

Preface	IX
Opening addresses	XI

INTRODUCTORY LECTURE:

A. LICHNEROWICZ, <i>Géométrie et Physique</i>	1
---	---

INVITED LECTURES:

S. BENENTI, <i>The Category of Symplectic Reductions</i>	11
M. FERRARIS, M. FRANCAVIGLIA, <i>On the Global Structure of Lagrangian and Hamiltonian Formalisms in Higher Order Calculus of Variations</i>	43
J.L. KOSZUL, <i>Graded Manifolds and Graded Lie Algebras</i>	71
D. KRUPKA, O. ŠTĚPÁNKOVÁ, <i>On the Hamilton Form in Second Order Calculus of Variations</i>	85
A. LICHNEROWICZ, <i>Deformations and Quantization</i>	103
C.M. MARLE, <i>Monent de l'action hamiltonienne d'un groupe de Lie; quelques propriétés</i>	117
L. MANGIAROTTI, M. MODUGNO, <i>Fibered Spaces, Jet Spaces and Connections for Field Theories</i>	135
G. MARMO, E.J. SALETAN, A. SIMONI, <i>Reduction of Dynamical Systems</i>	167
A. PÉREZ-RENDÓN, <i>Principles of Minimal Interaction</i>	185
J.F. POMMARET, <i>Lie Pseudogroups and Gauge Theories</i>	217

CONTRIBUTED PAPERS:

P. COTTA-RAMUSINO, <i>Geometry of Gauge Orbits and Ghost Fields</i>	229
C. DUVAL, <i>Einstein-Yang-Mills-Higgs General Covariance and Mass Formulas</i>	239
C. GÜNTHER, <i>Prequantization and Liouville Equation</i>	253
G. MARMO, <i>A Geometrical Characterization of Completely Integrable Systems</i>	257
C. REINA, <i>Algebraic Geometrical Methods in Field Theory: the Example of CP^N Models</i> .	263
D.H. RUIPÉREZ, J. MUÑOZ MASQUÉ, <i>Higher Order Jet Bundles for Graded Manifolds (Superjets)</i>	271

* The papers by P.L. Garcia, A. Trautman and W. Tulczyjew were not received in the final form in time for inclusion in the Proceedings. We hope to incorporate them in the forthcoming issues of the Journal.
