

CONTENTS

1 BASIC SCIENCES 1

Jeremy K. Rush, Dustin Lybeck, Jessica Rivera, and Matthew R. Schmitz

SECTION 1 ORTHOPAEDIC TISSUES 1

Bone 1
Cartilage and Joint 34
Muscle 52
Tendon 57
Ligament 58
Neural Tissue and Intervertebral Disc 59

SECTION 2 ORTHOPAEDIC BIOLOGY 61

Cellular and Molecular Biology and Immunology 61
Infection and Microbiology 70

SECTION 3 PERIOPERATIVE AND ORTHOPAEDIC MEDICINE 79

Thromboprophylaxis 79
Perioperative Disease and Comorbidities 84

SECTION 4 OTHER BASIC PRINCIPLES 89

Imaging and Special Studies 89
Biomaterials and Biomechanics 93

TESTABLE CONCEPTS 107

2 ANATOMY 110

F. Winston Gwathmey, Jr.

SECTION 1 INTRODUCTION 110

Overview 110

SECTION 2 UPPER EXTREMITY 111

Shoulder 111
Arm 112
Forearm 116
Wrist and Hand 116

SECTION 3 LOWER EXTREMITY 149

Pelvis, Hip, and Thigh 149
Knee and Leg 151
Ankle and Foot 157

SECTION 4 SPINE 196

Osteology 196
Arthrology 197
Surgical Approaches to the Spine 209

TESTABLE CONCEPTS 216

3 PEDIATRIC ORTHOPAEDICS 218

Matthew R. Schmitz and Jeremy K. Rush

SECTION 1 UPPER EXTREMITY PROBLEMS 219

Brachial Plexus Palsy 219
Sprengel Deformity 219
Fibrotic Deltoid Problems 220
Congenital Pseudarthrosis of the Clavicle 220
Poland Syndrome 220
Apert Syndrome 220

SECTION 2 LOWER EXTREMITY PROBLEMS: GENERAL 221

Rotational Problems of the Lower Extremities 221
Leg Length Discrepancy 222

SECTION 3 HIP AND FEMUR 223

Developmental Dysplasia of the Hip 223
Congenital Coxa Vara 227
Legg-Calvé-Perthes Disease (Coxa Plana) 227
Slipped Capital Femoral Epiphysis 229
Bladder Exstrophy 231
Proximal Femoral Focal Deficiency 231
Lower Extremity Inflammation and Infection 231

SECTION 4 KNEE AND LEG 234

Leg 234
Tibial Bowing 235
Osteochondritis Dissecans 237
Osgood-Schlatter Disease 237
Discoid Meniscus 237
Congenital Dislocation of the Knee 237

SECTION 5 FOOT 238

Clubfoot (Congenital Talipes Equinovarus) 238
Metatarsus Adductus and Skewfoot 239
Pes Cavus (Cavus Foot) 239
Congenital Vertical Talus (Congenital Convex Pes Valgus) 241
Tarsal Coalitions 241
Calcaneovalgus Foot 242
Juvenile Bunions 242
Kohler Disease 243
Flexible Pes Planus 243
Idiopathic Toe Walking 243
Accessory Navicular 243
Ball-and-Socket Ankle 243
Congenital Toe Disorders 243

SECTION 6 PEDIATRIC SPINE 244

Adolescent Idiopathic Scoliosis 244
Early-Onset Scoliosis 247
Juvenile Idiopathic Scoliosis 247

Infantile Idiopathic Scoliosis 247
 Congenital Spinal Deformities 248
 Neuromuscular Scoliosis 249
 Neurofibromatosis 250
 Kyphosis 251
 Cervical Spine Disorders 252
 Spondylolysis and Spondylolisthesis 253
 Other Spinal Conditions 254

