

CONTENTS

P. Budil : *Doc. RNDr. Jaroslav Kraft, CSC*2

P. Kraft: *Jaroslav Kraft and his studies of graptolites*.....5

S. Berkyová & J. Frýda: *The Basal Choteč event in the Prague Basin, Czech Republic: palaeontological, geochemical and sedimentological approach*.....9

P. Bokr: *Possibilities of the computer processing of the palaeontological data*12

P. Budil & O. Fatka: *Exoskeletal structures in Ordovician trilobites of the Prague Basin (Czech Republic)*.....13

A. Ernst, Š. Manda & K. Zágorský: *First cryptostome bryozoan from the Silurian of Bohemia*.....17

O.Fatka, P. Budil, M. Szabad & J. Bruthansová: *Exoskeletal configurations and malformations in Cambrian and Ordovician agnostids: (Barrandian area, Czech Republic)*.....19

J. Frýda, Š. Manda, M. Rieder, P. Týcová, J. Haloda, B. Frýdová, S. Berkyová & L. Ferrová: *Crystallographic textures of molluscan shells: A new tool unravelling phylogeny*25

T. Hroch, P. Kraft, M. Rajchl: *Sedimentary processes and environment in the Třenice Formation (Ordovician, Prague Basin, Bohemian Massif)*.....28

R. Mikuláš: *The principle of “Frozen Evolution” and its manifestation in the fossil record: the brachiopod genus Aegiromena Havlíček, 1961 (Upper Ordovician, Czech Republic)*.....32

J.M. Pacaud, P. Budil, D. Holloway – F. Hörbinger: *Questionable syntypes of Asaphus hausmanni Brongniart, 1822 (Trilobita, Lower Devonian)*.....39

Š. Rak: *History of trilobite research in Moravia*.....45

R.Šarič & P. Budil: *Practical notes and hints on methods of fossil preparation*.....50

Z.Tasáryová, Z. Skácelová & B. Mlčoch: *Subsurface modelling of the Bohemian Cretaceous Basin: Top envelope of Permocarboniferous deposits, preliminary results*56

V. Turek: *Apertural modifications in the Lower Devonian nautiloid Hercoceras (Cephalopoda, Oncocerida)*.....59

Z.Vyhlasová: *Sculpture variability in exoskeletons of conularia on example of the species Metaconularia imperialis (Barrande, 1867) and Pseudoconularia grandissima (Barrande,1867)*.....63
