

## A Course in Language Teaching

Practice and theory

### TRAINEE BOOK

*A Course in Language Teaching* provides a complete introduction to teaching languages. The course consists of modules on key topics such as Practice Activities, Testing, Teaching Reading, Lesson Planning, Teaching Large Heterogeneous Classes – and many others.

*This Trainee Book* is designed to accompany the main book, and provides all the task material, essential reading and worksheets needed to complete a course based on the modules of the main book. It is suitable for student teachers studying in a trainer-led course, where the trainer will refer to the main book for background information, bibliographies, notes and solutions.

Penny Ur is a teacher and teacher-trainer, and is author of several successful books for teachers in Cambridge Handbooks for Language Teachers series: *Discussions that Work*, *Five-Minute Activities* (with Andrew Wright), *Grammar Practice Activities* and *Teaching Listening Comprehension*.