SECTION 7 CEREBRAL PALSY 255

Introduction 255
 Classification 255
 Orthopaedic Assessment 257
 Spasticity Treatment 257
 Gait Disorders 257
 Spinal Disorders 257
 Hip Subluxation and Dislocation 258
 Knee Abnormalities 258
 Foot and Ankle Abnormalities 258
 Upper Extremity Management 259

SECTION 8 NEUROMUSCULAR DISORDERS 260

Arthrogryptic Syndromes 260
 Myelodysplasia (Spina Bifida) 261
 Myopathies (Muscular Dystrophies) 263
 Polymyositis and Dermatomyositis 264
 Hereditary Neuropathies 264
 Myasthenia Gravis 265
 Anterior Horn Cell Disorders 265
 Acute Idiopathic Postinfectious Polyneuropathy (Guillain-Barré Syndrome) 265
 Overgrowth Syndromes 265

SECTION 9 BONE DYSPLASIAS 266

Introduction 266
 Achondroplasia 266
 Pseudoachondroplasia 267
 Multiple Epiphyseal Dysplasia 268
 Spondyloepiphyseal Dysplasia 269
 Chondrodysplasia Punctata 269
 Kniest Syndrome 270
 Metaphyseal Chondrodysplasia 270
 Progressive Diaphyseal Dysplasia (Camurati-Engelmann Disease) 270
 Mucopolysaccharidosis 270
 Diastrophic Dysplasia 271
 Cleidocranial Dysplasia (Dysostosis) 271
 Osteopetrosis 271
 Infantile Cortical Hyperostosis (Caffey Disease) 272

SECTION 10 SYNDROMES WITH ORTHOPAEDIC MANIFESTATIONS 272

Down Syndrome (Trisomy 21) 272
 Turner Syndrome 272
 Prader-Willi Syndrome 272
 Marfan Syndrome 273
 Homocystinuria 273
 Ehlers-Danlos Syndrome 273
 Fibrodysplasia Ossificans Progressiva 273
 Rett Syndrome 274

Beckwith-Wiedemann Syndrome 274
 Nail-Patella Syndrome (Hereditary Onychoosteodysplasia) 274

SECTION 11 HEMATOPOIETIC AND METABOLIC DISORDERS AND ARTHRITIDES 274

Gaucher Disease 274
 Niemann-Pick Disease 274
 Sickle Cell Anemia 274
 Thalassemia 275
 Hemophilia 275
 Leukemia 275
 Rickets 275
 Osteogenesis Imperfecta 275
 Juvenile Idiopathic Arthritis 276
 Ankylosing Spondylitis 277

TESTABLE CONCEPTS 277

4 SPORTS MEDICINE 281

James E. Christensen, Brian C. Werner, Stephen R. Thompson, and Mark D. Miller

SECTION 1 KNEE 281

Anatomy 281
 Biomechanics 287
 Diagnostic Techniques 288
 Knee Arthroscopy 288
 Meniscal Injuries 290
 Ligament Injuries 297
 Osteochondral Lesions 303
 Synovial Lesions 306
 Patellofemoral Disorders 307
 Pediatric Knee Injuries 310

SECTION 2 PELVIS, HIP, AND THIGH 311

Contusions 311
 Muscle Injuries 311
 Bursitis 312
 Nerve Entrapment Syndromes 312
 Bone Disorders 312
 Intraarticular Disorders 312
 Femoroacetabular Impingement 313
 Other Hip Disorders 315
 Hip Arthroscopy 315

SECTION 3 SHOULDER 316

Anatomy 316
 Biomechanics 316
 Diagnostic Techniques 318
 Shoulder Arthroscopy 320
 Shoulder Instability 321
 Subacromial Impingement Syndrome 328
 Rotator Cuff Disease 329
 Subscapularis Tears 334
 Rotator Cuff Tear Arthropathy 334
 Subcoracoid Impingement 335
 Internal Impingement 335
 SLAP Tears 336

Proximal Biceps Tendon Pathology 338
 Acromioclavicular and Sternoclavicular Injuries 339
 Muscle Ruptures 340
 Shoulder Stiffness 342
 Nerve Disorders 343
 Other Shoulder Disorders 344

