	Forget crowdfunding and return to VCs or do so in a new order of events · · · · ·	180
	Classic funding rounds normal startups go through · · ·	184
	The development of the secondary market for classic VC-backed startups · · · · ·	185
	The balanced team and the three H's - hustler, hacker, hipster · · · · ·	186
	Recruiting a dream team of advisors and closing an advisory financing round · · · · ·	188
	How to raise capital on a global roadshow · · · · ·	190
Chapter 5	Investing in equity for blockchain and crypto startups as well as digital assets and cryptocurrencies – what to look for and what to avoid · · · · ·	195
	Joey Krug, Chief Investment Officer, Pantera Capital – A Crypto Thesis, Open Financial Systems · · ·	201
	A new financial infrastructure · · · · ·	201
	How's this relate to finance? · · · · ·	202
	Why do all this? What's it even accomplish? · · · · ·	203
	What sort of things will I be able to do? · · · · ·	204
	Few traditional assets · · · · ·	205
	Anything besides finance? · · · · ·	206
	What about money? · · · · ·	206
	Liquidity is paramount · · · · ·	207
	Companies on top of open source protocols · · · · ·	208
	Lower Fees · · · · ·	208
	Regulatory · · · · ·	209
	[Back to] companies on top of open source protocols · · ·	210

Barriers to adoption ·····	211
What'd You Say About Rockets? ·····	212
Approaches To Decentralization — Using 'Autopilot' As A Metaphor ·····	212
What'd You Say About Biotech? ·····	213
How to invest in crypto? ·····	214
Scalability ·····	214
Layer 1 simply means the underlying blockchain such as Ethereum and Bitcoin. ·····	215
Storage and Computational Power ·····	216
Layer 2 involves protocols and technology stacks above, or on top of, layer one. ·····	217
Fiat on-ramps ·····	218
All of this begs the question, how would you invest into this space? ·····	219
Tech ·····	220
Economics ·····	221
Team ·····	221
Market ·····	222
Product and Traction ·····	222
Constantly Reevaluate ·····	223
Summary ·····	223
Patrick Lowry, CEO, Iconiq Lab, City Managing Director - Frankfurt, 7BC Roadshow - Tokens, Scams and ICO Due Diligence ·····	225
Joe Buttram, cofounder & CEO, Whalepod ·····	226

Chapter 6 The regulatory landscape and legal considerations for STOs, IEOs, other token offerings and crypto ·····	230
Roger Royse, Founder & Managing Partner, Royse Law Firm, Legal Advisor, 7BC - The Regulation of ICOs ·····	232
Securities Exchange Commission ·····	232
What is a Security? ·····	232

Howey Test ·····	233
Family Resemblance Test and the Risk Capital Test ···	233
Risk Capital Test ·····	234
Registration ·····	234
Regulation A ·····	235
Regulation Crowdfunding ·····	235
State Blue Sky Laws ·····	236
Reg S Offering ·····	236
Secondary Sales ·····	236
Securities Exchanges and ATPs ·····	237
Financial Crimes Enforcement Network ·····	237
FinCEN Rules and Regulations ·····	238
Commodities Futures Trading Commission ·····	239
Futures Contract versus Spot Transactions / Cash	
Forward Transactions ·····	240
Tax Considerations ·····	241
U.S. Taxation of Convertible Virtual Currencies	
and Tokens ·····	241
Tax Characterization of Proceeds Received from a	
Token Sale ·····	242
Taxation of Purchasers of Tokens ·····	242
US Taxation of Foreign Token Sales ·····	243
Subpart F Income ·····	244
Foreign Derived Intangible Income (FDII) ·····	245
Foreign Sourced Dividend Deduction (DRD) ·····	246
Global Intangible Low Taxed Income (GILTI) Tax ····	247
Conclusions ·····	247
Hazem Danny Al-Nakib, Partner, 7BC, Managing	
Partner, Sentinel Capital Group – Regulatory and	
other Considerations for Blockchain Entrepreneurs	
and Regulators ·····	248
Regulatory and Other Considerations for	
Blockchain Entrepreneurs and Regulators ·····	248
Major changes to token sales ·····	249

Understanding a token sale ·····	250
Major considerations ·····	252
Regulator Landscape ·····	256
Other considerations when conducting a token sale ···	260
Final Remarks: The Future of Token Sales ·····	262
Louis Lehot, Mark F. Radcliffe, Jennifer Kristen, DLA Piper - Hybrid token offerings ·····	265
Control of future hybrid token offerings ·····	269
Joey Garcia, Partner, ISOLAS – The view from Gibraltar ·····	270
Howard Marks, CEO, StartEngine; Cofounder, Activision (\$35bn market cap) ·····	274
Kate Rooney, markets reporter, CNBC - Your guide to cryptocurrency regulations around the world and where they are headed ·····	278
Global regulators ·····	279
Japan ·····	279
United States ·····	280
European Union ·····	281
United Kingdom ·····	281
South Korea ·····	282
China ·····	283
Singapore ·····	283
India ·····	284
Switzerland ·····	284
CR Celona, Partner, Speakr, founder 2XPLR, Director FilmEngine - Cryptic Words of Confusion ···	285
Jon D. Feldhammer, Thomas Newman, Tim Froehle and Christopher Sigmund, Perkins Coie - Urgent Tax Reporting Considerations for Virtual Currency Traders, Miners, and Anyone Contemplating Investment ·····	287

Mahdi Shams, Partner, MLT Aikins - What Does
 the SEC Say About Token Offerings? 291
 Wyoming vying to be the top choice U.S. state to
 incorporate blockchain related companies issuing
 tokens or managing mining operations 293
 Concluding thoughts on regulatory issues 294
**Chapter 7 What is the significance of token offerings and
 the pros and cons to issuers and investors and
 how does this impact venture capital? 296**
 Significance for large companies 298
 Reverse incentives for investors 298
 Significance for VC, angel and individual investors . . . 298
**Chapter 8 What the future of blockchain, crypto and
 token offerings may look like and the uncertainties 301**
**Chapter 9 A strategy for an AI, fintech and blockchain
 venture capital fund – 7BC Venture Capital 305**
Chapter 10 Glossary 311
