisis and rebirth of provisioning debate	43
2.2 Procyclicality and provisioning regimes	45
2.3 Do banks behave procyclically when provisioning?	48
2.4 Illustration of through-the-cycle provisioning.....	55
2.5 Potential implementation of through-the-cycle provisioning and its barriers	57
2.6 Non-performing loans over the business cycle.....	60
2.7 Conclusions	64
Chapter 3 The Sovereign Default Risk: Contagion Channels	69
3.1 Introduction	69
3.2 The phenomenon of sovereign default risk	70
3.3 Sovereign default risk contagion channels	72
3.4 Conclusions	80

Chapter 4 The Sovereign Default Crisis: The Case of the Czech

Financial Sector	81
4.1 Introduction	81
4.2 Credit default swaps as a credit risk indicator	83
4.3 Quantile analysis of cross-country contagion effects based on CDS sovereign spreads.....	87
4.4 Analysis of Sovereign CDS and their relationship to the Czech government bond market	90
4.5 Conclusion.....	96

Chapter 5 Fiscal Sustainability and Financial Stability..... 99

5.1 Introduction	99
5.2 Sovereign exposures as a systemic risk	102
5.3 Sovereign debt sustainability.....	104
5.4 Macroprudential policy and sovereign risk	109
5.5 Conclusions	113

Chapter 6 Systemically Important Financial Institutions 115

6.1 Introduction	115
6.2 Defining systemic importance	117
6.3 Methods for identifying SIFIs in the Czech banking sector	120
6.4 SIFI regulation and its instruments.....	129
6.5 Conclusions	132

Chapter 7 Models for Stress Testing: Bank Liquidity Risk 135

7.1 Introduction	135
7.2 Related literature	137
7.3 The liquidity situation of the Czech banking system.....	140
7.4 Empirical methodology	142
7.5 Application of the model to the Czech banking system	150
7.6 Conclusion.....	155

Chapter 8 Models for Stress Testing: The Insurance Sector..... 159

8.1 Introduction	159
8.2 Literature	161
8.3 Key risks of the insurance sector.....	162
8.4 Methodology for stress testing in the Czech insurance sector.....	165
8.5 Application to the Czech insurance sector.....	175
8.6 Considerations regarding the upcoming solvency II regulatory regime	182
8.7 Conclusion.....	183

Chapter 1 The Financial Cycle and Macroprudential Policy	1
1.1 Introduction	2
1.2 The Czech financial sector and its historical developments	3
1.3 The CNB's approach to financial stability and macroprudential policy	7
1.4 Procyclicality, the financial cycle and systemic risk	12
1.5 The financial network and the risk of contagion within the financial system	14
1.6 Indicators for identification and assessment of cyclical sources of systemic risk	16
1.7 Tracing structural sources of systemic risk in a financial network	25
1.8 Tools for preventing systemic risk and mitigating its impacts	27
1.8.1 Tools for increasing resilience, leaning against the cycle and mitigating its impacts	27
1.8.2 Macroprudential tools most relevant from the perspective of the Czech economy	34
1.9 Some important issues in the operationalisation of macroprudential policy	36
1.10 Conclusion	39
Chapter 2 Credit Risk and the Role of Provisioning	43
2.1 Introduction: the financial crisis and rebirth of provisioning debate	43
2.2 Procyclicality and provisioning regimes	45
2.3 Do banks behave procyclically when provisioning?	48
2.4 Illustration of through-the-cycle provisioning	55
2.5 Potential implementation of through-the-cycle provisioning and its barriers	57
2.6 Non-performing loans over the business cycle	60
2.7 Conclusions	64

Chapter 3 The Sovereign Default Risk: Contagion Channels	69
3.1 Introduction	69
3.2 The phenomenon of sovereign default risk	70
3.3 Sovereign default risk contagion channels	72
3.3.1 The channel of sovereign debt in the financial sector's asset holdings	73
3.3.2 The cross-country contagion channel	75
3.3.3 The channel of change in the attitude to risk	76
3.3.4 The sovereign and bank rating channel	77
3.3.5 The channel of assets as collateral	78
3.3.6 The channel of the effects of government guarantees on bank funding	78
3.3.7 The channel of the impact on banks' non-interest income	79
3.3.8 The channel of crowding-out effects on banking sector debt issuance	79
3.4 Conclusions	80
Chapter 4 The Sovereign Default Crisis: The Case of the Czech	
Financial Sector	81
4.1 Introduction	81
4.2 Credit default swaps as a credit risk indicator	83
4.3 Quantile analysis of cross-country contagion effects based on CDS sovereign spreads	87
4.4 Analysis of Sovereign CDS and their relationship to the Czech government bond market	90
4.5 Conclusion	96
Chapter 5 Fiscal Sustainability and Financial Stability	99
5.1 Introduction	99
5.2 Sovereign exposures as a systemic risk	102
5.3 Sovereign debt sustainability	104
5.3.1 Public finance sustainability – the traditional approach	104
5.3.2 Public finance sustainability – a more sophisticated approach	108
5.4 Macprudential policy and sovereign risk	109
5.5 Conclusions	113
Chapter 6 Systemically Important Financial Institutions	115
6.1 Introduction	115
6.2 Defining systemic importance	117
6.3 Methods for identifying SIFIs in the Czech banking sector	120
6.4 SIFI regulation and its instruments	129
6.5 Conclusions	132
Chapter 7 Models for Stress Testing: Bank Liquidity Risk	135
7.1 Introduction	135
7.2 Related literature	137
7.3 The liquidity situation of the Czech banking system	140
7.4 Empirical methodology	142
7.4.1 The Formation of the balance-sheet liquidity shortfall	143
7.4.2 The reaction by banks	146

7.4.3 The feedback effects of shocks.....	148
7.5 Application of the model to the Czech banking system	150
7.5.1 Data	150
7.5.2 Stress-testing scenario	151
7.5.3 Results	154
7.6 Conclusion.....	155
Chapter 8 Models for Stress Testing: The Insurance Sector.....	159
8.1 Introduction	159
8.2 Literature	161
8.3 Key risks of the insurance sector	162
8.4 Methodology for stress testing in the Czech insurance sector	165
8.4.1 Assets and liabilities in the stress test and their valuation	166
8.4.2 Aggregation	166
8.4.3 One-year horizon assumptions	166
8.4.4 Design of scenarios.....	167
8.4.5 Methodology for individual risks	169
8.5 Application to the Czech insurance sector.....	175
8.5.1 Data	175
8.5.2 Scenarios.....	176
8.5.3 Results	178
8.6 Considerations regarding the upcoming solvency II regulatory regime	182
8.7 Conclusion.....	183