SECTION 4 MEDICAL ASPECTS OF SPORTS MEDICINE 345

Preparticipation Physical Examination 345
 Cardiac Abnormalities in Athletes 345
 Concussion 347
 Sickle Cell Disease 347
 Metabolic Issues in Athletes 348
 Ergogenic Drugs 348
 Female Athlete-Related Issues 348
 Infectious Disease in Athletes 351
 Miscellaneous Sports-Related Injuries and Issues 352

TESTABLE CONCEPTS 353

5 ADULT RECONSTRUCTION 356

Edward J. McPherson, Brian C. Werner, George Keith Gill, and James A. Browne

SECTION 1 EVALUATION OF THE ADULT PATIENT WITH HIP PAIN 357

Physical Examination Tests for Hip Irritability 357
 Imaging 357

SECTION 2 STRUCTURAL HIP DISORDERS IN THE ADULT 358

Natural History 358
 Spectrum of Presentation 358
 Anatomy of Adult Hip Dysplasia 358
 Treatment of Dysplasia 358
 Femoroacetabular Impingement 359
 Treatment of FAI 360

SECTION 3 OSTEONECROSIS OF THE HIP 361

Occurrence 361
 Etiology 361
 Clinical Presentation 361
 Imaging 361
 Staging 361
 Treatment 361
 Transient Osteoporosis of the Hip 362

SECTION 4 TREATMENT OF HIP ARTHRITIS 362

Nonoperative 362
 Operative 363

SECTION 5 TOTAL HIP ARTHROPLASTY 364

Indications 364
 Surgical Approaches 364

Templating 364
 Implant Fixation 364
 Bone Ongrowth Fixation 367
 Hydroxyapatite 367
 Femoral Stem Loading 368
 Femoral Stress Shielding 368
 Femoral Stem Breakage 368

SECTION 6 REVISION THA 370

Presentation 370
 Acetabular Side 370
 Femoral Side 372

SECTION 7 ARTICULAR BEARINGS AND CORROSION IN THA 374

Introduction 374
 Polyethylene 374
 Polyethylene Wear and Osteolysis 376
 Osteolysis Process 376
 Osteolysis Around THA Prosthesis—Effective Joint Space 377
 Particle Debris Formation—Linear Versus Volumetric Wear 377
 Osteolysis—Radiographic Findings in THA 377
 Treatment of Polyethylene Wear 378
 Bearing Lubrication 379
 Metal and Ceramic on PE 379
 Metal on Metal 379
 Hip Resurfacing 382
 Ceramic-on-Ceramic Bearing 382
 Dual-Mobility Components 383
 Trunnion Corrosion 383

SECTION 8 PERIPROSTHETIC THA FRACTURE 384

Time of Fracture 384
 Intraoperative Fracture 384
 Early Postoperative Fracture 384
 Late Fracture 384

SECTION 9 THA—MISCELLANEOUS 385

Nerve Injury 385
 Anatomy 385
 Specific Complications and Host Risk Factors 386
 Venous Thrombosis 386
 Heterotopic Ossification 386
 Iliopsoas Impingement 386
 Implant Facts 386

SECTION 10 THA—JOINT STABILITY 387

Incidence of THA Dislocation 387
 Risk Factors for Dislocation 387
 Assessment 387
 Treatment 392

