

TABLE OF CONTENTS

ACKNOWLEDGEMENTS	vii
1.0. INTRODUCTION TO THE GEOECONOMY	1
2.0. GEOSPATIAL KNOWLEDGE: KEY TO SURVIVAL	7
2.1. Introduction	7
2.2. The Nature of Geospatial Knowledge	8
2.3. The Impact of Geography	9
2.4. Prehistoric Maps: Early Depiction of Geospatial Information	11
2.5. Greek and Roman Mapping: Geospatial Knowledge and Frame of Reference	13
2.6. The European Age of Geography	16
2.7. China's Focus on Geography	21
2.8. Application of the Geospatial Perspective	24
2.9. Technological Escalation	26
2.9.1. Introduction	26
2.9.2. Aerial Photography and Remote Sensing	27
2.9.3. Geographic Information Systems	32
2.10. Conclusion	36
3. NOW!	39
3.1. Introduction	39
3.2. Technology Factors	41
3.2.1. Introduction to the New – and Not-so-New Geo-Technologies	41
3.2.2. GPS	43
3.2.3. Satellite and Airborne Remote Sensing	55
3.2.4. Mapping On-demand and Traditional Mapping	97
3.2.5. GIS and Data Integration	118
3.2.6. Geospatial Data Infrastructures	132
3.3. Understanding New Data and Making Them Valuable	140
3.3.1. What is the issue?	140
3.3.2. What is it used for?	149
3.3.3. What are the implications?	154
3.4. New Policies	157
3.4.1. Introduction: Policy is Important	157
3.4.2. Data Policy	159
3.4.3. Other Government Policy Areas that Impact Geospatial and the GeoEconomy	172
3.5. New and Expanding Needs for Geo-information	182
3.5.1. Introduction	182
3.5.2. Expansion of Existing Needs	182
3.5.3. The Growth in New Needs for Geo-information	188
3.5.4. Conclusion: Impact on the GeoEconomy	190

4. CONVERGENCE AND SOCIETAL IMPACTS OF GEOGRAPHIC INFORMATION IN THE GEOECONOMY: TODAY	193
4.1. Introduction	193
4.2. Rapid Convergence and Implications	194
4.2.1. Introduction to Convergence	194
4.2.2. Technology Convergence	195
4.2.3. Discipline Convergence	199
4.2.4. Policy Convergence	202
4.2.5. The Active Use of Converging Geospatial Information	212
4.2.6. Conclusion	213
4.3. The Result: Societal Impacts	213
4.3.1. Introduction	213
4.3.2. Raised Expectations	214
4.3.3. Competitive Advantage	215
4.3.4. A More Holistic View	217
4.3.5. Environmental Assessment and Monitoring	218
4.3.6. Government Efficiency and Transparency	219
4.3.7. Health and Safety	221
4.3.8. Industrial Efficiency	223
4.3.9. Agriculture	224
4.3.10. Military Operations	225
4.3.11. Natural Resource Management	225
4.3.12. Security	226
4.3.13. Conclusion	226
4.4. Changing Social Values	226
4.5. Conclusion	228
5. FUTURE SOCIETAL AND ENVIRONMENTAL TRENDS DRIVING THE NEED FOR GEO-INFORMATION USE AND TECHNOLOGIES	229
5.1. Introduction	229
5.2. The Need to Monitor Environmental Processes	231
5.3. Management of Strategic Commodities	232
5.3.1. Food	232
5.3.2. Other Strategic Commodities and Political Influence	234
5.3.3. Water	235
5.4. Transparency of Government and Industry Activities	236
5.5. Global Competition	237
5.6. Commoditization of Geospatial Data	237
5.7. Sovereignty and National Interests	238
5.8. Infrastructure Renewal	240
5.9. Conclusion	241
6. GAINING THE GEO-ADVANTAGE	243
6.1. Introduction	243
6.2. Individuals	245

6.2.1. Introduction	245
6.2.2. Choosing a School	246
6.2.3. Choosing a Work Location	247
6.2.4. Choosing a Place to Live	248
6.2.5. Choosing a Place to Retire	250
6.2.6. Buying a Recreation Property	251
6.2.7. Where to Invest	252
6.2.8. Buying Large Ticket Items: Cars and Furniture	253
6.2.9. Getting to Where You Want to Go	254
6.2.10. Conclusion	255
6.3. Communities	256
6.3.1. Introduction	256
6.3.2. Towards a Better Understanding of Your Community and Its Geospatial Needs	258
6.3.3. Infrastructure Management, Maintenance and Planning	258
6.3.4. Land Use Planning and Zoning	260
6.3.5. Transit, School Buses and Municipal Service Delivery	261
6.3.6. School Planning	262
6.3.7. Urban Parks and Recreation Management	265
6.3.8. Policing and Security	266
6.3.9. Economic Development	269
6.3.10. Getting the Right Technology for the Job	271
6.4. Companies	273
6.4.1. Introduction	273
6.4.2. Business Intelligence, Marketing, and Risk Assessment	275
6.4.3. Consulting and Service Delivery	278
6.4.4. Natural Resource Management	279
6.4.5. Environment	283
6.4.6. Choosing the Technology	286
6.5. Countries and States	286
6.5.1. Introduction	286
6.5.2. Environment and Global Change	290
6.5.3. Safety and Security	299
6.5.4. Sovereignty	301
6.5.5. Infrastructure Building and Management	304
6.5.6. Resource Management	308
6.5.7. International Development Assistance	322
6.5.8. National Economic Planning	326
6.5.9. Audit and Management	327
6.5.10. Planning a Municipal, State, or National Geospatial Program	329
6.5.11. Education and Training	333
7.0 CONCLUSION	339
