

## CONTENTS

- S-1 *MASSER, I. (UK)* - European Research Agenda and the GIS Metta Programme
- S-8 *BJØRKE J.T. (Norway)* - Information Theory: The implications for Automated Map Design
- S-21 *NEUMANN, J. (CZ)* - Fundamental Base of Geographic Data of the Czech Republic
- S-27 *ČÍHAL, R. (CZ)* - GIS Application on Railway
- S-35 *MARŠÍK, V. (CZ)* - Oncological Description of the Czech Republic Assisted by GIS
- S-45 *MCGRATH, G. (Canada)* - A Perspective on Land Information and Change in Eastern Europe
- S-61 *VERWOERT, CH., ALBAREDES, G. (Netherland)* - Open GIS Comes to Bussiness
- S-69 *KRIZ, K., RIEDL, A. (Austria)* - Cartographic Visualization and GIS
- S-75 *ROULE, M. (CZ)* - Solution of the Research Project "Establishment of the Automated Information System of Geodesy and Cartography"
- S-85 *KANTOR, Č., VÍT, M. (CZ)* - The Evaluation of the Risk Assessment Factors of the Environment Assisted by GIS
- S-95 *VOŽENÍLEK, V. (CZ)* - Czech GIS Data in Context of European Data Availability
- S-100 *KOLEJKA, J., POKORNÝ, J. (CZ)* - Application of the Remotely Sensed and GIS Data in the Planning of the Territorial Systems of the Ecological Landscape Stability
- S-111 *KOLEJKA, J., SHALLAL, J. (CZ + Iraq)* - Acquisition of the Soil Erosion Data for an Environmental GIS Supply
- S-121 *GUPTA, H.S. (India)* - Application of Remote Sensing & GIS an Evaluation of India Scene
- S-128 *VULETA, R. (Hungary)* - GIS and Remote Sensing in Waste Management

- S-137 SHUPENG, CH., FANG, Q. (*China*) - Geo-Information System for Regional Sustainable Development - Case Studies in China
- S-144 VEVERKA, B., KHALIL, R. (*CZ+Egypt*) - Optimizing of ARC/INFO Technology in Digital Mapping
