Foreword	V
Content	VII
Detailed content	IX
List of Abbreviations	XIII
Chapter 1 Identification of Asset Price Bubbles	1
1.1 Introduction	1
1.2 How do bubbles emerge?	4
1.3 Classification of bubbles	6
1.4 Specific characteristics of asset markets.....	10
1.5 Options for the empirical identifying of bubbles.....	11
1.6 Conclusion.....	15
Chapter 2 Misalignment of Exchange Rates: The Case of the Czech Republic	17
2.1 Introduction	17
2.2 Equilibrium exchange rate concepts.....	18
2.3 Methods for empirically estimating equilibrium exchange rates.....	22
2.4 Estimates of the equilibrium exchange rate of the CZK.....	24
2.5 Conclusion.....	30
Chapter 3 Misalignment of Housing Prices: The Case of the Czech Republic	33
3.1 Introduction	33
3.2 Factors Determining Property Prices.....	36
3.3 Sources of Real Estate Data in the Czech Republic	38
3.4 Simple Indicators of Housing Price Sustainability	43
3.5 Single Indicators from an International Perspective.....	44
3.6 Statistical Filters.....	45
3.7 Panel Data Analysis.....	47
3.8 Conclusions	53
Chapter 4 Monetary Policy and Oil Prices	55
4.1 Introduction	55
4.2 Key empirical facts.....	56
4.3 Links between monetary policy and the price of oil (commodities).....	65

4.4	Prices of oil (commodities) in the CNB'S forecasting process	69
4.5	Conclusions	74

Chapter 5 The US Dollar – The World's Leading Reserve

Currency	77
5.1 Introduction	77
5.2 A historical look at the role of reserve currencies	78
5.3 Attributes of a dominant international currency	80
5.4 Current international reserve currencies and the role of the dollar	83
5.5 Conclusion	91

Chapter 6 Central Bank Aggressiveness 95

6.1 Introduction	95
6.2 Primary and secondary definitions of central bank aggressiveness	96
6.3 Discussion of the optimal degree of central bank aggressiveness	101
6.4 New indicators of central bank aggressiveness	107
6.5 Conclusions	114

Chapter 7 Forward Guidance as Another Central Bank

Instrument	117
7.1 The essence of FG	117
7.2 FG of central banks of small open economies	119
7.3 FG of reserve currency central banks	121

Chapter 8 Monetary Policy in a Small Economy: What Role for

Financial Stability?	127
8.1 Introduction	128
8.2 The great moderation versus the asset markets' wilderness	130
8.3 The BIS Approach, or the Austrian Business Cycle Revisited	135
8.4 Global Liquidity, Asset Prices and Monetary Policy before the Crisis	139
8.5 Does the Exchange Rate Make Monetary Policy Strategy Different? ..	142
8.6 Monetary Policy and Financial Stability in the New Consensus	147
8.7 The New Consensus and Post-Crisis Policy Making	155
8.8 Conclusion	157

Detailed content

Foreword	V
Content	VII
Detailed content	IX
List of Abbreviations	XIII
Chapter 1 Identification of Asset Price Bubbles	1
1.1 Introduction	1
1.2 How do bubbles emerge?	4
1.3 Classification of bubbles	6
1.3.1 Rational bubbles – rational investors and symmetric information.....	7
1.3.2 Bubbles relating to limited arbitrage	9
1.4 Specific characteristics of asset markets.....	10
1.5 Options for the empirical identifying of bubbles.....	11
1.5.1 Trend curves, statistical filters and price ratios	12
1.5.2 Empirical methods and models.....	13
1.5.3 Specification tests	14
1.6 Conclusion.....	15
Chapter 2 Misalignment of Exchange Rates: The Case of the Czech Republic	17
2.1 Introduction	17
2.2 Equilibrium exchange rate concepts.....	18
2.2.1 Normative concepts	20
2.2.2 Positive concepts	21
2.3 Methods for empirically estimating equilibrium exchange rates.....	22
2.3.1 Trend curves and statistical filters	22
2.3.2 Unit root tests and cointegration.....	22
2.3.3 Structurally rich models.....	23
2.4 Estimates of the equilibrium exchange rate of the CZK.....	24
2.4.1 Statistical methods.....	24
2.4.2 BEER (Behavioral Equilibrium Exchange Rate).....	25
2.4.3 FEER (Fundamental Equilibrium Exchange Rate).....	26
2.5 Conclusion.....	30