SECTION 11 KNEE ARTHRITIS ASSESSMENT 395

Clinical Presentation 395
 Imaging Studies 395

SECTION 12 KNEE ARTHRITIS TREATMENT 396

Consensus Treatment 396

SECTION 13 TOTAL KNEE ARTHROPLASTY 398

Indications 398

Survival of TKA 398

Technical Goals 398

Preoperative Planning 398

Goals of Bone Cuts in TKA 399

Coronal Plane Ligament Balancing 400

Flexion Deformity (i.e., Flexion Contracture) 401

Sagittal Plane Balancing 402

Perioperative Nerve Blocks 402

Postoperative Therapy 402

Complications 402

SECTION 14 TKA DESIGN 409

Design Categories 409

Cruciate-Retaining Primary TKA Design 409

Cruciate-Sacrificing Primary TKA Designs 410

Tibial Rotating Platform in Primary TKA 413

Modularity in Primary TKA 414

All-Polyethylene Tibia (APT) 414

Constraint in TKA 414

SECTION 15 REVISION TKA 417

Preoperative Evaluation 417

Surgical Approach 417

Implant System 417

Modular Bearing Change for *Premature*

Excessive Wear 417

Technique of Revision TKA 417

Revision TKA—Patella 418

SECTION 16 PATELLAR TRACKING IN TKA 418

Introduction 418

Q Angle in TKA 418

TKA Techniques to Optimize Patellar Tracking 418

Intraoperative Assessment of Maltracking 421

Postoperative Assessment of Maltracking 421

Patella Baja 421

Patellar Resurfacing Versus Nonresurfacing 421

SECTION 17 CATASTROPHIC WEAR IN TKA 424

Premature Failure of TKA Implant 424

Factors Involved in Catastrophic Wear 424

"Perfect Storm" Scenario for Catastrophic Wear 427

Measures to Mitigate Catastrophic PE Wear 427

SECTION 18 GLENOHUMERAL ARTHRITIS 427

Introduction 42

History and Physical Examination 428

Imaging 428

Treatment 428

SECTION 19 SHOULDER HEMIARTHROPLASTY 430

Indications 430

Requirements 430

Complications 431

Conversion From Hemiarthroplasty to TSA 431

Hemiarthroplasty for Cuff Tear Arthropathy 431

SECTION 20 TOTAL SHOULDER ARTHROPLASTY 431

Introduction 431

Requirements 431

Component Positioning 431

Rehabilitation 431

Complications 432

SECTION 21 REVERSE TOTAL SHOULDER ARTHROPLASTY 432

Introduction 432

Requirements 432

Component Positioning 432

Complications 432

SECTION 22 INFECTION IN SHOULDER ARTHROPLASTY 433

Introduction 433

Common Organisms 433

History and Physical Examination 433

Investigations 433

Microbiology 434

Management 434

TESTABLE CONCEPTS 435

6 DISORDERS OF THE FOOT AND ANKLE 438

Anish R. Kadakia and Amiethab A. Aiyer

SECTION 1 BIOMECHANICS OF THE FOOT AND ANKLE 439

Anatomy 439

Foot Positions Versus Foot Motions 442

Gait Cycle 442

SECTION 2 PHYSICAL EXAMINATION OF THE FOOT AND ANKLE 445

Inspection 445

Gait Evaluation 445

Vascular Examination 445

Neurologic Examination 446

Motor Examination 446

Palpation and Stability Assessment 447

Range of Motion (ROM) 448

SECTION 3 RADIOGRAPHIC EVALUATION OF THE FOOT AND ANKLE 449

SECTION 4 ADULT HALLUX VALGUS 450

SECTION 5 JUVENILE AND ADOLESCENT HALLUX VALGUS 456

SECTION 6 HALLUX VARUS 458

SECTION 7 LESSER-TOE DEFORMITIES 459

Anatomy and Function 459
Deformities 459

SECTION 8 HYPERKERATOTIC PATHOLOGIES 464

Intractable Plantar Keratosis (IPK) 464
Bunionette Deformity (Tailor's Bunion) 464

SECTION 9 SESAMOIDS 466

Anatomy 466
Deformities 466

SECTION 10 ACCESSORY BONES 468

SECTION 11 NEUROLOGIC DISORDERS 468

Interdigital Neuritis (Morton Neuroma) 468
Recurrent Neuroma 469
Tarsal Tunnel Syndrome 470
Plantar Nerve Problems 471
Anterior Tarsal Tunnel Syndrome 472
Superficial Peroneal Nerve Entrapment 472
Sural or Saphenous Nerve Entrapment 472
Sequelae of Upper Motor Neuron Disorders 473
Charcot-Marie-Tooth (CMT) Disease 473
Peripheral Nerve Injury and Tendon Transfers 475

