Contents

Abbreviations 5

Introduction 7

1 Metal-ceramic composites 9

2 Soldering aluminium composites by flux-free process 13

2.1 Surface tension 13

2.2 Wettability 14

2.3 Spreadability 16

2.4 Diffusion processes 18

2.5 Erosion 21

2.6 Review of the main solders for soldering aluminium composites 22

3 Soldering ceramic materials 28

3.1 Thermal expansion of ceramics-metal solder joints 29

3.2 Applicable methods of soldering the metal-ceramic composites with metal or ceramics by flux-free process 31

3.2.1 Soldering with ultrasound assistance 32

3.2.2 Soldering in oven 33

3.2.3 Laser beam soldering 35

3.2.4 Electron beam soldering in vacuum 36

4 Experimental soldering of the al-Al_2O_3 aluminium composite with copper, aluminium and Al_2O_3 ceramics 38

4.1 Selection of soldering alloys 39

4.2 Selection of flux-free soldering technology 41

5 Analysis of the soldered joints boundaries 44

5.1 Analysis of the Al-Al_2O_3/Zn5Al/Cu joint 44

5.2 Analysis of the Al-Al_2O_3/Zn6Al6Ag/Cu joint 47

5.3 Analysis of the Al-Al_2O_3/Zn10In1Mg/Cu joint 51

5.3 Analysis of the Al-Al_2O_3/Zn5Al/Al7075 joint 56

5.4 Analysis of the Al-Al_2O_3/Zn10In1Mg/Al7075 joint 59

5.5 Analysis of the Al-Al_2O_3/Zn6Al6Ag/Al7075 joint 65

5.6 Analysis of the Al-Al_2O_3/Zn6Al6Ag/Al_2O_3 joint 68

6 Shear strength of soldered joints 75
7 Analysis of fracture surfaces 78
8 Discussion 88
Conclusions 90