Chapter 3 Misalignment of Housing Prices: The Case of the	
Czech Republic	33
3.1 Introduction	33
3.2 Factors Determining Property Prices.....	36
3.2.1 Supply factors.....	36
3.2.2 Demand factors.....	37
3.3 Sources of Real Estate Data in the Czech Republic	38
3.4 Simple Indicators of Housing Price Sustainability	43
3.5 Single Indicators from an International Perspective.....	44
3.6 Statistical Filters.....	45
3.7 Panel Data Analysis.....	47
3.8 Conclusions	53
Chapter 4 Monetary Policy and Oil Prices	55
4.1 Introduction	55
4.2 Key empirical facts.....	56
4.2.1 Oil and oil products	56
4.2.2 Oil price and key macroeconomic variables.....	58
4.2.3 Oil and gas.....	60
4.2.4 Oil and other commodities.....	61
4.2.5 Oil price and the USD exchange rate.....	63
4.3 Links between monetary policy and the price of oil (commodities).....	65
4.3.1 Production.....	67
4.3.2 Inventories	68
4.3.3 Financial speculation	68
4.4 Prices of oil (commodities) in the CNB'S forecasting process	69
4.4.1 How should a central bank react to an oil price shock?.....	69
4.4.2 Oil price outlooks and the forecasting process at the CNB	70
4.4.3 Impact of an oil price shock on the external and domestic economy ..	71
4.5 Conclusions	74
Chapter 5 The US Dollar – The World's Leading Reserve	
Currency	77
5.1 Introduction	77
5.2 A historical look at the role of reserve currencies	78
5.3 Attributes of a dominant international currency	80
5.3.1 Advantages for a country with an international reserve currency.....	80
5.3.2 Disadvantages for a country with an international reserve currency ..	81
5.4 Current international reserve currencies and the role of the dollar.....	83
5.4.1 Currency dominance indices.....	83
5.4.2 The still dominant US dollar.....	85
5.4.3 Other current reserve currencies	88
5.4.4 The Chinese renminbi – a future reserve currency?	90
5.5 Conclusion.....	91

Chapter 6 Central Bank Aggressiveness	95
6.1 Introduction	95
6.2 Primary and secondary definitions of central bank aggressiveness	96
6.2.1 Primary definition of central bank aggressiveness: volatility of monetary policy rates	96
6.2.2 Secondary definition of central bank aggressiveness: reaction function estimate.....	100
6.3 Discussion of the optimal degree of central bank aggressiveness	101
6.3.1 The minimum possible degree of aggressiveness – the Taylor rule ...	101
6.3.2 Theoretical motives and reasons for a lower degree of aggressiveness	103
6.3.3 Definition of the central bank's optimal behaviour	106
6.4 New indicators of central bank aggressiveness	107
6.4.1 Evaluating the variability and aggressiveness of selected central banks.....	109
6.5 Conclusions	114
Chapter 7 Forward Guidance as Another Central Bank Instrument	117
7.1 The essence of FG	117
7.2 FG of central banks of small open economies.....	119
7.3 FG of reserve currency central banks	121
Chapter 8 Monetary Policy in a Small Economy: What Role for Financial Stability?	127
8.1 Introduction	128
8.2 The great moderation versus the asset markets' wilderness	130
8.3 The BIS Approach, or the Austrian Business Cycle Revisited.....	135
8.4 Global Liquidity, Asset Prices and Monetary Policy before the Crisis .	139
8.5 Does the Exchange Rate Make Monetary Policy Strategy Different?...	142
8.6 Monetary Policy and Financial Stability in the New Consensus.....	147
8.7 The New Consensus and Post-Crisis Policy Making.....	155
8.8 Conclusion.....	157
