Online Resources	xxix
INTRODUCTION	1
1 Introduction to the Book	3
Who is this book for?	4
The qualitative research cycle	4
Structure of the book	6
Features of the book	7
2 The Nature of Qualitative Research and our Approach	9
What is qualitative research?	10
When to use qualitative research	11
The underlying interpretive paradigm	11
Qualitative and quantitative research	16

Verstehen and understanding	17
The emic and etic perspectives	18
Subjectivity and the need for reflexivity	19
Our approach to qualitative research	22
Evaluating quality	23
Further reading	24
PART I THE DESIGN CYCLE	26
3 Qualitative Research Design	29
Introduction	30
Formulating qualitative research questions	31
Incorporating literature and theory	33
Developing a conceptual framework	36
Selecting qualitative research methods	41
Evaluating quality	46
Further reading	48
4 Designing Participatory Research	49
Introduction	50
Our participatory approach to qualitative research	51
The participatory design sub-cycle	60
A participatory approach in data collection and analysis	63
Different roles of the researcher	64
Evaluating quality	65
Further reading	66
5 Ethical Issues in Qualitative Research	69
Introduction	70
What is ethics?	70
Ethics in qualitative research	71
Ethical issues in the design cycle	72
Ethical issues in the data collection cycle	74
Ethical issues in the analytic cycle	83
Evaluating quality	84
Further reading	85
PART II THE DATA COLLECTION CYCLE	88
6 Sampling and Participant Recruitment	91
What is purposive sampling?	92
Purposive sampling process	93
Participant recruitment strategies	97
How many participants? The principle of saturation	108
Evaluating quality	111
Further reading	113

7 In-depth Interviews

115

What is an in-depth interview? 116

When to use in-depth interviews 117

Purpose of an in-depth interview 117

The cyclical nature of data collection 118

Developing an interview guide 118

Preparing for data collection 125

Conducting the interview: Skills of the interviewer 127

Strengths and limitations 133

Evaluating quality 134

Further reading 136

8 Focus Group Discussions

137

What is a focus group discussion? 138

When to use focus group discussions 138

The cyclical nature of data collection 142

Developing the discussion guide 143

Preparing for data collection 149

Conducting focus group discussions 153

Post-discussion information 163

Virtual focus groups 164

Strengths and limitations 165

Evaluating quality 166

Further reading 168

9 Observation

169

What is observation? 170

When to use observation 171

The cyclical nature of data collection 172

What to observe 173

Types of observation 180

Preparation and conduct of observation 190

Writing an observation 194

Reporting observations 197

Strengths and limitations 198

Evaluating quality 198

Further reading 199

PART III THE ANALYTIC CYCLE

202

10 Data Preparation and Developing Codes

207

Introduction 208

Different approaches to textual data analysis 209

The nature of qualitative data analysis 212

Textual data preparation 213

Developing codes 219

Making a codebook	224
Using software in qualitative analysis	229
Evaluating quality	232
Further reading	234
11 Textual Data Analysis	235
Introduction	236
Developing an analysis plan	236
Searching data	237
The cyclical process of analysis	239
Description	239
Comparison	245
Categorizing and conceptualizing	247
Theory development	257
Evaluating quality	264
Further reading	265
12 From Analysis to Participatory Action	267
Introduction	268
From analysis to participatory action	269
Designing action: The participant-based action cycle for social change	273
The overall <i>participatory</i> qualitative research cycle	275
The implementation of participatory projects: Tailored to the context	285
Different roles of the researcher	287
Evaluating quality	287
Further reading	288
13 Academic Writing of Qualitative Research	291
Writing qualitative research	292
Before you write	293
Writing a qualitative research article	296
After you write	315
Evaluating quality	317
Further reading	318
POSTSCRIPT Assessing Quality in the Qualitative Research Cycle	321
Glossary	325
References	333
Index	341
