Preface v

Photo and Workshop Participants vi

Ashili, P., Tajovský, K., Tuf, I.H. & Tufová, J.: Impact of ungulate browsing on leaf litter palatability for millipedes (Diplopoda) 1

Aurová K.: The impact of ungulates on epigeic assemblages of centipedes (Chilopoda) in the Křivoklátsko Protected Landscape Area - preliminary results 5

Christian, E. & Knoflach, B.: Jumping bristletails (Archaeognatha) in Austria: current knowledge and gaps 9

Čuchta, P., Kováč, L. & Miklisová, D.: The effect of windthrow in the spruce forests of the High Tatras (Slovakia) on soil microarthropods one year after a severe wind calamity with special reference to Collembola (Hexapoda) 13

Devetter, M.: Seasonal development and vertical distribution of soil rotifer populations in South-Bohemian beech forest 19

Farská, J., Jínová, K., Jirout, J., Petrásek, J., Čápková, L., Rusek, J., Křišťufek, V., Elhottová, D. & Starý, J.: Microarthropods and microbial participation in oak and beech litter decomposition 25

Fend'a, P. & Ciceková, J.: Soil mites (Acari, Mesostigmata) of oak-hornbeam forest in NR Katarínka, Southwest Slovakia 29

Fend'a, P. & Kalúz, S.: Distribution and ecology of the ascid mites in Slovakia (Acari, Mesostigmata, Ascidae) 33

Gerlach, A., Voigtländer, K. & Heidger, C.M.: Behavioural response of selected epigeic arthropods on pitfall traps (Diplopoda, Chilopoda, Oniscidea, Carabidae, Staphylinidae) 41

Háněl, L.: Soil nematodes in ungulate grazed and ungrazed forests of the Křivoklátsko Biosphere Reserve – first results of an ongoing project 47

Háněl, L.: Species and genera of soil nematodes inhabiting tree plantations on colliery spoils near Sokolov 53

Hudelist, B., Uteseny, K. & Waitzbauer, W.: “Up on the roof” - The vertical distribution of selected arthropod groups in three green sites at different elevations 59

Jínová, K.: Vertical Collembola distribution in spruce and beech forest soils 65

Kania, G.: The economic and medical significance of millipedes (Diplopoda) with emphasis on *Ommatoiulus sabulosus* 73

Krumpálová, Z.: Spiders (Araneae) of the Kopáč Island Nature Reserve near Bratislava (Slovakia) 79

Kupka, J. & Dvořák, L.: Molluscan assemblages of Těšín Limestone stands (Těšín region, Czech Republic and Poland) 83

Lukešová, A. & Nováková, A.: Interactions between the soil micro-flora and invertebrates in Slovak and Moravian caves 89

Magura, T., Hornung, E. & Tóthmérés, B.: Changes of ground beetle and isopod assemblages along an urbanisation gradient in Hungary 97

Miko, L.: Some simple cenological indices for soil microarthropod studies 103

Pižl, V.: Earthworm assemblages on afforested colliery spoil heaps as affected by tree species 113

Querner, P., Bruckner, A., Čoja, T. & Peham, T.: Effect of mulching and irrigation on the soil biota in a garden lawn 119

Riedel, P., Navrátil, M., Tuf, I.H. & Tufová, J.: Terrestrial isopods (Isopoda: Oniscidea) and millipedes (Diplopoda) of the City of Olomouc (Czech Republic) 125

Rusek, J., Reithofer, D., Schmid, S., Truxa, Ch., Weber, J., Wilde, U.: Collembola, Protura and Pauropoda in a riparian forest – mesic forest ecotone 133

Schlaghamerský, J., Khodabocus, J.B. & Pižl, V.: Has *Tilia x euchlora* a detrimental effect on soil annelids in urban greens? 141

Smrž, J.: Mycophagy - dream and reality in soil saprophagous mites (Acari: Oribatida and Acaridida) 147

Sokołowska, M., Duras, M. & Skubała, P.: Oribatid mites communities (Acari: Oribatida) in dead wood of protected areas under strong anthropogenic pressure 151

Šustr, V., Schlick-Steiner, B.C. & Steiner, F.M.: Digestive enzymes in ants (Hymenoptera: Formicidae): a short review 157

Vďačný, P. & Tirjaková, E.: Soil ciliate biota (Protista, Ciliophora) from forests in Little Carpathian Mts. and White Carpathian Mts. (Central Europe) 163

Vidic, A.: Ground beetle communities of various forest habitats in the Thayatal National Park, Lower Austria 167

Wytwer, J. & Tajovský, K.: Changes in centipede assemblages along the vertical and vegetation gradient in the Bieszczady Mts., Poland 173

Zolda, P.: Effects of selected forestry techniques on soil nematode communities in the Natural Reserve Dürrenstein, Lower Austria 181

Zolda, P. & Markut, T.: Formaldehyde sub sample analysis: a suitable method to assess nematode community parameters? 187

Index of Authors and Coauthors 191