SECTION 12 ARTHRITIC DISEASE 476

Crystalline Disease 476
Seronegative Spondyloarthropathy (SNSA) 476
Rheumatoid Arthritis 477
Osteoarthritis 479

SECTION 13 POSTURAL DISORDERS 485

Pes Planus (Flatfoot Deformity) 485
Pes Cavus Deformity 488

SECTION 14 TENDON DISORDERS 490

Achilles Tendon 490
Peroneal Tendons 490
Posterior Tibial Tendon 491
Anterior Tibial Tendon 491
Flexor Hallucis Longus 491

SECTION 15 HEEL PAIN 492

Plantar Heel Pain 492
Achilles Disorders 492

SECTION 16 ANKLE PAIN AND SPORTS INJURIES 496

Ankle Sprains 496
High Ankle Sprains 497
Ankle Impingement 497
Osteochondral Lesions 497
Chronic Exertional Compartment Syndrome 498
Technical Pearls for Ankle Arthroscopy 498

SECTION 17 THE DIABETIC FOOT 499

Pathophysiology 499
Clinical Problems 499

SECTION 18 TRAUMA 502

Phalangeal Fractures 502
Metatarsal Fractures 502
First MTP Joint Injuries 504
Tarsometatarsal Fractures and Dislocations (Lisfranc Injury) 504
Midfoot Injuries (Excluding Lisfranc Injuries) 507
Talus Fractures 511
Calcaneus Fractures 516
Peritalar (Subtalar) Dislocations 518
Compartment Syndrome 519
Ankle Fractures 521
Pilon (Tibial Plafond) Fractures 526

TESTABLE CONCEPTS 529

7 HAND, UPPER EXTREMITY, AND MICROVASCULAR SURGERY 534

Eric R. Wagner and Sanjeev Kakar

Anatomy 534
Distal Radius Fractures 537
Carpal Fractures and Instability 543
Metacarpal and Phalangeal Injuries 550
Tendon Injuries and Overuse Syndromes 555
Distal Radioulnar Joint, Triangular Fibrocartilage Complex, and Wrist Arthroscopy 560
Nail and Fingertip Injuries 562
Soft Tissue Coverage and Microsurgery 566
Vascular Disorders 569
Compression Neuropathy 572
Nerve Injuries and Tendon Transfers 580
Arthritis 584
Idiopathic Osteonecrosis of the Carpus 590
Dupuytren Disease 591
Hand Tumors 593
Hand Infections 597
Injection Injury 600
Congenital Hand Differences 600
Elbow 604

TESTABLE CONCEPTS 611

8 SPINE 618

Francis H. Shen and Adam Shimer

Introduction 618
Cervical Spine 621
Thoracic Spine 629
Lumbar Spine 630
Adult Deformity 640
Sacropelvis 642
Spinal Tumors 643
Spinal Infections and Inflammatory Arthritides 645
Spinal Trauma 649

TESTABLE CONCEPTS 665

9 ORTHOPAEDIC PATHOLOGY 669

Ginger E. Holt

SECTION 1 PRINCIPLES OF PRACTICE 669

Presentation 669
Imaging 669
Biopsy (Bone and Soft Tissue) 672
Molecular Biology (Bone and Soft Tissue) 673
Grading (Bone and Soft Tissue) 673
Staging (Bone and Soft Tissue) 673
Treatment (Bone and Soft Tissue) 673

