

Content

Preface	v
Photo and Workshop Participants	vi
Bartošová, P., Tirjaková, E. & Holecová, M.: The influence of selected factors on the communities of ciliates (Protozoa, Ciliophora) in decaying woody matter	1
Brunner, N., Kromp, B., Pázmándi, Ch. & Traugott, M.: Evaluation of different sampling techniques for wireworms (Coleoptera, Elateridae) in arable land	7
Čápková, L. & Rusek, J.: Litter attractivity for soil gamasid mites (Acarina, Gamasida) in litterbag decomposition experiment	11
Christian, E. & Bauer, T.: Food acquisition and processing in Central European Diplura (Hexapoda)	15
Christophoryová, J., Krumpál, M. & Krumpálová, Z.: The pseudoscorpion communities (Pseudoscorpiones) of the oak-hornbeam forests of South-western Slovakia	19
Devetter, M.: Primary succession of soil rotifer communities on brown coal post-mining area	25
Dózsa-Farkas, K.: Comparative enchytraeid faunistic investigation of the northeastern mountain range in Hungary	29
Farská, J.: Litter attractivity for soil Oribatida in litterbag decomposition experiment	35
Franc, V.: Prevailingly trophic relations between spiders (Araneae) and ants (Formicoidea) in Slovakia	41
Gallé, R., Torma, A. & Körmöczi, L.: Epigeic invertebrate assemblages (Araneae, Heteroptera) of natural forest edges – Preliminary results	47
Háněl, L.: Assemblages of soil nematodes in selected marshland habitats of the Biebrza National Park	53
Háněl, L.: Changes in proportions of nematode trophic groups in a natural fallow and soils sown with regional and commercial grass mixtures	59
Háněl, L.: Dominant nematodes in the first fifteen years of the primary succession on post-mining clays	65
Jínová, K. & Rusek, J.: Litter attractivity for soil Collembola in litterbag decomposition experiment	69
Juříčková, L. & Kučera, T.: Land snail assemblage patterns along motorways in relation to environmental variables	75
Kaczmarek, S. & Marquardt T.: Gamasida communities (Acari) in the <i>Caricetum lasiocarpae</i> fen of the Bagno Stawek Reserve, Tuchola Forest (N Poland)	79
Kaczmarek, S. & Marquardt, T.: Soil Gamasida (Acari) in various pine forests and ecotones between them of the Bagno Stawek Reserve, Tuchola Forest (N Poland)	83
Kostúrová, N.: First data on <i>Micramurida bescidica</i> (Collembola, Neanuridae) from Zádiel Valley, Slovakia	87
Kudlíková, I., Klaudyová, A., Chalupníková, J. & Hubert, J.: Characterization of polyclonal antibodies against <i>Tyrophagus putrescentiae</i> (Acari: Acaridae)	89
Markut, T., Zolda, P. & Waitzbauer, W.: Earthworms – an important food resource of the Northern Bald Ibis north of the Alps	93
Mock, A., Kania, G. & Miklisová, D.: Terrestrial isopods (Oniscidea) of the Ojców National Park (Poland)	97
Pižl, V.: Earthworm communities in central European beech forests	103
Rusek, J.: A new classification of Collembola and Protura life forms	109
Rusek, J.: Integration of ecological and morphological studies: Micro-distribution of <i>Protaphorura</i> -species (Collembola: Onychiurinae) around a beech stem	117
Rusek, J. & Brůhová, J.: Impact of bark beetle outbreak on epigeic communities of Collembola (Insecta: Entognatha) in climax spruce forests in the Šumava National Park, Czech Republic	121
Schlaghamerský, J.: Consequences of the advance in <i>Fridericia</i> taxonomy for our knowledge of Czech and Slovak enchytraeid faunas	127
Seniczak, A.: Preliminary studies on the toxicity of copper and lead in <i>Pergalumna nervosa</i> (Berlese, 1914) (Acari, Oribatida) in laboratory tests	131

Seniczak S., Chachaj B. & Kaczmarek S.: Preliminary study on the influence of sheep, cattle and horse grazing on soil mites (Acari) of lowland meadow in Poland. 135

Seniczak, S., Gulvik, M.E., Seniczak A. & Chachaj, B.: The soil oribatida (Acari) of wooded hay meadow in Sogn, Norway 139

Seniczak, S., Kaczmarek S., Klimek A. & Seniczak A.: The effect of sulphur air pollution on vertical distribution of mites (Acari) in soils under young Scots pines in Poland 143

Šídová, A., Schlaghamerský, J.: The impact of high game density on enchytraeids in a mixed forest 147

Smrž, J.: Nutritional biology in the oribatid mites (Acari: Oribatida) communities in the different, closely neighbouring microhabitats in the steppe biotope - preliminary report 153

Sólymos, P., Czentye, I. & Tutkovics, B.: A comparison of soil sampling and direct search in malacological field inventories 161

Šustr, V., Hubert, J. & Pekár, S.: Feeding and metabolic rate of *Galumna elimata* (C.L.Koch, 1841) (Acari: Oribatida) under different temperatures 165

Šustr, V. & Pižl, V.: Selected physiological parameters of the earthworm *Dendrobaena mrazeki* (Černosvitov, 1935) 171

Svatoň, J. & Gajdoš, P.: Spiders (Araneae) of the Babia hora National Nature Reserve (Slovakia) 177

Uteseny, K.: Collembola introduced into the Rainforest House at Schönbrunn Zoo 185

Vďačný, P., Tirjaková E. & Holecová, M.: Succession in the soil gymnostomate ciliate (Ciliophora, Gymnostomatea) communities in non-flooded Petri dish cultures 189

Vilisics, F., Sólymos, P. & Hornung, E.: A preliminary study on habitat features and associated terrestrial isopod species 195

Voženílková-Aurová, K.: Inoculation of centipedes (Chilopoda) into colliery spoil heaps 201

Wytwer, J. & Tajovský, K.: Centipede assemblages in an abandoned arable field with different plant diversity manipulations 205

Zolda, P.: Seasonal dynamics of soil nematode community structure in semi-natural grasslands under pasture 211

Index of Authors and Coauthors 217
