## HOW TO USE THIS BOOK

The activities in this book are organized into three categories:

- pre-reading
- reading
- post-reading
- intensive
- extensive

Pre-reading activities focus on preparing and intriguing learners by providing material that helps them gain insights and context about what they will read.

Reading activities occur during a reading and invite learners to find material that will help them understand the text more readily. Some of these reading activities must be given ahead of time so that learners can read and work on their own, but other reading activities involve stopping