SECTION 2 SOFT TISSUE TUMORS 676

Introduction 676
Malignant Soft Tissue Tumors (Soft Tissue Sarcomas) 676
Soft Tissue Sarcoma Subtypes 677
Benign Soft Tissue Tumors 679
Tumors of Fibrous Tissue 679
Tumors of Fatty Tissue 679
Tumors of Neural Tissue 680
Vascular Tumors 680
Synovial Proliferative Disorders 680
Posttraumatic Conditions 680
Clinical Pearls for Soft Tissue Sarcoma 681

SECTION 3 BONE TUMORS 681

Presentation 681
Bone-Producing Lesions 681
Nonosteogenic Osteosarcoma/Malignant Fibrous
Histiocytoma 685
Chondrogenic Lesions 685
Fibrous Lesions 688
Notochordal Tissue Tumors 690
Vascular Tumors 690
Hematopoietic Tumors 690
Tumors of Unknown Origin 693
Tumorlike Conditions 695
Metastatic Bone Disease 698

TESTABLE CONCEPTS 702

10 REHABILITATION: GAIT, AMPUTATIONS, PROSTHESES, ORTHOSES, AND NEUROLOGIC INJURY 706

Chan Gao, Gerasimos Bastas, and Nitin Jain

SECTION 1 GAIT 706

Walking 706
Gait Dynamics 707
Determinants of Gait (Motion Patterns) 707
Muscle Action 709
Pathologic Gait 710

SECTION 2 AMPUTATIONS 711

Introduction 711
Metabolic Cost of Amputee Gait 711
Load Transfer 711
Amputation Wound Healing 712
Pediatric Amputation 712
Amputation After Trauma 712
Risk Factors 713
Musculoskeletal Tumors 713
Technical Considerations 714
Complications 714
Upper Limb Amputations 714
Lower Limb Amputations 716

SECTION 3 PROSTHESES 718

Upper Limb 718
Lower Limb 718

SECTION 4 ORTHOSES 723

Introduction 723
Shoes 723
Foot Orthoses 723
Ankle-Foot Orthoses 723
Knee-Ankle-Foot Orthosis 723
Hip-Knee-Ankle-Foot Orthosis 723
Elbow Orthosis 728
Wrist-Hand Orthosis 728
Fracture Braces 728
Pediatric Orthoses 728
Spine Orthoses 728

SECTION 5 SURGERY FOR STROKE AND CLOSED-HEAD INJURY 728

Introduction 728
Lower Limb 729
Upper Limb 729

SECTION 6 POSTPOLIO SYNDROME 729

Cause 729
Treatment 729

TESTABLE CONCEPTS 730

11 TRAUMA 731

David J. Hak and Cyril Mauffrey

SECTION 1 CARE OF THE MULTIPLY INJURED PATIENT 731

Principles of Trauma Care 731
Care of Injuries to Specific Tissues 733
Biomechanics of Fracture Healing 737
Biomechanics of Open Reduction and Internal Fixation (ORIF) 737

SECTION 2 UPPER EXTREMITY 738

Shoulder Injuries 738
Humeral Injuries 741
Elbow Injuries 743
Forearm Fractures 744
Wrist Fractures 745
Carpal Injuries 746
Hand Injuries 746

SECTION 3 LOWER EXTREMITY AND PELVIS 746

Pelvic and Acetabular Injuries 746
Femoral and Hip Injuries 754
Knee Injuries 760
Tibial Injuries 763

SECTION 4 PEDIATRIC TRAUMA 766

Introduction 766
Child Abuse 766
Physeal Fractures 767
Pediatric Polytrauma 768
Shoulder and Arm Injuries 768
Elbow Injuries 769
Forearm Fractures 776
Pediatric Scaphoid Fracture 776
Lower Extremity Injuries 776

TESTABLE CONCEPTS 783

12 PRINCIPLES OF PRACTICE 789

Marc M. DeHart

Introduction 789

Medical Professionalism in the New Millennium: A Physician Charter (2002) 789

Aspirational Documents 790

Standards of Professionalism 791

Child, Elder, and Spousal Abuse 792

Sexual Misconduct 793
